Advaya Drivers Application

Important Note – As per FMCSA rules, if you are using the Advaya ELD, this guide must be available in the vehicle at all times.

Contents

- 1 Downloading the Driver App
- 2 Starting of the Day
- 3 Log Transfer
- 4 Reset/Forgot Password
- 5 Customer Support
- 6 Documents / Resources
 - 6.1 References

Downloading the Driver App

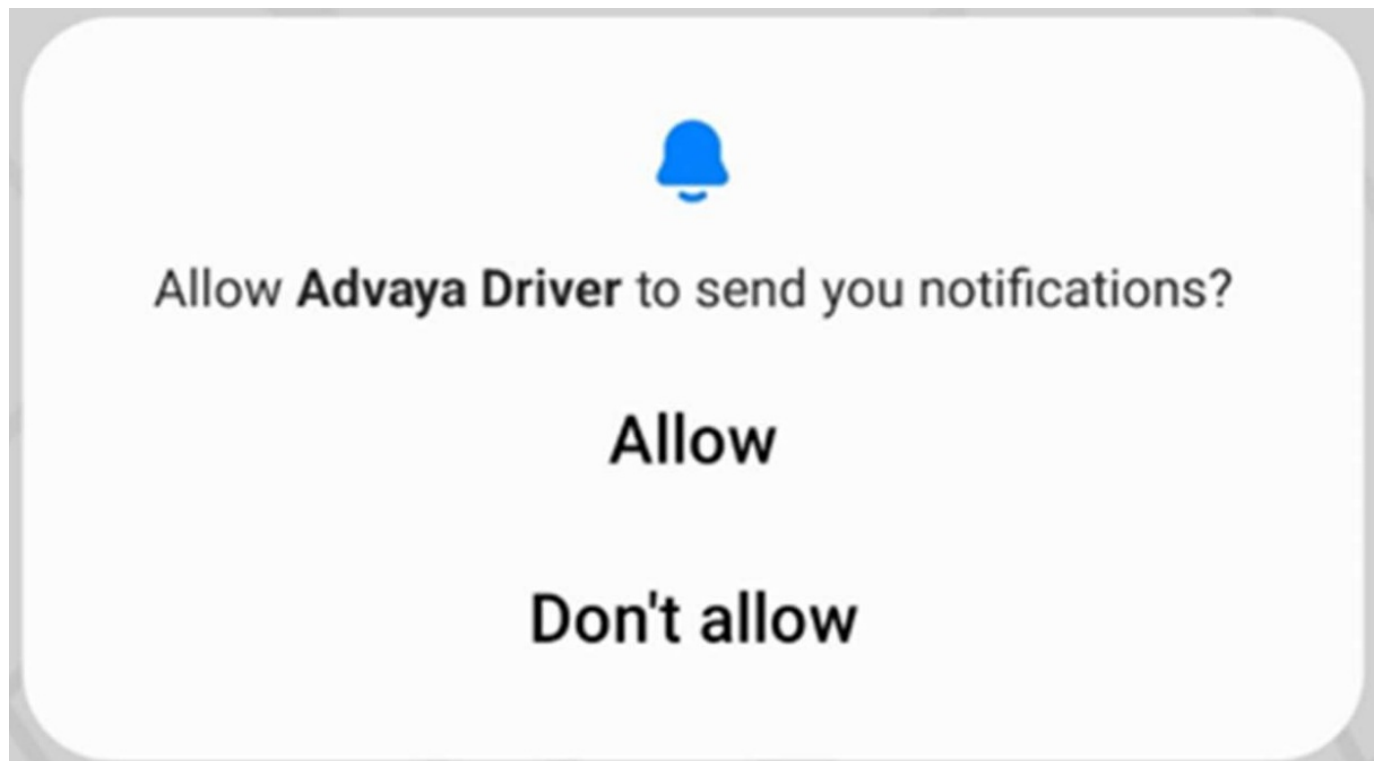

Our official application can be found on the App Store/ Play Store. Please make sure the app is downloaded and ready to use before starting the work.

Feel free to use these links to the driver's app

(Hyperlink to be added in soft copy along with Play/App store icon)

Logging into the Driver App

Once you open the app you'll need to allow all the permission required to ensure seamless synchronization.

