## DTL DSN – DTL® DSN, Itron Ready Networked Photocontrols

## “Itron Ready” Fixtures

Focus Application for Outdoor Pole Mount Area and Roadway Lighting Goal of this Solutions Guide is to give specific products and schematics for applying Sensor Switch and eldoLED product compatible with the ITRON DSN Node from DTL.

### Sensor Switch products:

*SBG 6 & 10  
Outdoor Embedded Motion  
Sensor*

*SBO Family  
Outdoor Pole/ Fixture  
Mount Motion Sensor*

### eldoLED products:

#### ECOdrive

Value delivered

**30 Watt**  
30-watt ECOdrive are ideal for indoor applications. Offering industry-leading Natural Dimming to 1%. Different form factors are available for the perfect fit with your luminaire.  
[Read more ...](#)

**75 Watt**  
75-watt ECOdrive are ideal for higher lumen package indoor applications. Offering industry-leading Natural Dimming to 1%. Different form factors are available for the perfect fit with your luminaire...

**50 Watt**  
50-watt ECOdrive are ideal for higher lumen package indoor applications. Offering industry-leading Natural Dimming to 1%. Different form factors are available for the perfect fit with your luminaire.  
[Read more ...](#)

**100 Watt**  
100-watt ECOdrive are ideal for higher lumen package indoor applications. Offering industry-leading Natural Dimming to 1%. Different form factors are available for the perfect fit with your luminaire.

DSN127/347/480

## “Itron Ready” Fixtures

### A note about Drivers:

- eldoLED drivers are not typically specified for outdoor applications but are listed here to keep this in the Acuity family.
- The DSN Node does not support eldoLED for Dim to Warm or  Tunable White features.
- Match the DSN Node protocol to the driver dimming protocol: DALI or 0-10V
- Brand-X DALI or 0-10V drivers can be used.

DSN127/347/480

DSN PHOTOCONTROL <sup>1</sup>							Example: DSN 127 BK 0 USM5 DSTY			
Series	Voltage	Cover Color	Dimming	GPS	Lens Type	Time Zone <sup>2</sup>	Daylight Saving Time			
DSN DTL Silver Spring (now Itron) Node	127 120-277V	BK Black	0 0-10V dimming	G GPS	TNL Tunnel Lens	USM4 Atlantic Standard Time	DSTY	DST	enabled	
	347 347V	GN Green <sup>3</sup>	D DALI dimming	[blank] No GPS	[blank] Regular Lens	USM5 Eastern Standard Time	DSTN	DST	disabled	
	480 480V			USM6 Central Standard Time						
				USM7 Mountain Standard Time						
				USM8 Pacific Standard Time						
				USM9 Alaska Standard Time						
				USM10 Hawaii Aleutian Standard Time						

## “Itron Ready” Fixtures

SBO Sensor with DSN for “Bolt On” Motion Detection:

### DSN Features:

- Integrates with the Itron Network Platform (formerly Silver Springs Network).
- Remote On/ Off/ Dimming Control with Dynamic Grouped Response for “follow me” lighting
- Optional onboard GPS automatically determines and reports latitude and longitude coordinates
- Revenue Grade energy measurement and reporting
- Rugged and robust design with superior inrush and surge protection
- ANSI 7 pin design to support continuous dimming and response to occupancy
- Compatible with the Streetlight Vision Central Management Software
- 0-10V or DALI 2 compatible

### SBO OEX Sensor Features:

- 100% Digital PIR Motion Detection
- Excellent RF Immunity, IP66 rated
- Push-Button Programmable
- Non-Volatile Settings Memory
- Convenient Test Mode
- Green LED Indicator
- Black or White housing
- Only these SKU's: SBO 6 OEX WH, SBO 6 OEX BK, SBO OEX 10 WH, SBO 10 OEX BK

SBO Family  
Outdoor Pole/ Fixture  
Mount Motion Sensor

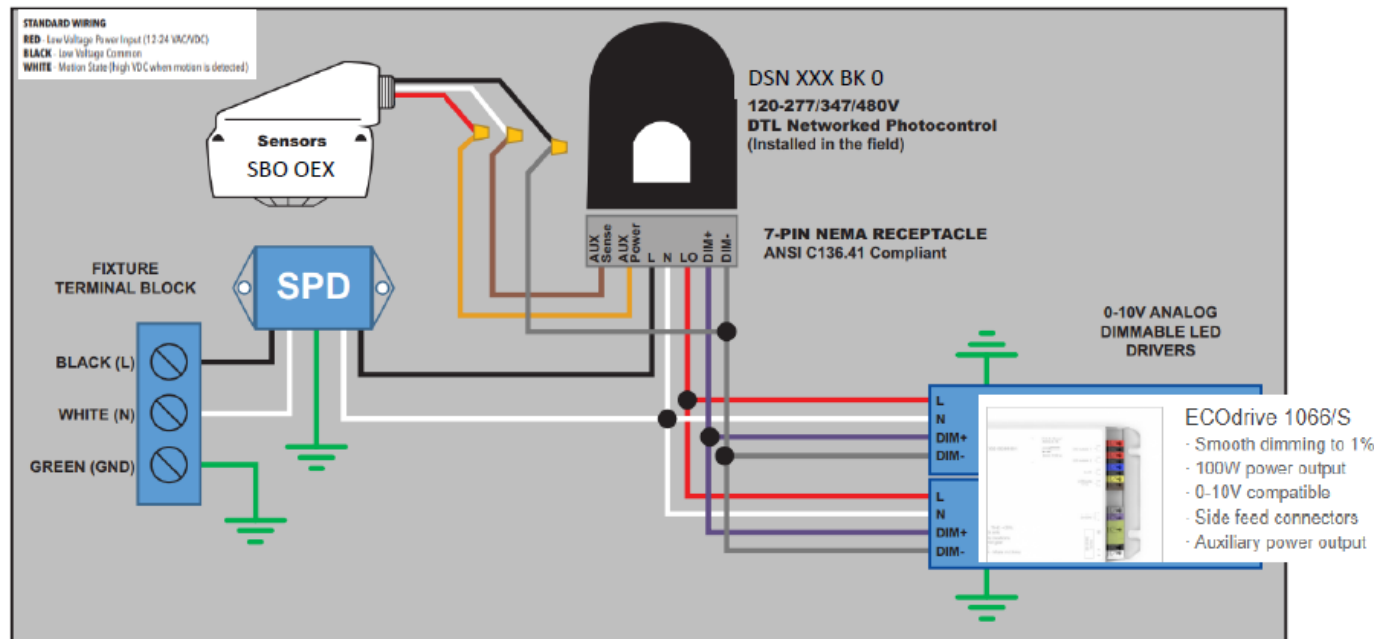

SBO x OEX					Example
Series	Mounting Height	PIR Detection Type	Dimming / Photocell (choose one) *	Color	
SBO Outdoor Pole/ Fixture Mount Sensor; Low Voltage	6 High Mount (15-30 ft) 10 Low Mount (8-15 ft)	OEX Outdoor PIR	[blank] None D Occupancy Controlled High/Low Dimming P Photocell	WH White BK Black
