Dornbracht 26413892-00

Dornbracht TARA Shower Set Instruction Manual

Model: 26413892-00

Introduction

Thank you for choosing the Dornbracht TARA Shower Set, Model 26413892-00. This manual provides essential information for the safe installation, operation, and maintenance of your new shower system. Please read these instructions carefully before installation and retain them for future reference.

Safety Information

- Installation should only be performed by qualified personnel in accordance with local plumbing and building codes.
- Ensure the main water supply is turned off before beginning any installation or maintenance work.
- Protect the product from frost.
- Do not use abrasive cleaners or solvents on the product surface, as this may damage the finish.
- Check all connections for leaks after installation and before regular use.

Setup and Installation

Professional installation is highly recommended for this Dornbracht TARA Shower Set to ensure proper function and compliance with all safety standards. The following steps provide a general overview; always refer to the detailed diagrams and specific instructions included in the product packaging.

1. **Preparation:** Turn off the main water supply. Clear the installation area.
2. **Mounting the Fixture:** Securely mount the shower mixer and any associated components to the wall, ensuring all connections are accessible.
3. **Connecting Water Lines:** Connect the hot and cold water supply lines to the corresponding inlets on the mixer. Use appropriate sealing materials (e.g., PTFE tape) on threaded connections.
4. **Installing Shower Head:** Attach the shower arm and shower head to the outlet. Ensure a watertight

seal.

5. **Testing:** Slowly turn on the main water supply and check all connections for leaks. Operate the shower to ensure proper water flow and temperature control.

Operating Instructions

The Dornbracht TARA Shower Set is designed for intuitive operation. This model is supplied without a hand shower, focusing on the main overhead shower experience.

- **Turning On/Off:** Rotate the control handle to turn the water flow on or off.
- **Adjusting Water Temperature:** Use the temperature control handle to set your desired water temperature. Rotate towards the blue indicator for colder water and towards the red indicator for warmer water.
- **Adjusting Water Flow:** The flow rate can typically be adjusted by the same handle used for turning the water on/off, or a separate handle depending on the specific mixer configuration.

Maintenance

Regular cleaning and maintenance will ensure the longevity and optimal performance of your Dornbracht TARA Shower Set.

- **Cleaning the Surface:** Clean the chrome surfaces with a soft cloth and a mild, non-abrasive cleaner. Rinse thoroughly with clean water and dry immediately to prevent water spots.
- **Avoid Harsh Chemicals:** Do not use cleaners containing alcohol, ammonia, bleach, or abrasive particles, as these can damage the finish.
- **Shower Head Nozzles:** Periodically clean the nozzles of the shower head to remove any mineral buildup. Many modern shower heads feature flexible silicone nozzles that can be rubbed to dislodge limescale.
- **Check for Leaks:** Regularly inspect all connections for any signs of leakage. Tighten connections if necessary, but do not overtighten.

Troubleshooting

If you encounter issues with your shower set, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Low Water Pressure	Clogged shower head nozzles; partially closed shut-off valve; general household water pressure issue.	Clean shower head nozzles. Ensure shut-off valves are fully open. Consult a plumber if household pressure is consistently low.
Water Leaks from Connections	Loose connections; worn seals/gaskets.	Tighten connections (do not overtighten). Replace worn seals or gaskets.
Inconsistent Water Temperature	Issues with water heater; mixer cartridge malfunction; unbalanced water pressure.	Check water heater settings. If problem persists, contact a qualified plumber or Dornbracht customer support.

For issues not listed here or if solutions do not resolve the problem, please contact Dornbracht customer support or a certified plumber.

Specifications

- **Item Model Number:** 26413892-00
- **Product Dimensions:** 15 x 104 x 9.5 cm
- **Item Weight:** 1.48 Kilograms
- **Batteries Required:** No
- **ASIN:** B08R6LMZ4J
- **First Available Date:** January 3, 2021
- **Guaranteed Software Updates Until:** Unknown / Not Applicable

Warranty and Support

Dornbracht products are manufactured to the highest quality standards and come with a manufacturer's warranty. Please refer to the warranty card included with your product or visit the official Dornbracht

website for detailed warranty terms and conditions.
