Operation

Answering a Call

An incoming call is indicated by a ringing tone and a flashing indicator. You can answer the call by doing one of the followings:

- Pick up the handset to answer the call.
- Press the Line (Line1/Line2)/Speaker key to answer the call.

Making a Call

Dialing with the Keypad

- Enter the telephone number with the alphanumerical keypad.
- After entering the number you want to call, press the # key to force dialing or wait for 4 seconds before the number is dialed automatically.

Using the Speed dial keys
You can use the 10 pre-assigned speed dial hotkeys, to configure the most commonly dialed numbers. Use the function to dial a number quickly, instead of keying in a complete number.
To call a number using speed dialing, follow the steps below:

Press the speed dial hotkey that has been pre-assigned to the phone number and the call will start automatically.

Call Options
While a call is in progress, a number of additional options are available.

Using the Speaker Phoe
For hands free operation, you can use the built-in speaker to talk on the phone. To use the speakerphone, follow the steps below:

While talking on the phone, press the SPEAKER key on the phone to enable the Speakerphone function. Press SPEAKER key again to terminate the call.

Puttng a Call on Hold
You may want to put a call on hold temporarily while doing some work or attending to a second incoming or outgoing call. To put a call on hold, do one of the following:

- Press the HOLD key on the phone to put the call on hold.

- When you receive a second call, press the next available LINE key to attend to the new call, and the first call will be put on hold automatically.

Checking Voice Messages
If the message waiting indicator at top of handset or base unit lights up in red, it indicates that there are one or more new messages in voicemail box.
Press the MESSAGE key on the phone to retrieve voice messages.
Support
