Adaptive Sound Technologies ASM1021-K LectroFan Micro2 Sound Machine

Product Overview

1. Microphone 2
2. Previous Track/Sound
3. Volume Down/Up
4. Play/Pause, Answer/Hang Up/Redial
5. Next Track/Sound
6. Indicator Lamp
 - Solid Blue: Bluetooth Connected
 - Blinking Blue: Bluetooth Audio Playing
 - Red: Charging
 - Green: Charging Complete
7. Charging Port
8. Power Switch (left-right): Bluetooth, Off, Sleep Sounds

Charge Your Micro 2 Before First Use

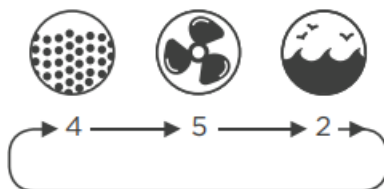

Connect the Micro 2 to a USB power source using the supplied cable. The indicator lamp will glow red, then change to green when fully charged. A power adapter for any smartphone or a PC USB jack can be used to charge your Micro 2.

Tip: to conserve battery power, always place the slider in the OFF position when not in use.

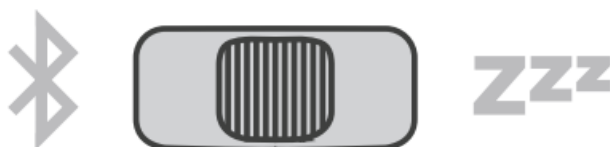

Sound Masking:

1. Slide switch to **ZZZ**
2. Select sound  

Bluetooth Audio

1. Slide switch to the left 
2. Select LectroFan MICRO 2 from your Bluetooth device.
If it doesn't appear, make sure it is not connected to another phone and is within range.
Tip: only one Bluetooth device can be connected at a time.

Answering Calls:

When your Micro 2 is connected to a smartphone, press  to answer the call, and again to end the call.
Double-press  to redial the last dialed number.

Specifications

- **Power:** 5V, 1A USB-A
- **Audio Output:** < = 3W
- **Bluetooth Range:** Up to 50 feet/15 meters
- **Lithium-ion Battery Capacity:** 1200 mAh
- **Battery Run Time (at typical volumes):**
 - **Bluetooth Audio:** Up to 20 hours
 - **White Noise/Fan/Ocean Sounds:** Up to 40 hours
- **Battery Charge Time:** 2½ hours

Features

- **Multiple Sound Options:** The **LectroFan Micro2** offers 11 distinct non-looping sound options, designed to help mask unwanted background noises. These sounds include:
 - **5 Fan Sounds:** Simulate the comforting whirr of a fan, ideal for individuals who prefer fan-like ambient noise.
 - **4 White Noise Options:** From pure white noise to pink and brown noise variations, these sounds are scientifically designed to block out distracting noises.
 - **2 Ocean Sounds:** Calming ocean surf sounds provide a natural backdrop that promotes relaxation and aids in sleep.
- **Portable Design:** Weighing just 5.6 ounces, this compact and lightweight device is perfect for travel. Its small size makes it easy to pack in a carry-on, making it ideal for use at home, on vacation, in the office, or even on camping trips. Whether you're dealing with noisy hotel rooms or airplane sounds, this sound machine ensures your environment remains serene.
- **Bluetooth Speaker:** The **LectroFan Micro2** doubles as a Bluetooth speaker, allowing you to stream music, podcasts, audiobooks, or any audio content wirelessly from your smartphone. It has a built-in microphone, transforming the device into a speakerphone when paired with a smartphone, making it ideal for conference calls or hands-free communication.
- **Rechargeable Battery:** The device comes with a rechargeable battery that supports up to 40 hours of continuous sound playback or 20 hours of Bluetooth streaming on a single charge. Charging is quick and easy with the provided USB-C to USB-A cable. This makes it perfect for long trips or extended use without needing a power outlet.
- **360° Sound Rotation:** The **LectroFan Micro2** is designed with a 180-degree rotating speaker head, allowing users to adjust the direction of the sound output. Whether you're sitting in bed or working at a desk, this feature ensures the sound reaches you clearly from any angle.
- **Auto Sleep Timer:** For users who prefer not to leave the machine running all night, the sleep timer can be set to turn off after a specified time, helping conserve battery life. It's a useful feature for individuals who fall asleep to soothing sounds and don't need continuous playback throughout the night.
- **Noise Masking:** The variety of sounds can mask disruptive environmental noises, providing relief from sounds like snoring, traffic, or noisy neighbors. Whether you're using it to improve focus at work, create a calming environment for meditation, or promote healthy sleep hygiene, this sound machine is versatile and effective for all ages and environments.
- **Stereo Pairing (Optional):** If you purchase two **LectroFan Micro2** units, you can pair them together for stereo sound, enhancing your audio experience and creating a more immersive environment, whether for sleep or entertainment.
- **Use Anywhere:** This portable machine is designed for travel-friendly use, whether at home, on vacation, in your office, or even outdoors. Its compact design makes it easy to carry around, allowing you to create a peaceful environment anywhere.
- **After-Sale Service:** Adaptive Sound Technologies provides a **1-year limited warranty**, ensuring peace of mind with your purchase. The company, based in the USA, offers a dedicated customer care team to address any concerns or issues.