Once all the permissions are allowed please enter DOT number

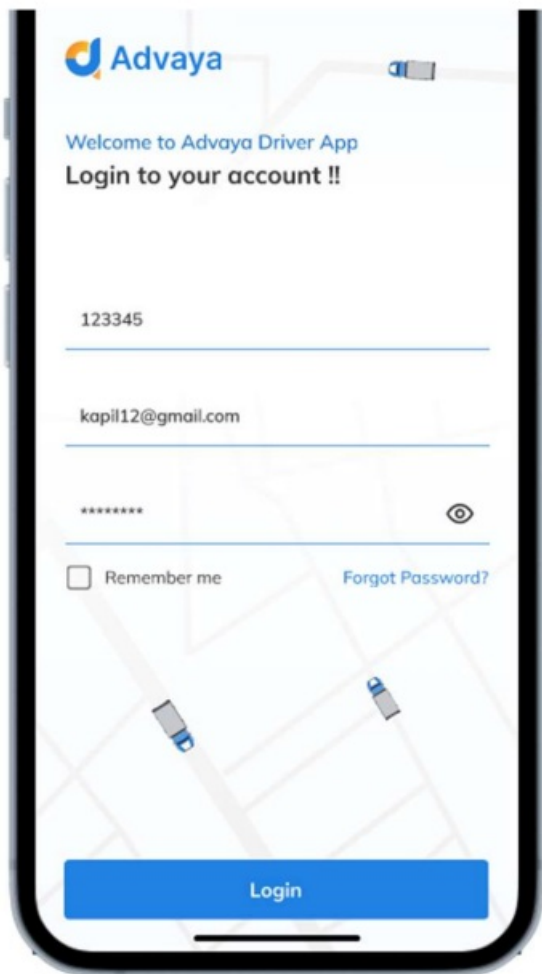

In the login ID field please add either of the below

Driver ID – According to the onboarding email

Email – Same which was provided by fleet owner

Phone number – Driver's cell number

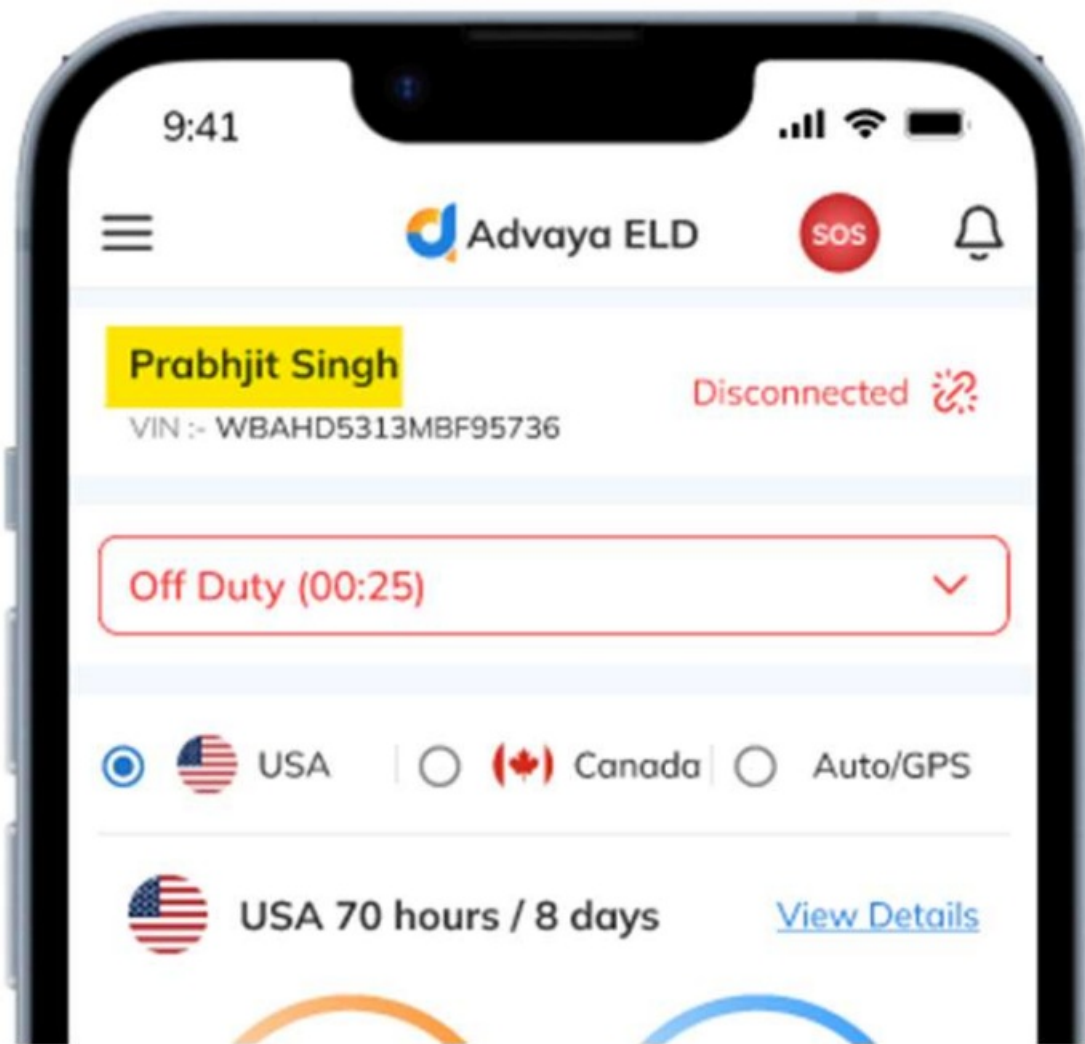

Lastly enter the password – Provided in the onboarding email

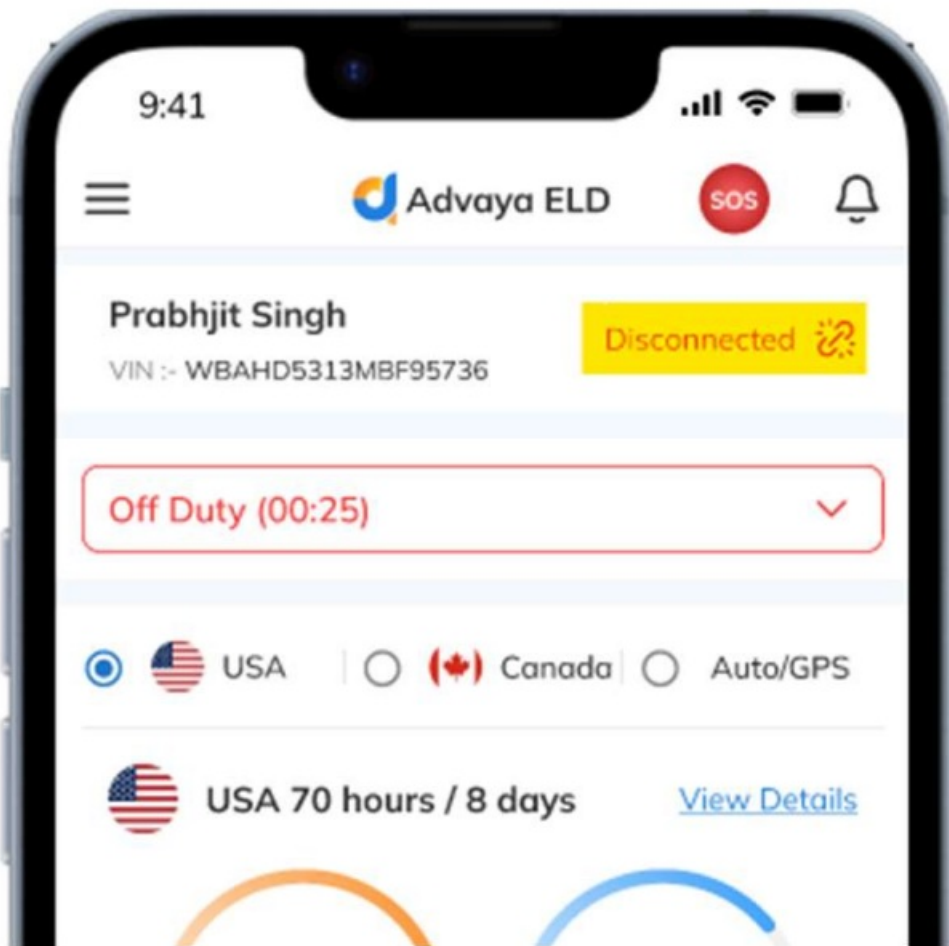

Note – click on the “remember me” check box to speed up the login process every time you login.

