Schleich 42434

Schleich Horse Club Paddock and Entry Gate (Model 42434) Instruction Manual

Model: 42434 | Brand: Schleich

Product Overview Safety Information Package Contents Assembly Usage Care & Maintenance Troubleshooting Specifications Warranty & Support

1. Product Overview

The Schleich Horse Club Paddock and Entry Gate (Model 42434) is a 10-piece playset designed to complement your Schleich Horse Club collection. This set allows for the creation of an enclosed area for horse figures, featuring a functional entry gate. It is intended for children aged 5 to 12 years, promoting imaginative play and interaction with animal figures.

Figure 1: Fully assembled Schleich Horse Club Paddock and Entry Gate playset.

2. Safety Information

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

- Always supervise young children during play.
- Ensure all parts are securely connected during assembly and play to prevent detachment of small components.
- Keep packaging materials away from children to avoid suffocation risks.

3. Package Contents

Verify that all components listed below are present in your package before beginning assembly.

- 8x Fence Parts
- 1x Entry Gate (pre-assembled with gate posts)
- 1x Sticker Sheet (for gate decoration)
- 1x Instruction Manual (this document)

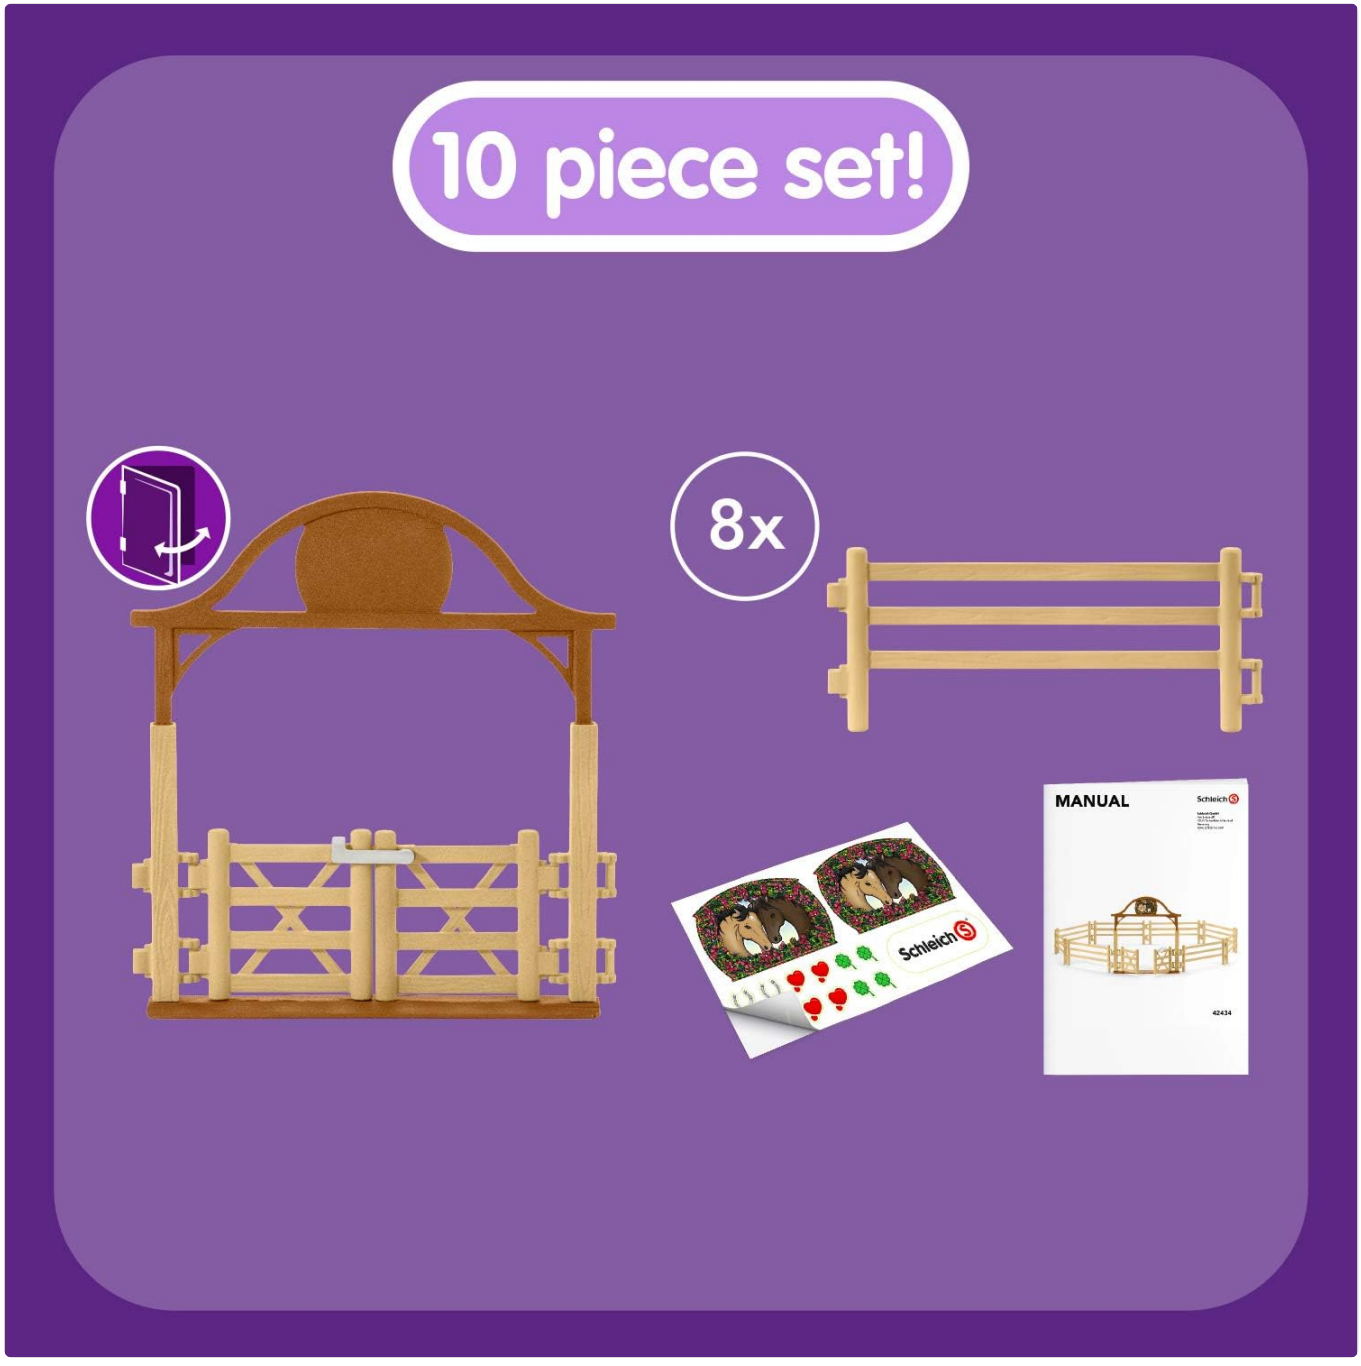

Figure 2: All components included in the 10-piece set: eight fence parts, one entry gate, a sticker sheet, and the instruction manual.

4. Assembly Instructions

Assembly of the Schleich Horse Club Paddock is straightforward and requires no tools.

1. **Unpack Components:** Carefully remove all fence parts, the entry gate, and the sticker sheet from the packaging.
2. **Identify Fence Parts:** Each fence part has connectors on both ends designed to interlock.

