TomTom ONE XL

TomTom ONE XL 4.3-Inch Bluetooth Portable GPS Navigator User Manual

Model: ONE XL (1S00.080-cr)

1. Introduction

This manual provides essential information for setting up, operating, and maintaining your TomTom ONE XL 4.3-Inch Bluetooth Portable GPS Navigator. The TomTom ONE XL is designed to provide clear and accurate turn-by-turn voice instructions, helping you navigate with ease across the United States and Canada. Its widescreen display and Bluetooth connectivity enhance your travel experience.

Image 1.1: The TomTom ONE XL 4.3-Inch Bluetooth Portable GPS Navigator. This device features a widescreen display for enhanced map viewing and integrated Bluetooth for connectivity.

2. What's in the Box

Upon opening your TomTom ONE XL package, you should find the following components:

- TomTom ONE XL GPS Receiver
- Car Charger
- Mounting Kit (e.g., suction cup mount)
- USB Cable
- Documentation (Quick Start Guide, Safety Information)

3. Setup

3.1 Charging the Device

Before initial use, fully charge your TomTom ONE XL. Connect the device to the car charger or a computer via the USB cable. The charging indicator will show the charging status.

3.2 Mounting in Your Vehicle

Attach the suction cup mount to a clean, smooth surface on your windshield or dashboard, ensuring it does not obstruct your view of the road. Securely attach the TomTom ONE XL to the mount.

3.3 Initial Power On and Configuration

1. Press and hold the power button until the device turns on.
2. Follow the on-screen prompts to select your language, region, and other initial settings.
3. Ensure the device acquires a GPS signal by placing it in an open area with a clear view of the sky.

3.4 Map Updates

To ensure you have the latest maps, connect your TomTom ONE XL to a computer with internet access and use the TomTom HOME software. This software allows you to manage maps, update software, and access additional services.

4. Operating

4.1 Basic Navigation

1. From the main menu, tap 'Navigate to'.
2. Select your desired destination input method (e.g., 'Address', 'Point of Interest', 'Recent Destination').
3. Enter the destination details using the on-screen keyboard.
4. Confirm your destination, and the device will calculate the route and begin guiding you with voice instructions and on-screen directions.

4.2 Using Bluetooth Connectivity

The TomTom ONE XL features built-in Bluetooth for accessing TomTom PLUS subscription-based services, such as real-time traffic information (GPRS- and optional RDS-TMC radio-based). To use these services, you may need to pair your device with a compatible mobile phone that has an active data connection.

- Go to the 'Bluetooth' menu on your TomTom device.
- Enable Bluetooth on your mobile phone and make it discoverable.
- Search for and select your phone from the list on the TomTom device to pair.
- Follow any on-screen prompts to complete the pairing process.

4.3 Voice Control

The device supports voice control for certain functions. Look for the microphone icon on the screen or refer to the on-screen menu for available voice commands. Speak clearly and naturally when issuing commands.

4.4 Map Views and Options

You can switch between 2D and 3D map views, adjust zoom levels, and customize the information displayed on the map (e.g., points of interest, speed limits). Access these options through the main menu or by tapping on the map screen during navigation.

5. Maintenance

5.1 Cleaning the Device

Use a soft, lint-free cloth to clean the screen and exterior of your TomTom ONE XL. Do not use abrasive cleaners or solvents, as these can damage the device.

5.2 Battery Care

To prolong battery life, avoid exposing the device to extreme temperatures. If storing the device for an extended period, ensure it has a partial charge (around 50%) and recharge it periodically.

5.3 Software and Map Updates

Regularly connect your TomTom ONE XL to your computer and use the TomTom HOME software to check for and install the latest software and map updates. This ensures optimal performance and up-to-date navigation data.

6. Troubleshooting

6.1 Device Not Turning On

- Ensure the battery is charged. Connect the device to a power source for at least 30 minutes.
- Perform a soft reset by pressing and holding the power button for 15-20 seconds until the device restarts.

6.2 No GPS Signal

- Ensure the device has a clear view of the sky, away from tall buildings or dense foliage.
- Move the device to a different location in your vehicle.
- Check for any obstructions that might be blocking the signal.

6.3 Bluetooth Connectivity Issues

- Ensure Bluetooth is enabled on both your TomTom device and your mobile phone.
- Delete existing pairings on both devices and attempt to pair again.
- Ensure your phone is within range of the TomTom device.

6.4 Map Update Failures

- Ensure your internet connection is stable.
- Temporarily disable any firewall or antivirus software that might interfere with the TomTom HOME application.
- Ensure sufficient free space on your device for the new map data.