Connecting your mobile device

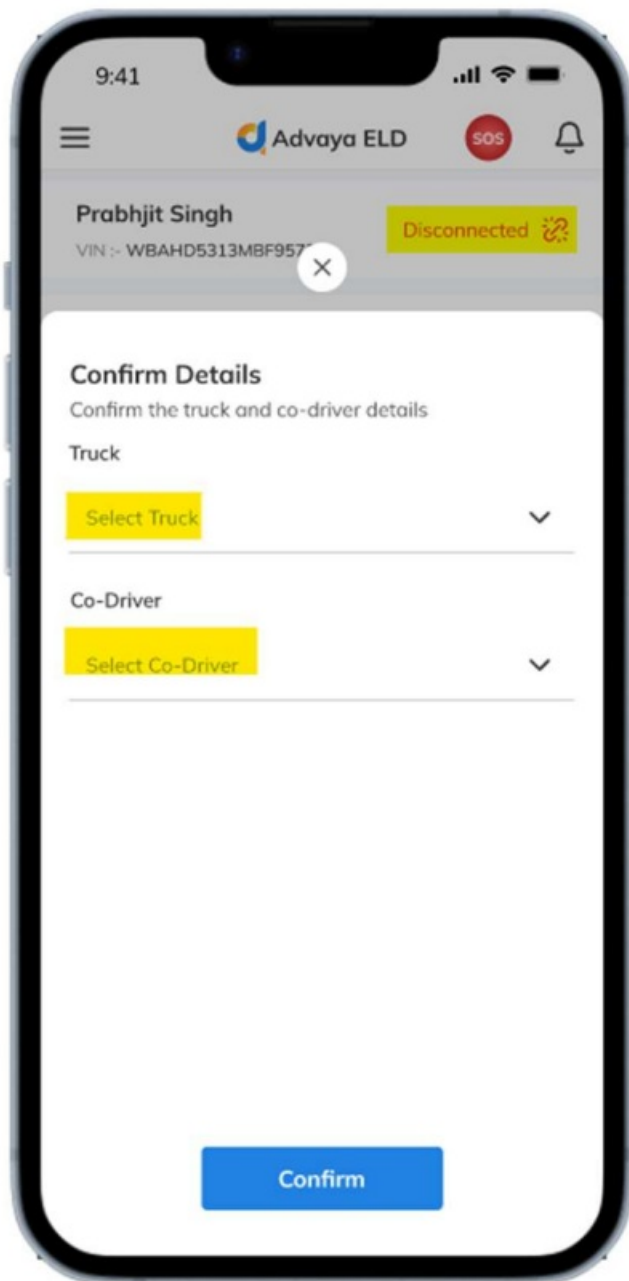

Once you are on the homepage of the application, look for your name on the top left.

