## Product Usage Instructions

### Connecting the Phone

To connect the phone:

1. Connect the DC Power jack to the AC power adapter.
2. Connect the PSTN line port to the PSTN line.

### Operation

### Answering a Call

To answer a call:

- Pick up the Handset to answer the call.
- Press the LINE (LINE1/LINE2) key on the base or handset to answer the call.

### Making a Call

To make a call:

- Dialing with the Keypad: Enter the telephone number using the alphanumerical keypad.
- After entering the number you want to call, press the # key to force dialing or wait for 4 seconds before the number is dialed automatically.

Using the Programmable Services keys

The Programmable Services keys can be used to call preset services. Press the corresponding key to initiate the desired service.
