Garmin 010-02496-03

Garmin D2™ Air X10 Aviator Smartwatch User Manual

Model: 010-02496-03

1. Introduction

The Garmin D2™ Air X10 is a sophisticated GPS aviator smartwatch designed to provide essential piloting tools and advanced health and fitness features. This manual will guide you through the setup, operation, and maintenance of your device, ensuring you maximize its capabilities both in the air and on the ground.

2. What's in the Box

Upon unboxing your Garmin D2™ Air X10, ensure all the following components are present:

- D2 Air X10 Smartwatch
- Charging/Data Cable
- Trial subscription to Garmin Pilot app (if applicable)
- Documentation (this user manual and safety information)

3. Setup

3.1 Initial Charging

Before first use, fully charge your D2™ Air X10. Connect the charging/data cable to the charging port on the back of the watch and plug the USB end into a power source (e.g., computer USB port or USB wall adapter). The watch display will indicate charging status.

3.2 Pairing with Your Smartphone

To unlock the full potential of your D2™ Air X10, pair it with your compatible smartphone using the Garmin Connect app.

1. Download the Garmin Connect app from your smartphone's app store.
2. Open the app and create an account or sign in.
3. Follow the on-screen instructions in the app to add your D2™ Air X10 device.
4. On your watch, navigate to the settings menu and select 'Pair Phone' or 'Connect'.
5. Confirm the pairing code displayed on both your watch and smartphone.

3.3 Basic Watch Setup

Once paired, the watch will automatically sync time and date from your phone. You can customize other settings such as language, units of measurement, and display preferences through the watch's settings menu or the Garmin Connect app.

4. Operating the Device

4.1 Navigation and Controls

The D2™ Air X10 features a bright, crisp AMOLED touchscreen display and physical buttons for intuitive navigation.

- **Touchscreen:** Swipe up/down to scroll through widgets and menus. Tap to select items.
- **Buttons:** Specific buttons control functions like starting activities, accessing menus, and returning to the watch face. Refer to the quick start guide for detailed button assignments.

4.2 Customizing Watch Faces

Personalize your watch face to display information relevant to you. You can choose from preloaded watch faces or download more from the Connect IQ Store via the Garmin Connect app.

5. Aviation Features

The D2™ Air X10 is equipped with a comprehensive suite of aviation tools for preflight, in-flight, and postflight use.

5.1 Aviation Weather (METARs/TAFs)

Access real-time aviation weather reports, including METARs (Meteorological Aerodrome Reports) and TAFs (Terminal Aerodrome Forecasts), directly on your wrist when paired with your compatible smartphone. View winds, visibility, barometric pressure, and more to aid in flight planning and situational awareness.