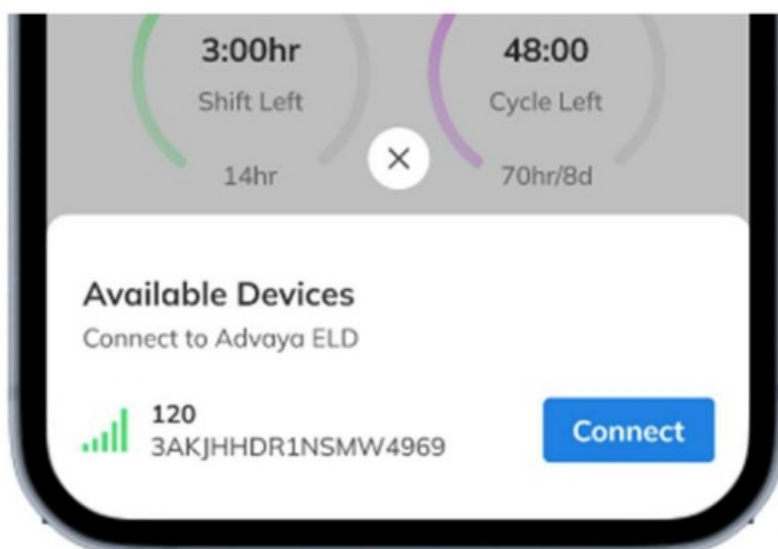

Now click on the “Disconnected” or the “Link Chain” sign on top right

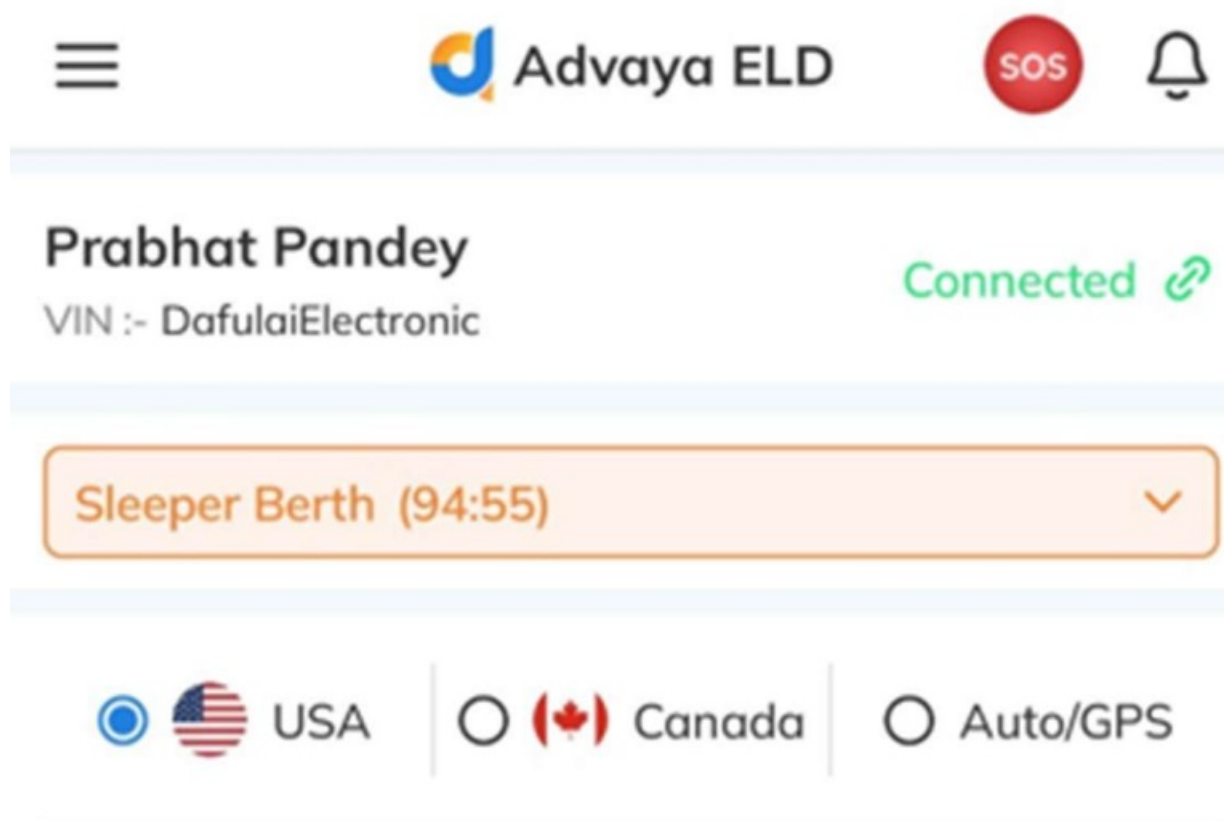

Please confirm the “Truck” details and “Co-Driver’s” name and then click “Confirm”

