- Lightweight and portable design (0.96 lbs).

Package Contents

Please check the package contents to ensure all items are present:

- QFX BT-64 Portable Speaker
- Remote Control
- User Manual (this document)

Product Overview

Familiarize yourself with the various parts and controls of your BT-64 speaker.

Figure 1: Front View. This image shows the front of the QFX BT-64 speaker, highlighting the main speaker grille and the vibrant LED party lights around the woofer.

Figure 2: Dimensions. This image illustrates the compact size of the speaker, with approximate dimensions of 6.06"D x 4.45"W x 7.56"H, making it highly portable.

Figure 3: Control Panel. A close-up of the top control panel, featuring buttons for Mode, Play/Pause/Scan, TWS pairing, and volume control.

Figure 4: Input Ports. This image details the various input ports located on the rear of the speaker, including USB, TF card slot, DC 5V charging, Microphone input, and AUX input.

Charging the Speaker

Before first use, it is recommended to charge the BT-64 speaker for 12 hours to ensure optimal battery performance.

1. Locate the DC 5V charging port on the rear of the speaker.
2. Connect the provided charging cable to the speaker and a compatible USB power adapter (not included).
3. The charge indicator light will illuminate during charging.
4. Once fully charged, the indicator light may change or turn off, depending on the model.

Note: Do not use damaged charging cables or adapters. Ensure the charging port is dry before connecting the cable.

Operating Instructions

Power On/Off

- To power on, slide the power switch to the "ON" position.
- To power off, slide the power switch to the "OFF" position.

Bluetooth Pairing (TWS)

The BT-64 features True Wireless Stereo (TWS) functionality, allowing you to pair two BT-64 speakers for a stereo sound experience.

1. Ensure both BT-64 speakers are powered on and in Bluetooth mode.
2. On one speaker, press and hold the**TWS** button until you hear a pairing tone. This speaker will be the primary unit.
3. The two speakers will automatically connect to each other.
4. Once connected, activate Bluetooth on your mobile device and search for "QFX BT-64".
5. Select "QFX BT-64" from the list to pair. A confirmation tone will sound upon successful connection.

Figure 5: TWS Pairing. This image visually represents two BT-64 speakers connected wirelessly using the True Wireless Stereo (TWS) feature, enabling synchronized audio playback.

Mode Selection

Press the **MODE** button to cycle through available input modes:

- **Bluetooth Mode:** Connect wirelessly to your smartphone, tablet, or other Bluetooth-enabled devices.
- **AUX Input:** Connect external audio devices using a 3.5mm audio cable.
- **USB/TF Card Mode:** Insert a USB flash drive or TF (microSD) card with MP3 audio files. The speaker will automatically play files from the inserted media.
- **FM Radio Mode:** Listen to local FM radio stations.

FM Radio Operation

1. Switch to FM Radio mode using the **MODE** button.
2. Press and hold the **Play/Pause/Scan** button to automatically scan and save available FM stations.
3. Use the **Previous/Next Track** buttons to navigate between saved stations.

Microphone Input

Connect a microphone to the **MIC** input for karaoke or public address functions.

- Insert a 6.35mm microphone cable into the MIC port.
- Adjust the microphone volume using the connected microphone's controls or the speaker's main volume.

LED Party Lights

The speaker features dynamic LED party lights. These lights typically activate automatically when the speaker is on. There is no specific button mentioned for controlling the lights, suggesting they are an integrated feature.

Maintenance and Care

- Keep the speaker away from water and excessive moisture. The speaker is not waterproof.
- Clean the speaker with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Store the speaker in a cool, dry place when not in use.
- Avoid exposing the speaker to extreme temperatures or direct sunlight.
- Do not attempt to disassemble or repair the speaker yourself. This will void the warranty.

Troubleshooting

Problem	Possible Cause	Solution
Speaker does not turn on.	Battery is depleted.	Charge the speaker for at least 12 hours.
Cannot pair via Bluetooth.	Speaker not in pairing mode; device Bluetooth off; too far from speaker.	Ensure speaker is in Bluetooth mode and TWS is initiated (if applicable). Turn device Bluetooth off/on. Move device closer to speaker (within 10 meters).
No sound from speaker.	Volume too low; incorrect input mode; cable not connected properly.	Increase volume. Check selected input mode. Ensure all cables are securely connected.
Poor FM radio reception.	Weak signal; interference.	Relocate the speaker to an area with better signal. Rescan for stations.

Specifications