Usage

1. **Turn On:** Press and hold the power button until the device powers on.
2. **Sound Selection:** Press the sound button to cycle through the available sound options (fan sounds, white noise, ocean sounds).
3. **Bluetooth Mode:** To use the Micro2 as a Bluetooth speaker, press the Bluetooth button to pair with your device.
4. **Volume Control:** Adjust the volume using the “+” and “-” buttons.
5. **Sleep Timer:** Press the timer button to set a sleep timer (options typically include 1, 2, or 3 hours).
6. **Charging:** Use the included USB cable to recharge the device. The battery can last up to 40 hours depending on usage.

Care and Maintenance

- **Cleaning:** Wipe the device with a dry, soft cloth. Avoid using water or harsh chemicals on the sound machine.
- **Battery Maintenance:** Charge the sound machine fully before extended storage to preserve battery life.
- **Storage:** Store in a cool, dry place. Avoid direct exposure to heat, sunlight, or moisture to prevent damage.
- **Firmware Updates:** Check the manufacturer’s website for firmware updates, if applicable.

FCC

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

FAQs

What sound options does the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 offer?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 offers 11 non-looping sound options, including 5 fan sounds, 4 white noise variations, and 2 ocean surf sounds.

How long does the battery last on the Adaptive Sound Technologies ASM1021-K LectroFan Micro2?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 provides up to 40 hours of sound playback or 20 hours of Bluetooth streaming on a full charge.

What type of sounds does the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 offer for noise masking?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 offers fan sounds, white noise, and ocean sounds to effectively mask disruptive noises and promote better sleep or focus.

How is the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 charged?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 is charged via a USB-C port, and it comes with a USB-C to USB-A cable for easy charging.

What makes the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 suitable for travel?

The compact size, lightweight design, and long battery life make the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 perfect for traveling, providing relaxation or sleep support wherever you go.

What type of noises can the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 help block out?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 can mask various disruptive noises, including traffic, snoring, and other environmental sounds, improving sleep quality and focus.

How long does it take to fully charge the Adaptive Sound Technologies ASM1021-K LectroFan Micro2?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 typically takes a few hours to fully charge, depending on the power source.

Where can I use the Adaptive Sound Technologies ASM1021-K LectroFan Micro2?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 is versatile and can be used at home, in the office, while traveling, or even outdoors, making it a great solution for sleep, relaxation, and focus anywhere.

What makes the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 different from other sound machines?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 stands out due to its compact, portable design, Bluetooth speaker functionality, and 11 non-looping sound options for superior noise masking.

How can the Adaptive Sound Technologies ASM1021-K LectroFan Micro2 improve sleep quality?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 improves sleep quality by masking disruptive noises with soothing fan sounds, white noise, and ocean surf sounds, creating a calm environment for better rest.

How durable is the Adaptive Sound Technologies ASM1021-K LectroFan Micro2?

The Adaptive Sound Technologies ASM1021-K LectroFan Micro2 is built with durable materials to withstand travel and daily use, ensuring long-lasting performance.
