2. Package Contents

Upon opening your Paladone Dungeons and Dragons Jigsaw Puzzle, you will find the following components:

- 750 Jigsaw Puzzle Pieces
- Collectible D20 Storage Tin

3. Setup

1. **Choose a Suitable Workspace:** Select a flat, stable surface large enough to accommodate the assembled puzzle (approximately 3.35"L x 5.31"W, though the actual assembled shape is a D20). Ensure good lighting.
2. **Unpack the Contents:** Carefully open the D20 storage tin and empty the puzzle pieces onto your chosen workspace.
3. **Sort the Pieces:** Begin by separating all edge pieces from the interior pieces. This will help in forming the puzzle's border.
4. **Organize by Color/Pattern:** Due to the intricate black and silver design, sorting pieces by specific patterns, symbols, or shades of grey can be beneficial for assembly.

4. Assembly Instructions

Assembling this 750-piece jigsaw puzzle requires patience and attention to detail, especially given its challenging design. Follow these steps for successful completion:

1. **Build the Border:** Assemble the edge pieces first to establish the puzzle's unique D20 shape and outer boundaries.
2. **Identify Key Features:** Look for distinct patterns, characters, or the D&D logo within the puzzle design. Begin assembling these sections independently.
3. **Connect Sections:** Once smaller sections are formed, work to connect them, using the overall image as a guide. The black and silver color scheme may require careful examination of piece shapes and subtle pattern variations.
4. **Fill in Gaps:** Systematically fill in the remaining areas, focusing on piece shape and how they interlock.

5. Maintenance and Care

- **Cleaning:** To clean the puzzle pieces or the tin, gently wipe with a dry, soft cloth. Avoid using liquids or abrasive cleaners.
- **Storage:** When not in use, store the puzzle pieces back in the provided D20 tin. Keep the tin in a cool, dry place away from direct sunlight to prevent damage to the cardboard pieces.
- **Handling:** Handle puzzle pieces carefully to avoid bending or tearing. Ensure hands are clean and dry before handling.

6. Troubleshooting

- **Missing Pieces:** In the rare event of missing pieces, first thoroughly check your workspace and surrounding

areas. If a piece is genuinely missing, contact Paladone customer support with your product details.

- **Difficulty in Assembly:** This puzzle is designed to be challenging. If you find it too difficult, try sorting pieces into smaller, more manageable groups based on specific design elements. Taking breaks can also help refresh your perspective.
- **Damaged Tin:** If the D20 tin arrives damaged, please contact your retailer or Paladone customer support for assistance.
