Parts and Components

Specifications

Model No.: KF-JN-02	Material: ABS+304+PA/GF
Brew Types: cold/hot brew	Water Tank: 60ml
Coffee Cup Capacity: 120ml	Battery: 2500mAh*3
Charging Voltage/Current: 5V/2A	Power: 72W
Water Heating Time: 5 minutes	Water Heating Temperature: 91 °C
Anti-Dry Burning Temperature: 145 °C	Product Size: 83.5(D)*245.5(H)mm

Charging Guide

1. Please make sure it is fully charged before first use.
2. When the red LED flashes, the battery is low and needs to be recharged.
3. This machine cannot operate while charging.

Safety Instructions

1. Do not touch the orange pad on the cap while heating. Keep children away from the

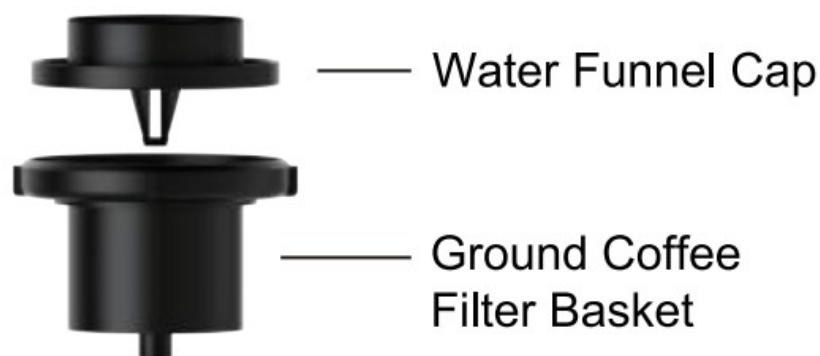

device during operation to avoid burns.

2. Do not operate the heating function without water, even though the device includes an anti-dry heating protection at 145°C.
3. Clean the device and keep it dry after each use to maintain performance and hygiene.

LED Status	Operating Status
Orange light breathing/flashing	The device is heating
Red light flashing for 5 seconds	The heating process is complete
Green light flashing	Extraction is in progress.

How to Use

	
Dual Shot Filter Basket	Single Shot Filter Basket

Step 1: Prepare Your Coffee

Brewing with Coffee Capsule

1. Find the capsule adapter.
2. Insert the capsule based on your desired brew strength:

- **For a Double Shot:**

Push the capsule firmly into the capsule adapter with the aluminum side facing up.

- **For a Single Shot:**

Insert the single capsule adapter into the dual-shot filter basket, with the aluminum side facing down. Make sure the capsule is fully pressed to the bottom.

- **Brewing with Ground Coffee**

1. Find the ground coffee filter basket.
2. Load one full spoon of ground coffee (about 5-7g), then transfer the ground coffee into the filter basket.
3. Tamp the ground coffee firmly with the spoon bottom until the basket is 80% full.
4. Put the water funnel cap back on. Insert the ground coffee filter basket into the dual-shot capsule adapter.

Step 2: Assemble

1. Screw the filter basket back onto the main body tightly.

- 2. Attach the coffee cup to the main body, make sure the entire machine is placed on a stable surface flat surface.
- 3. Open the upper lid, fill it with water, and put the lid back on.
*Recommend using 50ml of water to get a standard 30ml cup of espresso.

Step 3: Start Brewing

- 1. Press the power button once to check the battery level.

● Green LED = Sufficient	● Red LED = Battery below
	

- 2. Press the button to start brewing:

- **For cold water:**

Double click the button until the beep, heating time lasts up to 5 minutes.
Extraction starts after the second beep.

- **For hot water:**

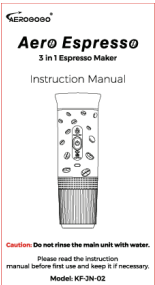

Long-press & hold the button for 5 seconds to start extraction directly.

Troubleshooting Guide

Malfunction	Analysis	Troubleshooting
Red light stays on for 8 seconds	Low battery	Charge the device for 3-5 hours until fully recharged.
Red light flashes slowly + buzzer beeps (5s)	Heating timeout (over 15 mins)	Restart the device. Double-click the power button to reheat.
Red light flashes rapidly + buzzer beeps (5s)	Battery overheating protection	Remove the cap and let the device cool down for 5 minutes before your next cup.
Extraction of water only	Capsule not pierced correctly	Make sure to twist the dual-shot capsule adapter firmly until fully secured.
Coffee contains ground residue	Ground coffee overflowed or was unevenly tamped	It is recommended to use no more than 8g of coffee. Tamp until the filter basket is about 80% full.