Select the device

Make sure it says "Connected" on top left

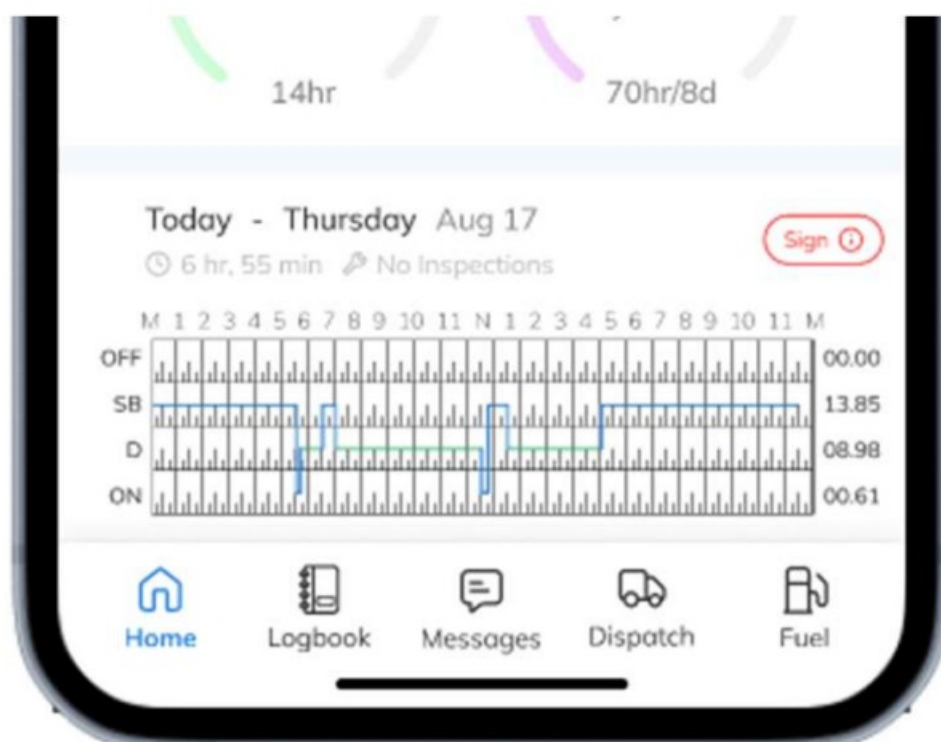

Starting of the Day

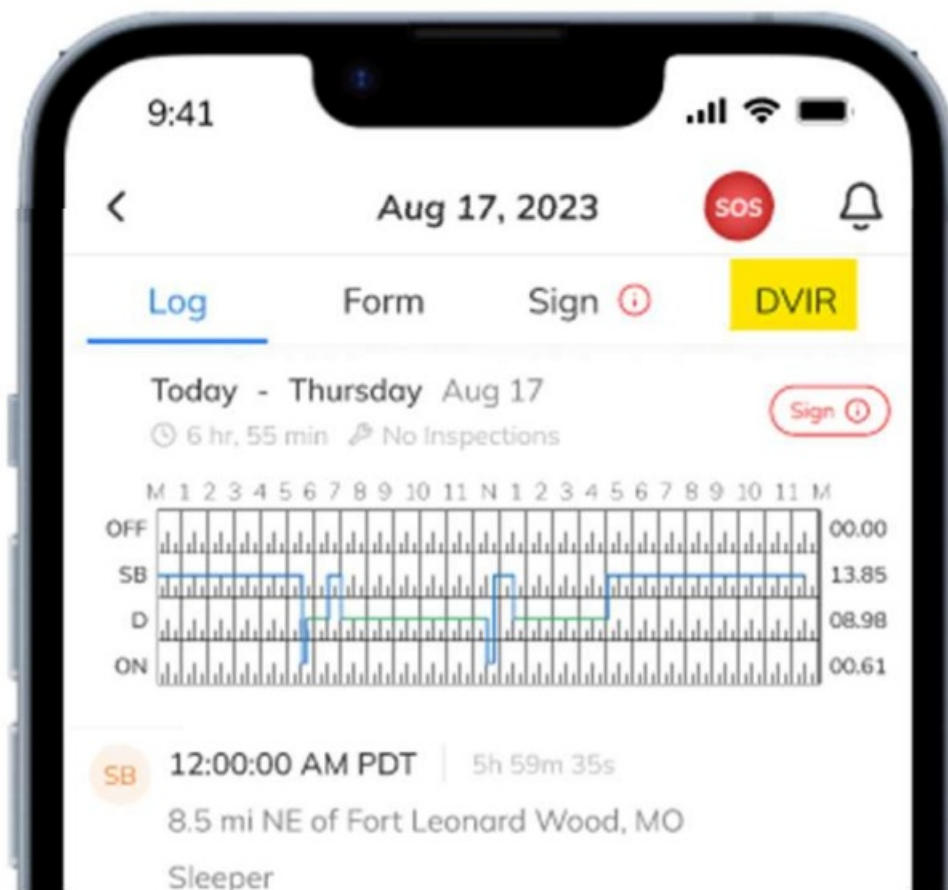

Completing Pre-trip inspection (DVIR)

DVIR

Click on today's logbook

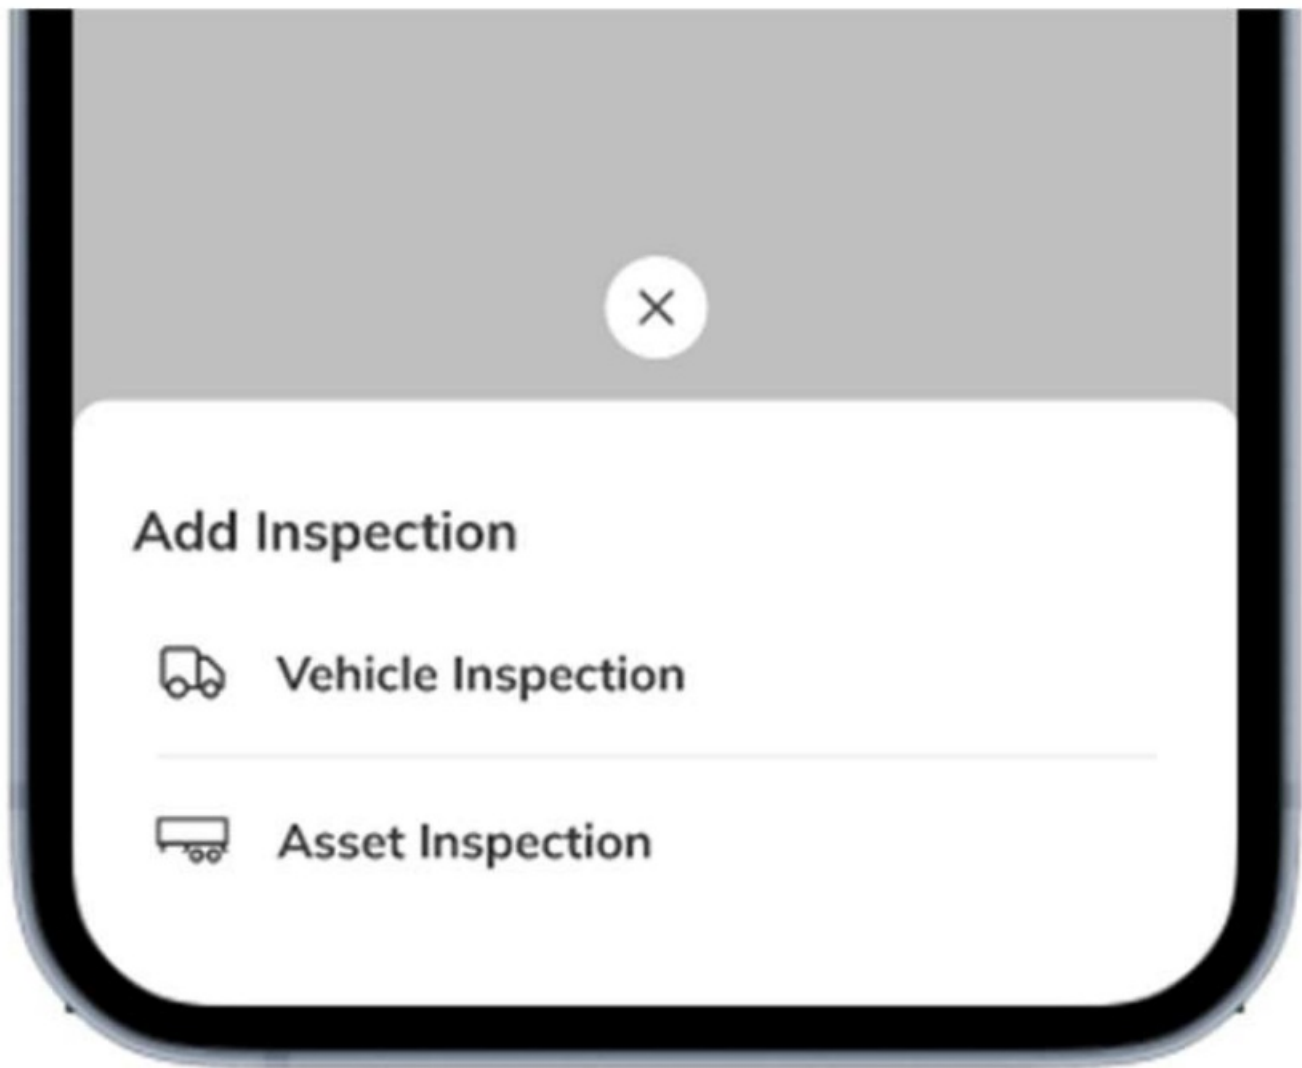

Choose DVIR from the daily log page

Note – Starting Pre-Trip will automatically switch the driver to ON DUTY

Click on blue icon on bottom right to choose vehicle for DVIR

Make sure the location is correct

Defect Type

Certify the DVIR with the signature

Ensure device connection

Please check on "Home" page

It should say "Connected"

