Waterdrop WD-AS13

Waterdrop AS13 Under Sink Water Filter System User Manual

Model: WD-AS13 | Brand: Waterdrop

1. Introduction

The Waterdrop AS13 Under Sink Water Filter System provides efficient and convenient water filtration directly from your tap. Designed for easy installation without drilling, this system significantly reduces common contaminants and improves water taste, ensuring clean and healthy drinking water for your household. It features a durable stainless steel construction and a smart filter life reminder for hassle-free maintenance.

2. What's in the Box

- System ×1
- Hose ×2
- 3/8"–1/2" Convertor set ×1
- Screws ×2
- Teflon tape ×1

3. Setup and Installation

The Waterdrop AS13 system is designed for easy, drill-free installation. Follow these steps to set up your filter system:

1. **Prepare the Installation Area:** Turn off the cold water supply to your sink. Release any remaining water pressure by opening the faucet.
2. **Connect Hoses to Filter Head:** Connect the stainless steel inlet and outlet hoses to the designated ports on the filter head. Ensure they are fully inserted and secure them with the blue lock clips provided.
3. **Connect Inlet Hose to Water Supply:** Remove your existing faucet hose from the cold water angle valve. If your angle valve outlet is 3/8", you can connect the filter's inlet hose directly. If it's 1/2", use the provided 1/2" converter with Teflon tape before connecting the inlet hose.
4. **Connect Outlet Hose to Faucet:** Connect the filter's outlet hose to your faucet hose. If your faucet hose connection is 1/2", use the provided 1/2" converter with Teflon tape.
5. **Flush the System:** Once all connections are secure, slowly turn on the cold water supply. Flush the filter system for 5 minutes before initial use to remove any carbon fines and air. Check for any signs of leaks during this process.

4. Operating Instructions

Once installed, the Waterdrop AS13 system operates automatically, providing filtered water directly from your existing cold water faucet. Simply turn on your cold water tap to dispense purified water.

Filter Life Reminder:

The system includes a smart indicator to remind you when to change the filter. This ensures you always have

access to optimally filtered water. The filter has a lifespan of up to 12 months, depending on water quality and usage.

5. Maintenance (Filter Replacement)

Regular filter replacement is crucial for maintaining optimal performance and water quality. The filter should be replaced approximately every 12 months, or when the smart indicator signals a replacement is needed.

1. **Turn Off Water Supply:** Shut off the cold water supply to the filter system.
2. **Release Pressure:** Open your cold water faucet to release any remaining water pressure in the system.
3. **Unscrew Housing:** Use the provided wrench tools to unscrew the filter housing.
4. **Remove Old Filter:** Carefully pull out the old filter cartridge.

5. **Insert New Filter:** Insert the new filter cartridge into the designated slot, pushing gently until it reaches the final position.
6. **Secure Housing:** Once the new filter is in place, tighten the housing to secure the cartridge.
7. **Flush System:** Turn on the cold water valve and flush the system for 5 minutes to prepare the new filter for use. Check for leaks.

6. Troubleshooting

- **Low Water Flow:** Check if the filter needs replacement. Ensure all valves are fully open and there are no kinks in the hoses.
- **Leaks:** Ensure all connections are tightened properly. Use Teflon tape on threaded connections as needed. Check O-rings for proper seating and damage.

- **Bad Taste/Odor:** If taste or odor returns, it indicates the filter needs replacement. Ensure the system was flushed adequately after installation or replacement.

7. Specifications

Feature	Detail
Product Dimensions	7.28"L x 5.9"W x 15.35"H
Item Model Number	WD-AS13
Manufacturer	Waterdrop
Special Feature	Reduces Chlorine, Bad Taste & Odor, Lead, PFAS, PFOS/PFOA; NSF/ANSI 42&372 Certified; Sturdy stainless steel material; No drill install
Installation Type	Under Sink
Shelf Life (Filter)	365 Days
UPC	840814194065
