- Streaming Media Players (Amazon Fire TV, Roku, Apple TV)

- Game Consoles (PlayStation, Xbox)
- Mobile Devices (iOS, Android phones and tablets)
- Computers (via web browser)

2.2 Logging In

1. Ensure your device is connected to the internet.
2. Open the Amazon Prime Video application or visit primevideo.com in your web browser.
3. Log in using your Amazon account credentials. If you do not have an account, you will need to create one and subscribe to Amazon Prime or Prime Video.

3. Operating: Watching "Scorpion"

3.1 Finding the Movie

- Use the search bar within the Prime Video app or website.
- Type "Scorpion" into the search field and press Enter or select the search icon.
- Select the movie "Scorpion" (ASIN: B09HWW491L) from the search results.

3.2 Playback Controls

Once the movie starts, standard playback controls are available:

- **Play/Pause:** Click the play/pause icon or press the corresponding button on your remote.
- **Fast Forward/Rewind:** Use the progress bar or dedicated buttons to skip forward or backward.
- **Volume:** Adjust using your device's volume controls or the in-app volume slider.
- **Full Screen:** Toggle full-screen mode for an immersive viewing experience.

3.3 Subtitles and Audio

The movie "Scorpion" supports subtitles.

- To enable or disable subtitles, look for the "CC" (Closed Captions) or subtitle icon during playback.
- Select "English [CC]" from the available options.
- Audio language options are typically managed through your device's settings or the Prime Video player settings.

3.4 X-Ray Feature

Amazon Prime Video's X-Ray feature provides additional information about the movie, including cast, soundtrack, and trivia, as you watch.

- On most devices, simply pause the movie or move your cursor/remote to the top of the screen to activate X-Ray.
- Information about the actors currently on screen, music playing, and scene details will appear.

4. Maintenance: Ensuring Optimal Viewing

While digital content requires minimal maintenance, ensuring a smooth viewing experience involves a few considerations:

- **Internet Connection:** A stable and sufficiently fast internet connection is crucial for streaming high-quality video without buffering.

- **Device Updates:** Keep your Prime Video app and device operating system updated to the latest versions for optimal performance and security.
- **Clear Cache:** Occasionally clearing the cache of your Prime Video app or web browser can resolve minor playback issues.

5. Troubleshooting Common Issues

If you encounter problems while watching "Scorpion", try the following solutions:

Problem	Solution
Buffering or Poor Quality	Check your internet connection speed. Restart your router/modem. Close other applications using bandwidth. Reduce video quality settings if available.
Playback Errors	Restart the Prime Video app or your device. Clear the app's cache. Ensure your app and device software are up to date.
No Sound	Check your device's volume and mute settings. Ensure the correct audio output is selected. Try playing other content to isolate the issue.
Subtitles Not Appearing	Verify that subtitles are enabled in the Prime Video player settings (look for the "CC" icon). Ensure "English [CC]" is selected.