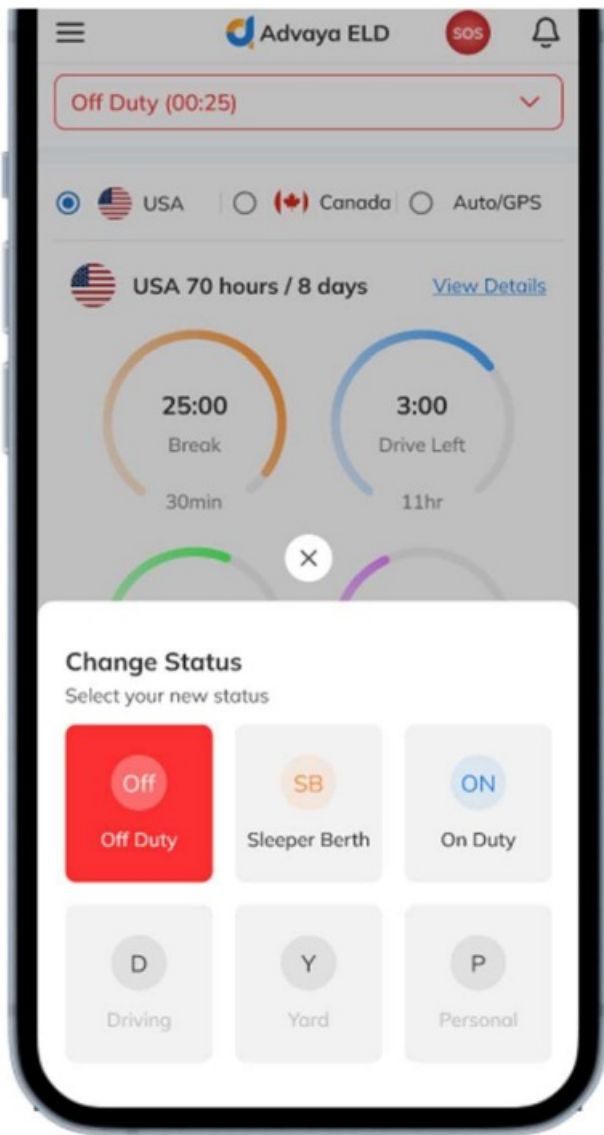

You are all set to start driving

Recording drive time to your ELD Record

When your vehicle is moving 5 mph or more the application will automatically update your current duty status to DRIVING

Using different statuses

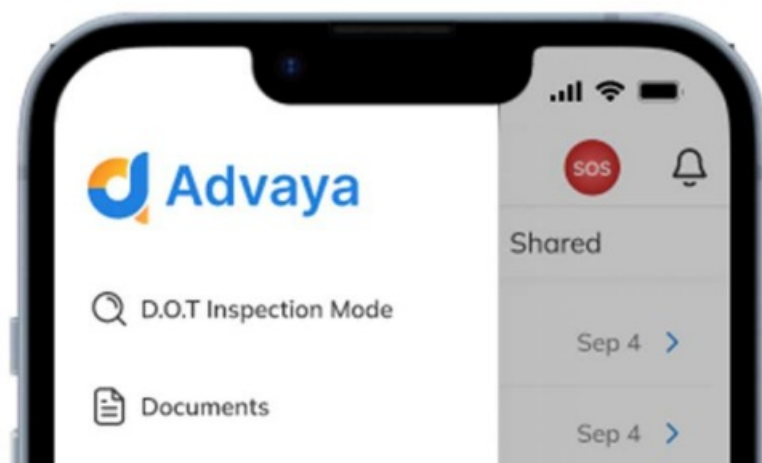

When the vehicle is stationary by clicking on the dropdown all the other statuses will highlight.

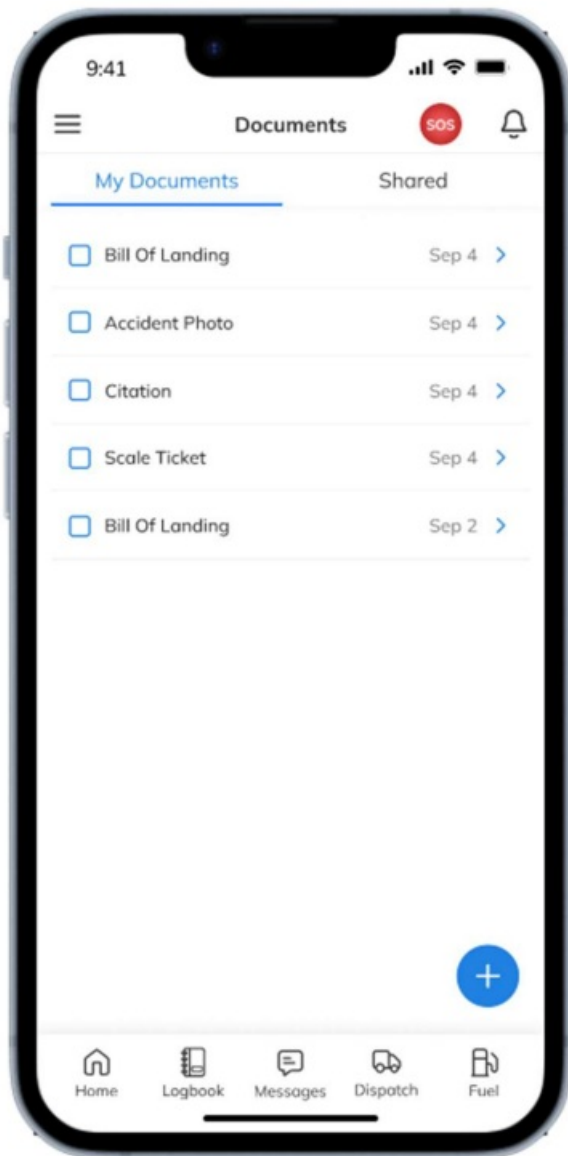

Updating documentation

Always ensure to add the necessary documents before starting the drive to avoid any unnecessary hassle while driving.

