13. Weigh the food on trays or plates.
14. The device is not intended for laboratory or medical use. For your convenience, you can also download the manual on: [www.AdlerEurope.EU](http://www.AdlerEurope.EU)

## DEVICE DESCRIPTION

1. Scale surface
2. MODE button
3. LCD display
4. ON/OFF button
5. TARE button

## BEFORE FIRST USE

Open the battery compartment. Insert the battery of the right type. Close the lid of the battery compartment. You can hide spare batteries in the battery second compartment.

### SELECTING UNITS OF MEASURE

Press the ON/OFF button (4) to turn on the scale. Press the MODE button (2) to change the units of measure. The unit will be visible on the display.

### WEIGHING

Place the scale on a flat and solid surface. Press the ON/OFF button (4) to turn on the scale. Wait until the scale LCD display (3) show the 0.00 value. Place the object to be weighed in the center on the surface of the scale (1). Wait a moment for the result to stabilize.

### TARE FUNCTION

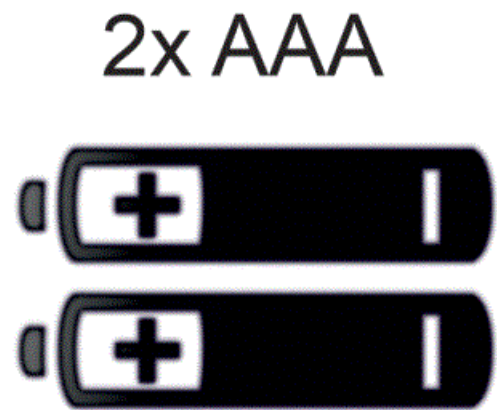

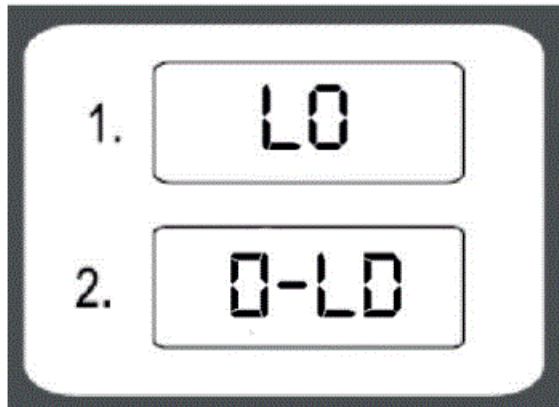

You can weigh different loads without removing them from the scale. Wait until the display shows a 0.00 value. Put the first load on the scale, and wait for the weight reading. Press the TARE button (5) to reset the reading to 0.00 before adding the next load. Put the next load on the scale.

### CALIBRATION

Press the ON/OFF button (4) to turn on the scale. Wait until the scale displays a 0.00 value. Press and hold the MODE button (2) for 3 seconds. The LCD display (3) will show a "CAL" message. Press MODE button (2) once again. LCD display (3) will show the required calibration weight. Place required calibration weight on the platform. The display (3) will show a "PASS" message and will return to weighing mode. Take off the calibration weight from the platform and switch off the scale by pressing the ON/OFF (4) button. Calibration is finished.

### REPLACING THE BATTERY

Remove the lid of the battery compartment at the bottom of the scale. Remove the old battery. Insert the new battery of the right type. Close the lid of the battery compartment.

## CLEANING AND MAINTENANCE

Gently wipe the scale with a dry or slightly damp cloth.

### MESSAGES

- a – excessive scale load
- b – low battery

## TECHNICAL DATA

- **Auto shut off:** 3 min
- **Capacity:** 100g
- **Accuracy:**  $d = 0.01g$
- **Power:** 2 x 1.5V battery (AAA)

## Disposal

To protect your environment: please separate carton boxes and plastic bags and dispose of them in corresponding waste bins. Used appliances should be delivered to the dedicated collecting points due to hazardous components, which may affect the environment. Do not dispose of this appliance in the common waste bin.
