Storage	16G
Expandable Capacity	64G

AEEZO Frame First Set-Up

1. Plug in the power adapter included in the package, and long-press the power button on the back of the frame for about 5 seconds to turn on the frame.
2. Wait for about 15 seconds until the Frameo system runs up.
3. Basic set up the Frame as it guided. You interact with your frame through its touchscreen. Swipe through photos, browse the gallery, delete photos, or pause the slideshow, all with just a tap.
 - 1) First you start by selecting a language. This will be the language used throughout Frameo.
 - 2) Connect your frame to the internet by connecting it to Wi-Fi.
 - 3) If a newer version of the Frameo software is available, then you will be prompted with an update dialog. It is recommended to update your frame immediately if prompted.
 - 4) Set your name, and the location where you will place the frame e.g. "John Doe" and "Living room", "Kitchen" or "Office". Finally set the time zone if not correct.

	
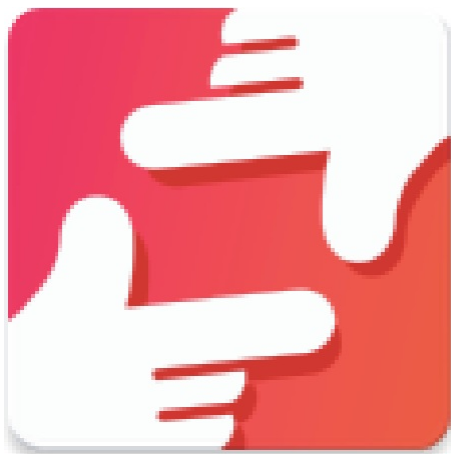

<p>1. Set the language</p>	<p>2. Connect the WiFi</p>
	
<p>3. Upgrade to the latest version</p>	<p>4. Enter your name</p>

Now the frame is online for connecting and receiving photos or videos. Start connecting it to your phone, or families and friends.

Download Frameo App to Your Phone

Share your moments with AEEZO digital photo frames from around the world, starting by downloading a total free Frameo App to your phone.

Search “frameo” from APP Store or Google Play to download Frameo App. Or you can scan the QR code here for downloading directly.

<https://app.frameo.net>

Follow the screen guide to set up your profile such as your name and photo in the APP.

Start Using AEEZO Frame

Start by connecting with your Phone or your families and friends by providing them with a unique code from your frame. Make sure that your friend has downloaded and installed the Frameo app first.

1. Tap the add friend icon  on your frame. A dialog will appear showing a unique code that is valid for 12 hours.
2. Now go to your phone Frameo APP, click the add friend icon  at the top left corner, and input the code on the frame. Now your phone APP is connected to the Frame.
3. Or to share the code with your families or friends. Once they have added the code in their Frameo app, they will automatically appear on your frame and be able to send you photos.

	
<p>Download the Frameo APP on your phone</p>	<p>Click the add friend the icon on your frame</p>
	
<p>Enter the code in the Frameo app</p>	<p>You can now send photos from your phone</p>
