Haofy Sewing Machine Border Guide Presser Foot User Manual

Model: Haofyo7tx685nbh172

Introduction

The Haofy Sewing Machine Border Guide Presser Foot is a clear plastic accessory designed to enhance precision and ease in your sewing projects. It provides perfect, consistent spacing for decorative stitches and parallel lines, eliminating the need for pre-marking fabric. This foot is an essential tool for achieving professional-looking results with various stitching techniques, including shadow quilting and edge designs.

Product Overview and Key Features

This presser foot is engineered with features to simplify intricate sewing tasks:

- **Easy to Use:** Features a 6mm pin, compatible with most 9mm stitch household sewing machines. Please note it is not suitable for 9mm ankle machines.
- **Border Guide:** Equipped with two sets of vertical red lines, precisely calibrated to ensure perfect and consistent spacing between rows of decorative stitches. Ideal for uniform spacing in simple shadow quilting.
- **Parallel Stitch Foot:** A horizontal red line on the foot aligns with the needle drop, enabling accurate alignment for the start of each new row.
- **Snap-on Design:** Easily snaps onto your sewing machine, helping you match your edge designs effortlessly with the integrated red guide lines. Eliminates the need to pre-mark every line on your fabric.
- **Precise Alignment:** A small red mark indicates the center of the design, aiding in precise alignment with the starting mark for the first row.

Setup and Installation

Compatibility

This presser foot is designed for most low shank household sewing machines, including popular brands such as Brother, Singer, Feiyue, Janome, and Juki. Ensure your machine has a 6mm presser foot pin attachment point. It is not compatible with 9mm ankle machines.

Installation Steps

1. Turn off your sewing machine and unplug it for safety.
2. Raise the needle to its highest position.
3. Locate the presser foot release lever (usually at the back of the presser foot holder) and push it to release the current presser foot.
4. Position the Haofy Border Guide Presser Foot so that its pin aligns with the groove on the presser foot holder.
5. Lower the presser foot lever, allowing the foot to snap into place. Ensure it is securely attached.
6. Plug in and turn on your sewing machine.

Operating Instructions

The Haofy Border Guide Presser Foot simplifies achieving precise and decorative stitches.

Using the Border Guide for Decorative Stitches

When sewing decorative stitches, align the red vertical lines on the presser foot with an existing row of stitches. This ensures that your new row of decorative stitches will be perfectly spaced from the previous one. This feature is particularly useful for creating uniform patterns and for techniques like shadow quilting.

