About this course

Premiere Pro is the industry-leading video editing software for film, TV and the web. Creative tools, integration with other apps and services and the power of Adobe Sensei help you craft footage into polished films and videos. With Premiere Rush you can create and edit new projects from any device. In this three-day course, you'll get a thorough overview of the interface, tools, features, and production flow for Premiere Pro. The course is an ideal combination of instructor-led demonstration and hands-on practice to introduce you to Premiere Pro. You will learn powerful real-time video and audio editing tools that give you precise control over virtually every aspect of your production.

Audience profile

Anyone who'd like to learn Adobe Premiere Pro

Course Outline