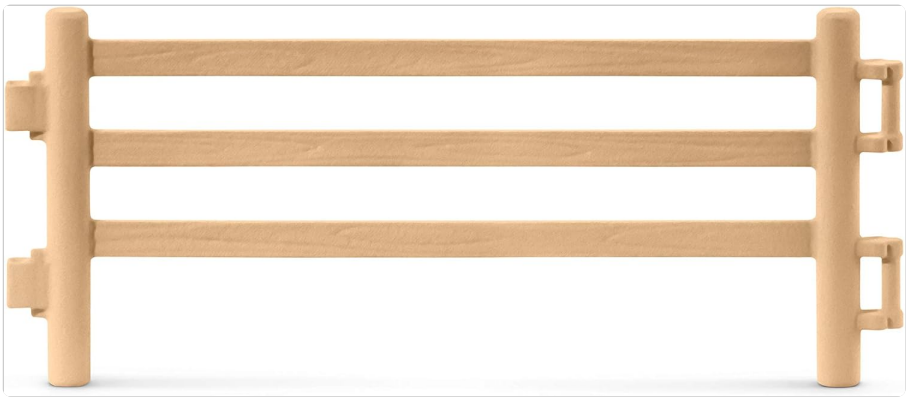

Figure 3: A single fence part, showing the interlocking connectors on each end.

3. **Connect Fence Parts:** Take two fence parts and align their connectors. Gently push them together until they click securely into place. Repeat this process with the remaining fence parts to form a continuous fence line.
4. **Integrate Entry Gate:** The entry gate is a single unit with posts that also have connectors. Integrate the entry gate into your fence line by connecting it to two fence parts, similar to how you connected the individual fence parts.

Figure 4: The entry gate, featuring a functional latch for opening and closing.

5. **Form the Paddock:** Once all fence parts and the entry gate are connected, join the two open ends of your fence line to form a complete enclosure. The paddock can be arranged in various shapes (e.g., square, rectangular,

circular) depending on your preference.

6. **Apply Stickers (Optional):** Use the provided sticker sheet to decorate the entry gate as desired. Ensure the surface is clean and dry before applying stickers for best adhesion.

Tip: The fence pieces are designed to be flexible, allowing for different paddock configurations. Experiment with various arrangements to create unique play scenarios.

5. Usage Instructions

The Schleich Horse Club Paddock and Entry Gate is designed for imaginative play with Schleich horse figures and other compatible toys.

- **Enclose Figures:** Place your Schleich horse figures or other animal toys inside the assembled paddock.
- **Operate Gate:** The entry gate features a small latch mechanism. Slide the latch to open or close the gate, allowing figures to enter and exit the paddock.
- **Expand Play Area:** This paddock can be combined with other Schleich Horse Club playsets, such as stables or riding arenas, to create a larger, more elaborate play environment.
- **Creative Play:** Encourage children to create their own stories and scenarios involving the horses and their enclosure.

6. Care and Maintenance

- **Cleaning:** Wipe the fence parts and gate with a damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic.
- **Storage:** When not in use, disassemble the paddock into its individual components for compact storage. Store in a cool, dry place away from direct sunlight to prevent material degradation.
- **Inspection:** Periodically inspect all parts for any signs of wear, damage, or breakage. Discontinue use if any part is broken or compromised to prevent injury.

7. Troubleshooting

Problem: Fence parts do not connect securely.
Solution: Ensure the connectors are properly aligned before pushing. Apply gentle, even pressure until a click is heard or felt. If a part is bent or damaged, it may not connect properly and should be replaced.

Problem: Gate latch is loose or detaches easily.
Solution: The gate latch is designed to be functional but may become loose with frequent use. Reattach it by carefully snapping it back into its designated slot. If it consistently detaches or is broken, contact customer support for assistance.

Problem: Stickers do not adhere well.
Solution: Ensure the surface of the gate is clean and free of dust or oils before applying stickers. Press firmly on the stickers for several seconds after placement.

8. Specifications

Model Number:	42434
Brand:	Schleich

Product Dimensions (assembled, approximate):	Varies based on configuration (e.g., a square configuration with 8 fence pieces and 1 gate would be approximately 13 inches per side, as per customer review). Individual fence piece length is approximately 4 inches.
Item Weight:	8.1 ounces (230 grams)
Recommended Age:	5 - 12 years
Material:	Durable Plastic

9. Warranty and Support

Schleich products are manufactured to high-quality standards. For information regarding warranty, product support, or replacement parts, please visit the official Schleich website or contact their customer service department. Contact details can typically be found on the product packaging or the manufacturer's website.
Note: Keep your purchase receipt as proof of purchase for any warranty claims.