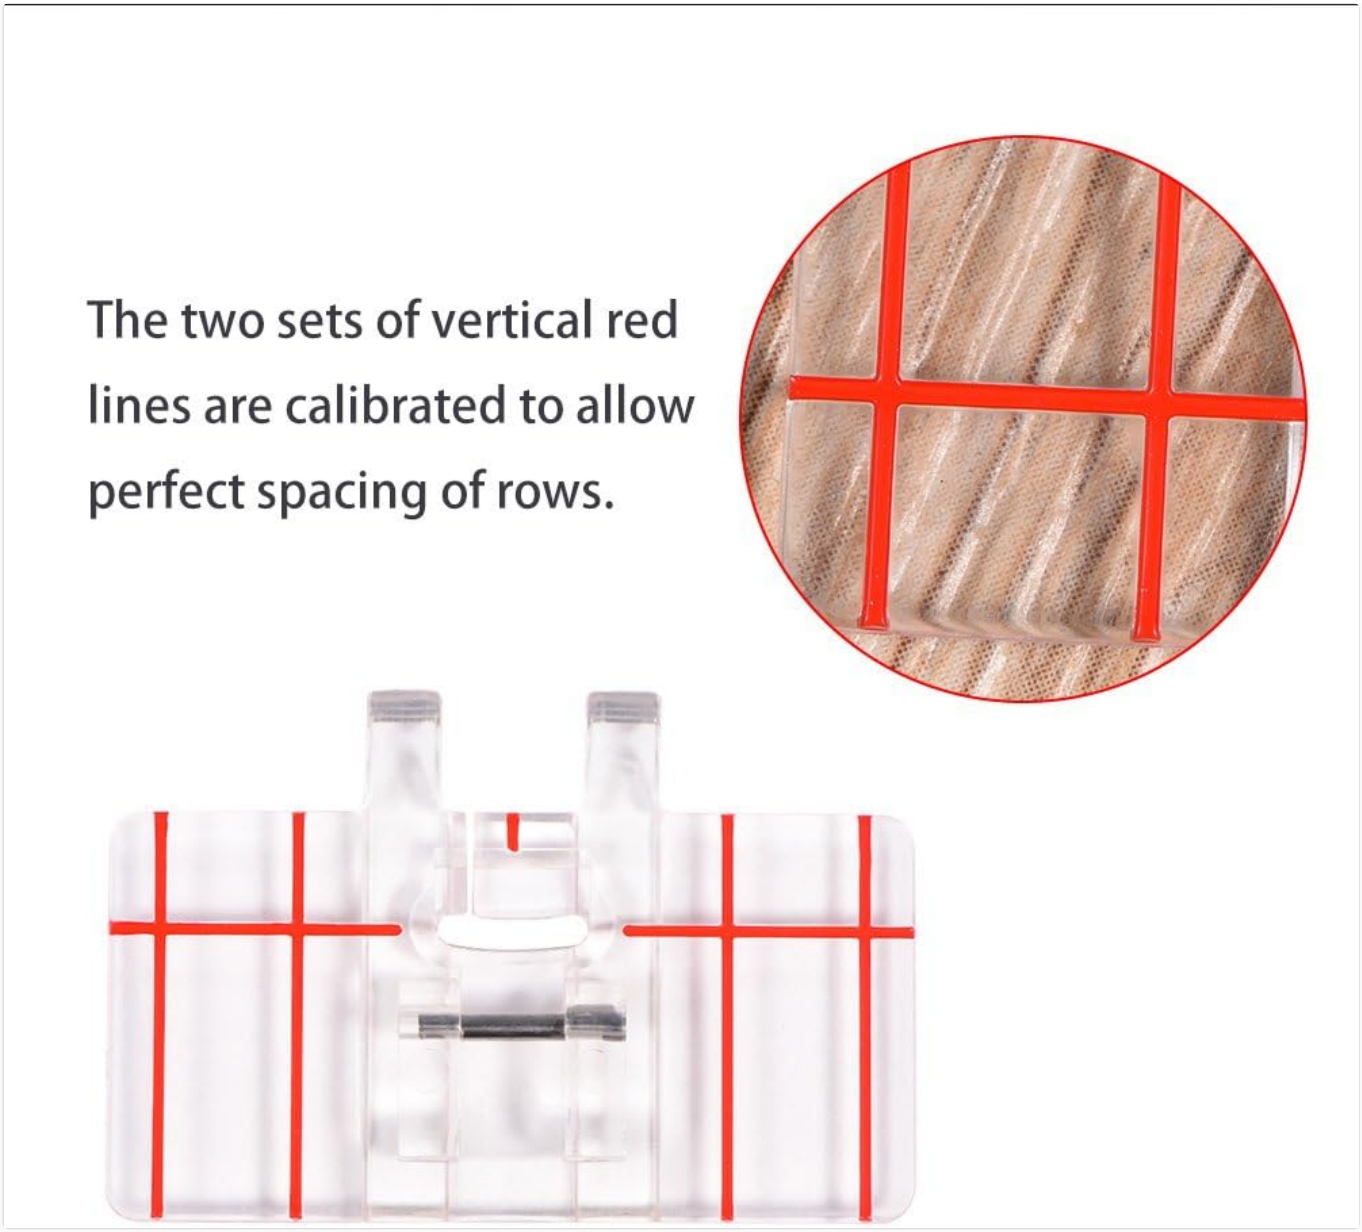

Image: A close-up view of the red guide lines on the presser foot, illustrating their calibration for perfect row spacing.

Sewing Parallel Lines

For sewing parallel lines, utilize the horizontal red line on the presser foot. This line corresponds directly to the needle drop point. By aligning this horizontal line with the edge of your fabric or a previously sewn line, you can accurately start each new row, ensuring all your parallel stitches are straight and evenly spaced without the need for prior marking.

Maintenance

To ensure the longevity and optimal performance of your Haofy Border Guide Presser Foot, follow these simple maintenance guidelines:

- **Cleaning:** After each use, gently wipe the presser foot with a soft, dry cloth to remove any lint, dust, or fabric fibers. For stubborn residue, a slightly damp cloth can be used, but ensure the foot is completely dry before storage.
- **Storage:** Store the presser foot in a clean, dry place, away from direct sunlight and extreme temperatures. Keeping it in a protective case or a designated compartment in your sewing kit will prevent scratches and damage.
- **Handle with Care:** Although made of durable plastic, avoid dropping the presser foot or subjecting it to excessive force, as this could damage the guide lines or the attachment pin.

Troubleshooting

If you encounter any issues while using your Haofy Border Guide Presser Foot, consider the following common solutions:

- **Foot does not fit my machine:** Double-check your sewing machine's shank type. This foot is designed for low shank household machines with a 6mm pin. It is not compatible with high shank, slant shank, or 9mm ankle machines.
- **Stitches are not straight/evenly spaced:** Ensure the red guide lines are precisely aligned with your previous stitches or fabric edge. Verify that the fabric is feeding smoothly and you are not pulling or pushing it excessively. Check your machine's tension settings.
- **Foot feels loose:** Ensure the presser foot is correctly snapped into place on the presser foot holder. Re-attach it if necessary, ensuring it clicks securely.
- **Visibility of guide lines is poor:** Ensure the presser foot is clean and free from lint or debris that might obscure the red lines. Work in a well-lit area.

Specifications

Attribute	Detail
Brand	Haofy
Model Number	Haofyo7tx685nbh172
Material	Plastic
Product Dimensions (approx.)	45 mm (L) x 30 mm (W) / 1.77 inches (L) x 1.18 inches (W)
Thickness (approx.)	1 mm / 0.04 inches
Item Weight (approx.)	4 grams
ASIN	B08XNP76ZF
First Available	February 27, 2021
