PKPOWER 67003068 EP60

PKPOWER AC Power Cord Replacement for Braun Shavers (Models 5584-5706) Instruction Manual

Model: 67003068 EP60

1. Introduction

This instruction manual provides essential information for the safe and effective use of your PKPOWER AC Power Cord Replacement. This cord is designed to replace the original power cord for various Braun shaver models, ensuring reliable power supply for charging and operation.

Compatible Braun Shaver Models:

- Braun 5584, 5585
- Braun 5596, 5597
- Braun 5601, 5629
- Braun 5634, 5703
- Braun 5704, 5705
- Braun 5706

2. Safety Information

Please read and understand all safety instructions before using the power cord. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- **Input Voltage:** Ensure the power outlet voltage is within the specified range of 100-240V.
- **Protection Features:** This power cord is equipped with Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to safeguard your device.
- **Dry Use Only:** Do not use the power cord in wet conditions or expose it to liquids.
- **Proper Connection:** Ensure the cord is fully inserted into both the shaver and the power outlet.
- **Damage Inspection:** Do not use the cord if it appears damaged, frayed, or has exposed wires.
- **Unplug When Not in Use:** Disconnect the power cord from the outlet when not in use or during electrical storms.
- **Children and Pets:** Keep the power cord out of reach of children and pets.

3. Setup and Connection

Follow these steps to connect your PKPOWER AC Power Cord to your Braun shaver:

1. **Inspect the Cord:** Before connecting, visually inspect the power cord for any signs of damage.
2. **Identify Connectors:** The power cord has two ends: a two-prong plug for the wall outlet and a two-pin connector for the shaver.
3. **Connect to Shaver:** Carefully insert the two-pin connector into the charging port of your Braun shaver. Ensure a snug fit.
4. **Connect to Power Outlet:** Plug the two-prong end of the cord into a standard 100-240V AC wall outlet.
5. **Verify Connection:** Confirm that both ends of the cord are securely connected. Your shaver should indicate that it is receiving power or charging (e.g., an indicator light).

Image 3.1: Close-up view of the power cord's connectors, showing the two-pin end for the shaver and the two-prong plug for the wall outlet.

4. Operating Instructions

Once the power cord is properly connected, your Braun shaver will begin to charge or operate directly from the power source, depending on the shaver model and its design.

- **Charging:** For shavers with rechargeable batteries, the cord will supply power to charge the internal battery. Refer to your shaver's manual for charging indicators and times.
- **Direct Operation:** Some shavers can operate directly from the power cord even without a charged battery.
- **Disconnecting:** To disconnect, first unplug the cord from the wall outlet, then gently remove the connector from the

shaver.

5. Maintenance and Storage

Proper care and storage will extend the life of your power cord.

- **Cleaning:** Wipe the cord with a dry, soft cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the cord is unplugged before cleaning.
- **Storage:** When not in use, coil the cord loosely and store it in a dry, cool place away from direct sunlight and extreme temperatures. Avoid tight coiling or bending that could stress the cable.
- **Avoid Damage:** Do not place heavy objects on the cord or allow it to be pinched or sharply bent.

Image 5.1: A view of the PKPOWER AC power cord, demonstrating its coiled design and overall construction.

6. Troubleshooting

If you encounter issues with your PKPOWER AC Power Cord, refer to the following common troubleshooting steps:

- **Shaver Not Charging/Operating:**
  - Ensure both ends of the power cord are securely connected.
  - Verify that the wall outlet is functional by testing it with another device.
  - Check the power cord for any visible damage (cuts, fraying). If damaged, discontinue use.
  - Confirm that your Braun shaver model is listed as compatible in Section 1.
- **Overheating:**
  - If the power cord or shaver feels excessively hot, immediately unplug it from the wall outlet and shaver.
  - Ensure adequate ventilation around the shaver and cord during use.
  - Do not cover the shaver or cord while charging or operating.

If troubleshooting steps do not resolve the issue, please contact PKPOWER customer service for assistance.

7. Specifications

Feature	Specification
Brand	PKPOWER
Model	67003068 EP60

Input Voltage Range	100-240V (Worldwide Compliant)
Frequency Range	60 Hz
Color	Black
Item Weight	3 ounces
Safety Certifications	CE, FCC, RoHS
Special Feature	Travel

8. Warranty and Support

PKPOWER products are designed for reliability and performance. For any questions, concerns, or assistance, please contact PKPOWER customer service.

- **Customer Service:** Our friendly and reliable customer service team is available to respond to your inquiries within 24 hours.
- **Contact Information:** Please refer to the retailer's website or your purchase documentation for specific contact details for PKPOWER customer support.
