AGARO HV2179

AGARO HV2179 Hot Air Brush User Manual

Model: HV2179

1. Introduction

Thank you for choosing the AGARO HV2179 Hot Air Brush. This versatile styling tool combines the power of a blow dryer with the convenience of a styling brush, designed to dry, volumize, and style your hair simultaneously. Featuring a 24K Gold styling surface, activated charcoal bristles, and ceramic tourmaline coating, it aims to provide efficient and consistent results for various hair types. Please read this manual thoroughly before use to ensure safe and optimal performance.

2. Important Safety Information

WARNING: To reduce the risk of electric shock, burns, fire, or injury to persons:

- Keep out of reach of children.
- Do not use this appliance near water, such as in a bathtub, shower, or sink.
- Always unplug the appliance immediately after use.
- Do not use with a voltage converter.
- Do not operate any appliance with a damaged cord or plug, or if it malfunctions or has been dropped or damaged.
- Keep the cord away from heated surfaces.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked.
- Do not direct hot air towards eyes or other heat-sensitive areas.

3. Product Features

The AGARO HV2179 Hot Air Brush is engineered with several features to enhance your styling experience:

- **1200W Powerful Motor:** Provides efficient drying and styling.
- **Oval Barrel Design:** A wide oval and paddle-shaped design for superior heat dispersion, volume, and styling compared to smaller round brushes.
- **360° Airflow Vents:** Ensures even heat distribution for consistent results.
- **Ceramic Tourmaline Coating:** Helps reduce frizz and adds shine.

- **Ionic Technology:** Further minimizes frizz and static for smoother hair.
- **Activated Charcoal Bristles:** Infused bristles for enhanced styling.
- **Multiple Heat/Speed Settings:** 3 heat settings and 2 speed settings for styling versatility.
- **Anti-Scald Head Design:** For comfortable and safe use.
- **Ergonomic Handle:** Designed for comfortable grip and control.
- **360° Swivel Cord:** Prevents tangling and allows for flexible styling.

Image: A visual comparison highlighting the wider oval design of the AGARO HV2179 (13" length, 3" width) versus a smaller round design (4.7" length, 1.7" width), emphasizing its advantage in heat dispersion, volume, and style.

4. Setup

1. **Unpack:** Carefully remove the hot air brush from its packaging. Retain packaging for storage or future transport.
2. **Inspect:** Check the appliance for any visible damage. Ensure the power cord and plug are intact.
3. **Plug In:** Insert the power plug into a suitable electrical outlet. Ensure the voltage matches the appliance's requirements (1200W).
4. **Initial Use:** During the first few minutes of initial use, you may notice a slight odor. This is normal and will disappear quickly.

5. Operating Instructions

Follow these steps for optimal drying and styling results:

1. **Prepare Hair:** For best results, towel-dry your hair to remove excess water. The hot air brush works most effectively on damp, not soaking wet, hair.
2. **Section Hair:** Divide your hair into manageable sections using clips.
3. **Select Setting:** Rotate the knob at the base of the handle to select your desired heat and speed setting. The AGARO HV2179 offers:
    - **Low Temp & High Speed:** For fine or delicate hair, or to set styles.
    - **Mid Temp & Low Speed:** For normal hair, gentle drying and styling.
    - **High Temp & High Speed:** For thick or coarse hair, and faster drying.
4. **Styling:**
    - Place the brush close to the roots and brush down towards the ends.
    - For added volume, place the brush near the roots and roll it upwards, holding for a few seconds before slowly rotating and pulling down.
    - Repeat for all sections until hair is dry and styled as desired.
5. **Cool Shot (if applicable):** If your model includes a cool shot function, use it at the end of styling to set your hair.
6. **Turn Off:** Once styling is complete, rotate the knob to the 'OFF' position and unplug the appliance from the power outlet.

6. Maintenance

Proper maintenance ensures the longevity and performance of your hot air brush:

1. **Cleaning the Brush Head:**
    - Ensure the appliance is unplugged and completely cool before cleaning.
    - Gently remove any loose hair from the bristles using your fingers or a fine-tooth comb.
    - Wipe the brush head and barrel with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
2. **Cleaning Air Vents:**
    - Regularly check the air inlet and outlet vents for dust and lint accumulation.
    - Use a small brush or a vacuum cleaner on a low setting to clear any blockages. Blocked vents can lead to

overheating.

3. **Storage:**
    - Store the appliance in a cool, dry place, away from moisture.
    - Do not wrap the cord around the appliance, as this can cause wear and damage. Coil the cord loosely.

7. Troubleshooting

If you encounter issues with your AGARO HV2179 Hot Air Brush, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	No power supply.	Check if the plug is securely inserted into the outlet. Test the outlet with another appliance.
Appliance is not heating or has reduced airflow.	Air vents are blocked.	Unplug the appliance and clean the air inlet and outlet vents as described in the Maintenance section.
Hair gets tangled in the brush.	Using on large sections of hair or hair is too wet.	Ensure hair is towel-dried and sectioned into smaller, manageable portions. Brush slowly.
Appliance suddenly stops during use.	Overheating protection activated.	Unplug the appliance and allow it to cool down for at least 10-15 minutes. Check and clean air vents.

If the problem persists after trying these solutions, please contact customer support.

8. Specifications

- **Model Number:** HV2179 (Manufacturer's Item Model Number: 33628)
- **Power:** 1200W
- **Product Dimensions:** 38 x 11 x 9 cm
- **Item Weight:** 600 g
- **Included Components:** 1 Hot Air Brush
- **Country of Origin:** China
- **Manufacturer:** Universal Corporation Limited

9. Warranty and Support

Your AGARO HV2179 Hot Air Brush comes with a **1-Year Warranty** from the date of purchase, covering manufacturing defects.
