ADATA 0323-HDD USB Data Transfer Cable User Guide

QUICK START GUIDE
External Storage to Host Connection
USB Data Transfer Cable

Micro-B	Micro-B to A Cable	Type-A — External HDD/SSD
Type-C	USB-C to A Cable	Type-A — External SSD
Type-C	USB-C to C Cable	Type-C — External SSD
*For more details about the specifications of each cable, please refer to the information on their respective packaging.

Note

- Compatibility between external storage devices and host devices may vary due to factors such as system configurations.
- There may be insufficient power when connecting to a USB 2.0 host device. This may cause it to be unusable. In this case, please purchase a USB Y-cable.
- If your are connecting to a Mac OS host device, you may need to reformat the external storage device.

Contents

Warranty Statement

ADATA provides replacement or repair services for defective products to our customers within the applicable warranty period. Please note that ADATA is not responsible for providing free repair services if the product defect is caused by any of the following factors:

1. Damage caused by natural calamity or inappropriate usage.

2. The product has been repaired or taken apart by unauthorized personnel.

3. The warranty label is altered, damaged, or missing.

4. The product serial number does not conform to records in our system or the label has been altered.

5. Products purchased from unauthorized agents.

This limited warranty covers only the repair or replacement of defective ADATA products. ADATA is not liable for and does not cover under warranty, any loss of data or any cost associated with determining the source of system problems or removing, servicing, or installing ADATA products. ADATA warranty policy applies only to the repair or replacement of ADATA products.
