ENJBRICK 1003

ENJBRICK Up Balloon House Building Kit Instruction Manual

Model: 1003

Introduction

This manual provides comprehensive instructions for assembling and maintaining your ENJBRICK Up Balloon House Building Kit. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience. This kit is designed to promote hand-eye coordination, divergent thinking, and problem-solving skills.

Safety Information

- **Age Recommendation:** This building kit is recommended for ages 8 years and up. Due to small parts, it is not suitable for very young children.
- **Small Parts Warning:** The kit contains numerous small pieces which may pose a choking hazard. Keep all parts away from infants and young children.
- **Material Safety:** The building blocks are made from ABS material, which has a high security level. They are odorless, smooth, and free from burrs. The product has passed ASTM standards and received a children's product CPC certificate.
- **Supervision:** Adult supervision is recommended during assembly, especially for younger builders.

Package Contents

Your ENJBRICK Up Balloon House Building Kit includes:

- 635 easy-installation building block pieces.
- Detailed instruction manual with step-by-step assembly guide.

Setup and Assembly

Follow the detailed instructions provided in your kit's manual. The pieces are typically organized into numbered bags to facilitate the building process. It is recommended to sort pieces by color and shape before starting each step.

Assembly Steps Overview:

1. **Unboxing and Sorting:** Carefully open the package and sort the building blocks according to the numbered bags. Refer to the instruction manual for guidance on which bags correspond to which steps.
2. **Base Construction:** Begin by assembling the base of the model, including the green lawn and white picket fence.
3. **House Structure:** Construct the main house structure, paying close attention to the colorful sections and window placements.
4. **Balloon Assembly:** Assemble the cluster of colorful balloons that will attach to the top of the house.

5. **Tensegrity Mechanism:** Carefully assemble the transparent chains and supports that create the 'floating' effect for the house. Ensure all connections are secure.
6. **Adding Details:** Attach the bird and dog figures, and any other small decorative elements as per the instructions.

Operating and Display

Once assembled, the ENJBRICK Up Balloon House Building Kit is designed for display. The unique tensegrity sculpture design allows the house to appear as if it is floating above its base, supported by transparent chains.

- **Placement:** Choose a stable, flat surface for display to prevent accidental falls.
- **Stability:** While designed for stability, avoid placing the model in high-traffic areas where it might be bumped.
- **Interactive Elements:** The model is primarily for display, but the individual components are robust enough for gentle interaction.

Maintenance

- **Cleaning:** To clean the model, gently wipe with a dry, soft cloth. Avoid using harsh chemicals or abrasive materials, as these may damage the plastic.
- **Storage:** If disassembling for storage, keep all pieces in a secure container to prevent loss. Store in a cool, dry place away from direct sunlight to prevent material degradation or color fading.
- **Handling:** Handle the assembled model with care, especially the transparent chains, to avoid breakage.

Troubleshooting

While the ENJBRICK kit is designed for ease of assembly, some common issues may arise:

- **Missing Pieces:** In the rare event of missing pieces, please contact customer support with details of the missing part.
- **Loose Connections:** If pieces do not fit snugly, ensure they are correctly aligned and pressed firmly into place. Some non-LEGO brand blocks may have slight variations in fit.
- **Unstable 'Floating' Mechanism:** The transparent chains and supports are crucial for the floating effect. Ensure all chains are correctly attached and taut. If instability occurs, re-check the connections as per the manual.
- **Difficulty with Roof Assembly:** The roof section can sometimes be tricky. Follow the instructions precisely and apply gentle, even pressure. If pieces pop off, re-assemble carefully.

Specifications

Feature	Detail
Product Name	ENJBRICK Up Balloon House Building Kit
Model Number	1003
Number of Pieces	635

Feature	Detail
Material	ABS Plastic
Assembled Dimensions	5.04 x 5.04 x 11.02 inches (L x W x H)