Navigate to the menu and choose "Documents"

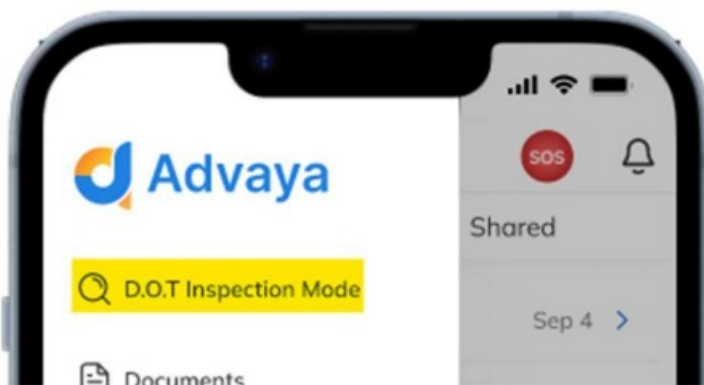

Choose the desired document to be added

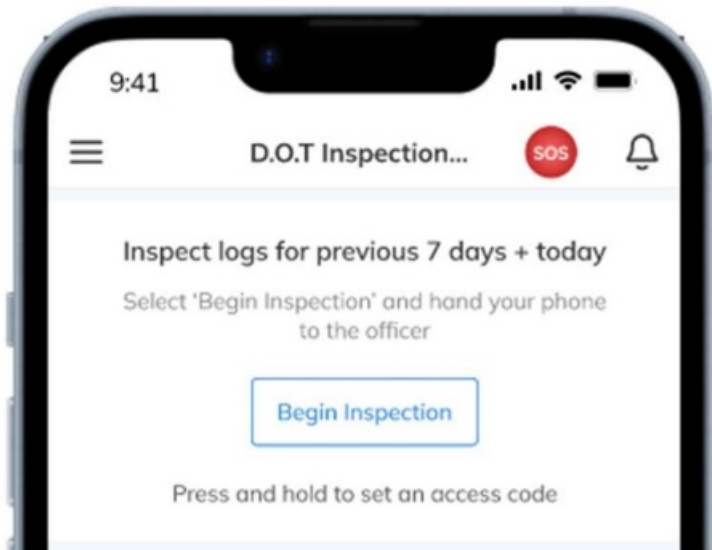

Log Transfer

Navigate to the menu and choose “DOT inspection mode.”

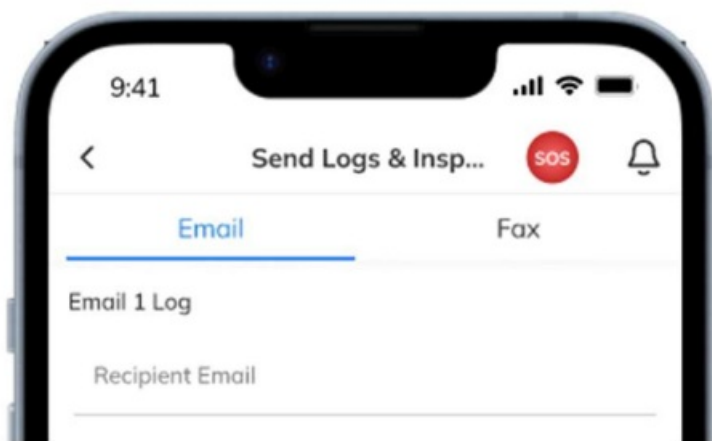

Note: Activating inspection mode will suspend the logbook, requiring the device to be surrendered to the DOT officer.

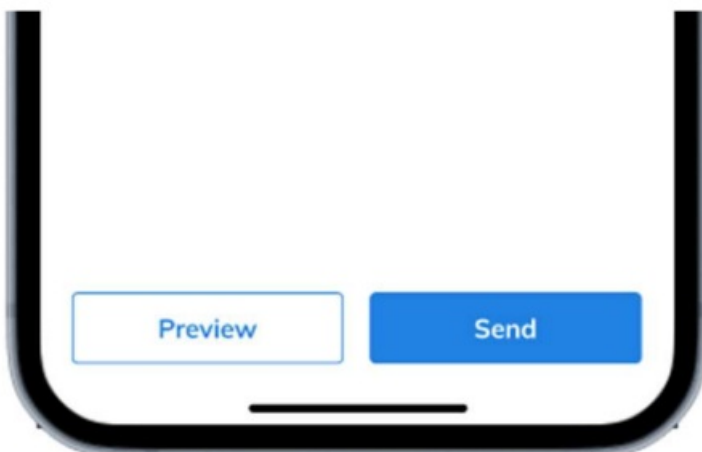

Select “Begin inspection for the past 7 days and today.”

Review the logs and choose “Send.”

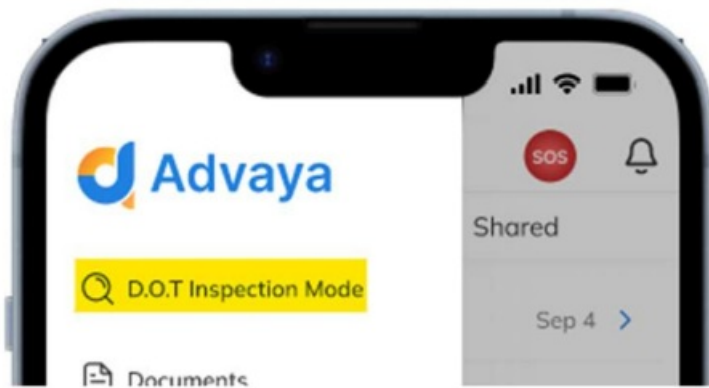

Input the DOT officer's code and select “Send.”

