Hoggar by Okoru Nykop 3.02m2

Hoggar Nykop 3.02m2 Metal Garden Shed Instruction Manual

Model: Nykop 3.02m2 | Brand: Hoggar by Okoru

1. Introduction

This manual provides essential information for the safe and correct assembly, operation, and maintenance of your Hoggar Nykop 3.02m2 Metal Garden Shed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

The Hoggar Nykop 3.02m2 is a durable metal garden shed designed for outdoor storage. It features a galvanized steel structure, double sliding doors for easy access, and integrated ventilation to prevent condensation.

Figure 1: Overview of the Hoggar Nykop 3.02m2 Metal Garden Shed.

2. Safety Information

- **Two-Person Assembly:** Assembly requires at least two adults. Do not attempt to assemble alone.
- **Wear Protective Gear:** Always wear work gloves to protect hands from sharp edges of metal panels. Safety glasses are also recommended.
- **Choose a Level Site:** Ensure the shed is assembled on a firm, level, and well-drained surface. Proper anchoring is crucial for stability.
- **Secure During Assembly:** Do not assemble in strong winds. Secure partially assembled structures to prevent collapse.
- **Children and Pets:** Keep children and pets away from the assembly area.
- **Ventilation:** The shed includes ventilation grilles. Do not block these openings to ensure proper air circulation and prevent condensation.
- **Anchoring:** The shed must be securely anchored to the ground to prevent wind damage. Anchoring hardware may not be included and should be purchased separately based on your foundation type.

3. Package Contents

Before beginning assembly, carefully unpack all components and verify against the parts list provided in your packaging. If any parts are missing or damaged, contact customer support immediately.

- Galvanized steel wall panels
- Roof panels
- Frame components (beams, supports)
- Double sliding door assembly
- Fasteners (screws, nuts, bolts, washers)
- Handles and door runners
- Instruction manual (this document)

4. Setup and Assembly

Assembly typically requires 20 hours for two people. Follow the detailed diagrams and step-by-step instructions provided in the separate assembly guide included with your product. The following is a general overview.

4.1 Tools Required

- Work gloves
- Safety glasses
- Phillips head screwdriver
- Adjustable wrench or socket set
- Measuring tape
- Spirit level
- Drill (optional, for anchoring)

4.2 Site Preparation

Select a flat, level, and well-drained area for your shed. A concrete slab or treated timber foundation is recommended. Ensure the foundation is slightly larger than the shed's base dimensions.

Figure 2: External dimensions of the shed for site planning. Length: 213 cm, Width: 142 cm, Height: 184 cm.

4.3 Assembly Steps (General)

1. **Base Frame Assembly:** Assemble the base frame according to the diagrams, ensuring it is square and level.
2. **Wall Panel Installation:** Attach the wall panels to the base frame and to each other using the provided fasteners. Work systematically around the shed.
3. **Door Frame and Door Installation:** Assemble and install the door frame, then carefully mount the double sliding doors. Ensure smooth operation. The doors are 96 cm wide and 162 cm high.
4. **Roof Frame and Panel Installation:** Construct the roof frame and attach the roof panels. The roof is designed with a slight incline to facilitate water runoff.
5. **Final Checks and Anchoring:** Verify all fasteners are tightened. Securely anchor the shed to your foundation using appropriate hardware (not included).

Figure 3: Key features including double sliding door accessibility, ventilation openings to prevent condensation, and a flat sloped roof for efficient water and snow runoff.

5. Operating Instructions

5.1 Door Operation

The shed features double sliding doors. To open, gently slide the doors along their tracks. Ensure the tracks are kept clear of debris to maintain smooth operation. To close, slide the doors until they meet in the center. A padlock (not included) can be used for security.

5.2 Ventilation

The integrated ventilation grilles are designed to promote airflow and reduce condensation inside the shed. Do not obstruct these grilles with stored items or external coverings.

Figure 4: Interior view of the shed, demonstrating ample space for garden tools, equipment, and shelving.

6. Maintenance

The Hoggar Nykop 3.02m2 metal garden shed is designed for low maintenance. Regular checks will ensure its longevity.

- **Cleaning:** Clean the exterior panels periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the galvanized finish.
- **Fastener Check:** Annually inspect all screws, nuts, and bolts to ensure they are tight. Re-tighten as necessary.

- **Door Tracks:** Keep the door tracks free of dirt, leaves, and other debris to ensure smooth operation of the sliding doors. Lubricate with a silicone spray if needed.
- **Ventilation Grilles:** Ensure ventilation grilles remain clear and unobstructed.
- **Anchoring:** Periodically check the shed's anchoring to the ground, especially after strong winds, to ensure it remains secure.

7. Troubleshooting

- **Doors are Sticking:** Check the door tracks for debris. Ensure the shed is level and square, as an uneven base can cause misalignment. Lubricate tracks with a silicone-based lubricant.
- **Water Leaks:** Verify that all roof and wall panels are correctly overlapped and all fasteners are tight. Ensure the shed is properly anchored to a level foundation, as an uneven base can create gaps. Check for any damage to panels.
- **Condensation Inside:** Ensure the ventilation grilles are not blocked. Avoid storing wet items inside the shed. Consider adding a moisture absorber if the problem persists in very humid conditions.
- **Shed Feels Unstable:** Confirm the shed is securely anchored to the ground. Re-check all frame connections and panel fasteners for tightness.

8. Specifications

Model	Nykop 3.02m2
External Dimensions (L x W x H)	213 cm x 142 cm x 184 cm
Internal Area	3.02 m^2
Material	Galvanized Steel (0.25 mm panels)
Door Type	Double Sliding Door
Door Dimensions (W x H)	96 cm x 162 cm
Weight	50 kg
Color	Brown
Water Resistance	Waterproof

9. Warranty

The Hoggar Nykop 3.02m2 Metal Garden Shed comes with a **10-year anti-corrosion warranty**. This warranty covers defects in materials and workmanship related to corrosion under normal use and maintenance. Please retain your proof of purchase for any warranty claims. For full warranty terms and conditions, refer to the documentation included with your product or contact customer support.

10. Support

If you have any questions regarding the assembly, operation, or maintenance of your Hoggar Nykop 3.02m2 Metal Garden Shed, or if you require replacement parts, please contact Hoggar by Okoru customer service. Refer to your purchase documentation for specific contact details.
