Skullcandy S2IFW-N740

Skullcandy Indy Fuel In-Ear Wireless Earbuds User Manual

Model: S2IFW-N740

Introduction

This manual provides comprehensive instructions for the setup, operation, and maintenance of your Skullcandy Indy Fuel In-Ear Wireless Earbuds. These earbuds offer a true wireless audio experience with advanced features designed for convenience and durability.

What's in the Box

Verify that all components are present in your package:

- True Wireless Earbuds (Left and Right)
- Charging Case
- Ear Gels (Small, Medium, Large)
- USB-C Charging Cable
- User Manual (this document)

Image: All items included in the Skullcandy Indy Fuel package: the earbuds, charging case, various sizes of ear gels, and a USB-C charging cable.

Setup

1. Initial Charging

Before first use, fully charge your Indy Fuel earbuds and charging case. The case supports wireless charging.

- Place the earbuds into the charging case.
- Connect the USB-C cable to the charging case and a power source, or place the case on a compatible wireless charging pad.
- The LED indicators on the case will show charging status. A full charge provides up to 30 hours of total play time (6 hours in buds, 24 hours in case). Rapid Charge provides 2 hours of play from 10 minutes of charging.

Image: A close-up of the Skullcandy Indy Fuel charging case, highlighting its wireless charging capability.

2. Bluetooth Pairing

1. Remove both earbuds from the charging case. They will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), open the Bluetooth settings.
3. Select "Indy Fuel" from the list of available devices.
4. Once connected, you will hear an audible confirmation.

For subsequent uses, the earbuds will automatically connect to the last paired device when removed from the case.

Operating Instructions

Touch Controls

The Indy Fuel earbuds feature intuitive touch controls on each bud:

- **Play/Pause:** Single tap on either earbud.
- **Track Forward:** Double tap the Right earbud.
- **Track Back:** Double tap the Left earbud.
- **Volume Up:** Press and hold the Right earbud.
- **Volume Down:** Press and hold the Left earbud.
- **Answer/End Call:** Single tap on either earbud.
- **Activate Voice Assistant:** Triple tap on either earbud.
- **Switch EQ Modes (Music, Podcast, Movie):** Press and hold either earbud for 2 seconds.
- **Ambient Mode On/Off:** Press and hold either earbud for 2 seconds (after EQ mode switch).

Using a Single Earbud (Solo Mode)

You can use either the left or right earbud independently. Simply remove one earbud from the case and leave the other in the case. The active earbud will function normally for audio and calls.

Maintenance

The Skullcandy Indy Fuel earbuds are designed with an IP55 rating, making them sweat, water, and dust resistant. To ensure longevity and optimal performance:

- Clean earbuds regularly with a soft, dry cloth.
- Avoid submerging the earbuds in water.
- Ensure earbuds are dry before placing them back into the charging case to prevent damage to charging contacts.
- Store in a cool, dry place when not in use.

Troubleshooting

Earbuds Not Pairing/Connecting

- Ensure both earbuds are fully charged.
- Turn off Bluetooth on your device, then turn it back on.
- Forget "Indy Fuel" from your device's Bluetooth list and attempt to re-pair.
- If issues persist, perform a factory reset (refer to Skullcandy support for specific steps if not in quick start guide).

One Earbud Not Working

- Ensure both earbuds are properly seated in the charging case and charging contacts are clean.
- Try resetting the earbuds by placing them both in the case, closing the lid for a few seconds, then reopening.
- Check if the earbud is connected to another device.

Locating Lost Earbuds with Tile™ Technology

The Indy Fuel earbuds have built-in Tile™ technology to help you locate them if misplaced.

1. Download the Tile app on your smartphone.
2. Follow the in-app instructions to activate and register your earbuds.
3. Use the Tile app to ring your earbuds or view their last known location on a map.
