Actiontec MoCA Network Adapters ECB7250 KIT User Guide

Quick Start Guide
MoCA Network Adapters

ECB7250 KIT

This Quick Start Guide will walk you through the easy steps to connect your MoCA Network Adapters.
Congratulations! You've successfully connected your device to the Internet.
Additional MoCA Network Adapters may be purchased and connected to other devices needing an Ethernet connection and that is near a coaxial port.

Contents

Step 1: Connect to your Modem/Router

a Get one **MoCA Network Adapter.**
b Connect one **Ethernet Cable** from the **Network Adapter** to the **Modem/Router.**
c Connect one **Splitter** to the **Coax Cable** coming from the **Coax Outlet** on the wall.
**d** Connect one **Coax Cable** from the **Splitter** to the **Coax In** port on the **Network Adapter.**
Note: If you have a TV or set-top box near your modem/router, connect a coax cable from the splitter to the TV or set-top box.
e Connect the second **Power Adapter** to the **Network Adapter** and to a **Power Outlet.**
f Wait until the **Power** light on the front of the adapter is **GREEN**
g When the **Coax** LED is **GREEN** on both adapters, your adapters are working.

Step 2: Connect to your Device

a Get one **MoCA Network Adapter.**

b Locate the device or access point (laptop, etc.) that needs to connect to the Internet. Connect one **Ethernet Cable** from the **Network Adapter** to the **Device.**

c Connect one **Splitter** to the **Coax Cable** coming from the **Coax Outlet** on the wall.
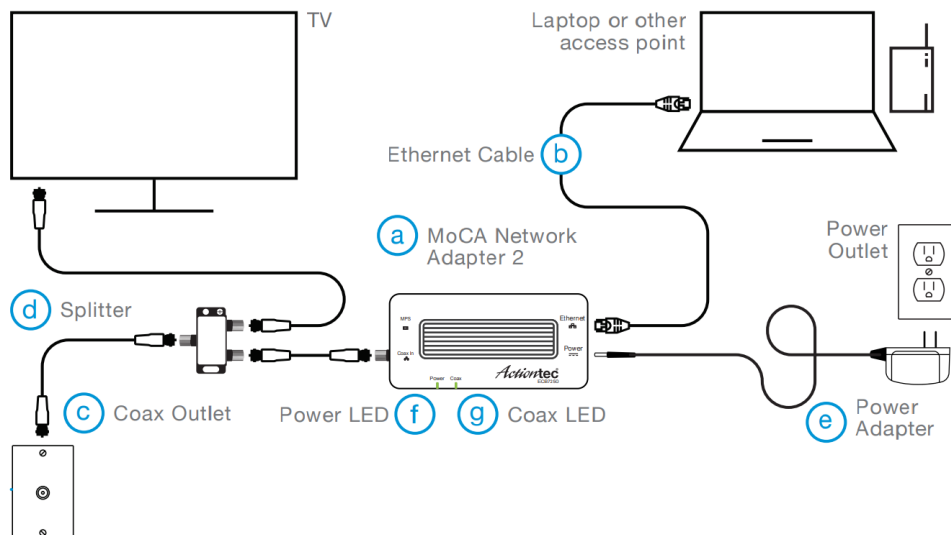

d Connect one **Coax Cable** from the **Splitter** to the **Coax In** port on the **Network Adapter.**

e Connect one **Power Adapter** to the **Network Adapter** and to a **Power Outlet.**

f Wait until the **Power** light on the front of the adapter is **GREEN**

g **IMPORTANT!** If the **Coax LED** on the **Network Adapter** is already **GREEN**, you may have MoCA built into your modem/router. Check the device you just connected. If it is connected to the Internet, you're done*. If the device does not connect to the Internet, return to Step 1.

* You may use the 2nd adapter with another device or access point.