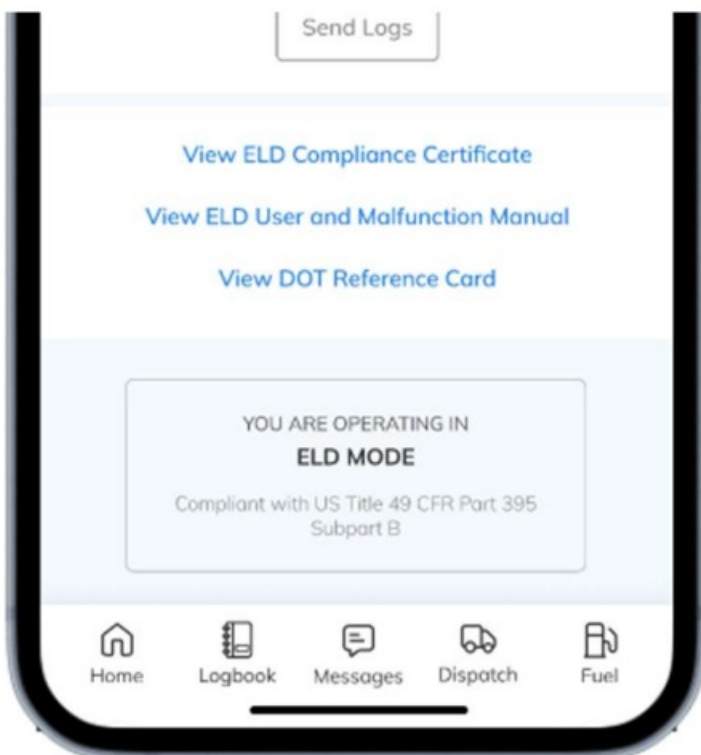

Roadside Inspection

Navigate to the menu and choose “DOT inspection mode.”

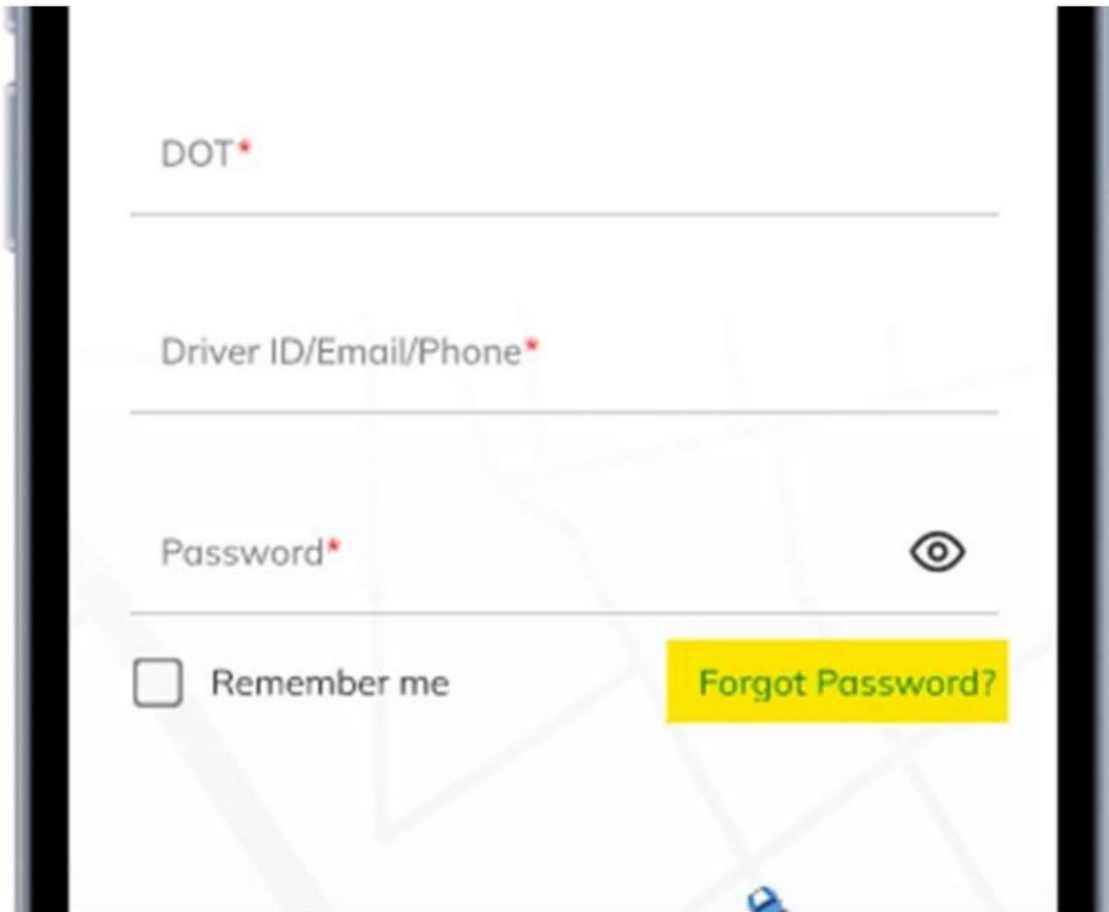

Scroll to the bottom to view the DOT reference card to show to the officer

Reset/Forgot Password

Kindly access the Advaya driver's application to locate the “Forgot Password” option positioned at the bottom right.

A screenshot of a mobile application login screen. The background is a light blue map. The form consists of three input fields, each with a red asterisk indicating a required field. The first field is labeled 'DOT'. The second field is labeled 'Driver ID/Email/Phone'. The third field is labeled 'Password' and includes a toggle icon (an eye) to the right of the input area. Below the password field, there is a checkbox labeled 'Remember me' and a yellow button labeled 'Forgot Password?'. The screen is framed by black bars on the left and right sides, representing the phone's bezel.
