# ADVANTAGE AIR®

### MyMonitors Setup Guide

- Before connecting your new MyMonitor feature. Please set your postcode on your MyPlace system.
  1. Tablet should be connected to Wi-Fi for accurate and up to date info
  2. Enter your postcode in **Setup > options > Location**

MyPlace MyAir MyLights MyApps

Home Groups Scenes Events **Setup**

Back Set Location

Australia

Enter a Post Code 5109

For this Post Code, the sunset time for today is:

1 2 ABC 3 DEF

4 GHI 5 JKL 6 MNO

7 PQRS 8 TUV 9 WXYZ

0 +

- Once you have successfully added your postcode. You now have the option to connect a **Licensed Hue Bridge** once the Hue Bridge is connected you can add up to 40 bulbs and 10 **Motion Sensors**
- In order to pair a Licensed Hue Bridge to your MyPlace system please first set up the Bridge by following the Phillips guide found **HERE**.
- Now that you have connected the Bridge, Light, and Sensor through your mobile phone, you can link them to your MyPlace system.

1. Your Wall Mounted Tablet must be connected to the same Wi-Fi as your hue bridge.
2. Go to **Setup > options > Licensed Hue Bridge** and press the **setup** button
3. Follow the on-screen instructions and press the link button on the Hue Bridge.
4. Within 30 seconds tap the “Next” button on your MyPlace Tablet
5. Your MyPlace Tablet and Hue Bridge will automatically sync.
