## **Getting Started**

### **POWER ON & OFF**

To power on the glasses, open the case's lid and wait for the power-on sound prompt before removing the glasses from the case.

To power off the glasses, place the glasses back inside the charging case and close the lid.

The glasses will power off if it's been idle for over an hour. To power on the glasses without placing them inside the case, wear the glasses and longpress both touch controls for 5 seconds.

### **CONNECT**

To connect to a new device, long press either sides of the touch controls for 5 seconds until you hear the voice prompt "Bluetooth pairing," then activate your device's Bluetooth and connect to "Aether Eyewear." If you hear the prompt "Bluetooth pairing failed," repeat the procedure above again.

To force disconnect the current device and connect to a new device, long press either sides of the touch controls for 5 seconds.

### **CHARGE**

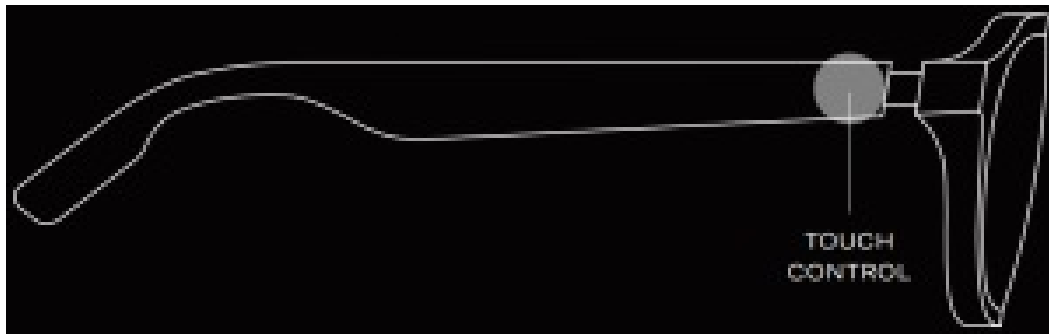

To charge the glasses, place them back inside the charging case by folding the left temple before the right temple. Once placed inside, make sure the glasses are resting flat inside the case and that the charging indicator light inside the case is showing either orange or green.

To recharge the case, plug the provided USB-C charging cable into the back of the case and make sure the indicator light next to the USB-C socket shows either orange or green.

## **Using Aether**

Aether audio sunglasses & glasses are wireless Bluetooth® 5.1 linked audio devices used to listen to music, podcasts or other audio sources. They can also be used for phone calls and interact with your paired device's audio assistance feature.

### **RIGHT TEMPLE**

#### LEFT TEMPLE

#### MUSIC

Single tap either side of the touch controls to play / pause the song. Double-tap right to skip song and left to go back to the previous song.

#### CALLS

Single tap either side of the touch controls to answer calls. Double tap either side of the touch controls to decline calls.

#### VOICE ASSIST

Long press either side of the touch controls for 2 seconds to activate voice assistance.

#### IMPORTANT NOTE

The touch controls will only work when the glasses are worn.

### Carl Zeiss Vision Lenses

#### CARL ZEISS VISION SUNLENSES

Aether audio sunglasses are equipped with Carl Zeiss Vision's UV protection tinted lenses. All lenses are made with the highest quality materials to ensure crystal clear vision without any distortion while protecting your eyes from harmful UV rays.

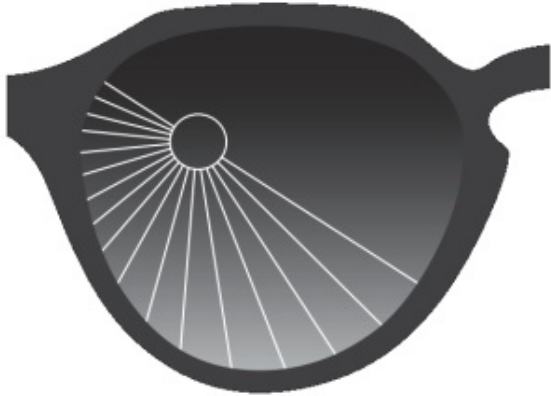

- More than 99% protection from UVA & UVB rays.
- Clear vision without distortion.
- 50% lighter than mineral glass.
- BPA free.

#### DURAVISION® BLUEPROTECT ZEISS LENSES

Blue-violet light is invisible to the naked eye but it's all around us. The BlueProtect lenses filter blue-violet light at 440nm and below. This has a minor impact on your melatonin regulation and inner clock while providing beneficial protection from potential eye harm.

- A BlueProtect front coating shields your eyes from artificial blue light.
- An anti-selective coating guarantees optimal clarity.
- More than 99% protection from UVA & UVB rays.

### **SUPER ANTI-REFLECTIVE**

A state-of-the-art anti-reflection coating protects from lens glare at all angles.

### **ANTI-SCRATCH SURFACE**

Our unique finishing formula keeps the surface of each lens strong and durable.

### **CRYSTAL-CLEAR LENSES**

Lenses engineered from the purest components are precision-cut for clear vision.

## **Important Information**

### **INDICATIONS FOR USE**

Aether is water-resistant but not waterproof, please do not put it underwater.

The glasses come with a dedicated wireless charging case and can only be recharged with this case. Please do not try to recharge the glasses in any other way.

Aether lenses are not prescription correction lenses but they can be retrofitted by an optician with prescription

correction lenses. When retrofitting the lenses, please give your optician the “instructions for opticians” sheet which comes in this box.

## **USER SAFETY**

Do not use the product if the package is damaged upon delivery. To avoid hearing damage, you should not use the glasses at high volumes over a long period of time. Do not use the glasses if they emit any loud, unusual noise. If this happens, stop using the device immediately and contact us at [support@aether-eyewear.com](mailto:support@aether-eyewear.com).

Remove the glasses immediately if you experience any unusual warming sensation from the temples.

This product contains small parts that may be a choking hazard. Please keep away from children under the age of 3.

Be cautious as the use of the glasses might distract you from your environment. Care for your safety and the safety of those around you when you are wearing the glasses and engaged in activities which require your attention.

Follow applicable laws, especially on the use of mobile phones or other devices while driving.

Adjust the volume to ensure that you can hear your surroundings.

Tinted glasses are not recommended to be worn for night time driving.

The lenses should be exchanged by an optician only.

This product contains magnetic material. Seek medical advice on whether or not this might affect your implantable medical device.

## **PRODUCT SAFETY**

Do not bend the temples of the glasses as this can damage the electronics inside.

Keep the glasses and charging case away from fire and heat sources. Avoid storage in direct sunlight. Do not place any open heat sources near the product.

Do not try to open, alter or modify the product in any way. This will void the warranty of the product and can damage the product. Aether will not be obligated to fix any products once the temples have been opened up. Do not try to stick anything into the speaker of the glasses. This might degrade the sound quality and will void the warranty.

Only use the provided charging case for recharging the battery of the glasses.

Do not charge the charging case with a mobile adapter in the airplane seat jacks as this could result in injury or property damage due to overheating.

Charge the case only with an approved power supply compliant with regulatory requirements.

Only use products, attachments, accessories specified by Aether.

Unplug the charging case during lightning storms and when unused for long periods of time.

During transport, store the glasses in the provided charging case to avoid unnecessary scratches on the product.

The glasses can only be used within a temperature range of -10°C to 40°C

Don't attempt to remove the rechargeable lithium-ion battery from the product.

After each use, wipe all sides of the glasses with the cloth provided or a dry cloth.

The glasses can only be repaired and serviced by Aether. Do not repair or service your glasses anywhere else. For repairs and servicing, please contact us at [support@aether-eyewear.com](mailto:support@aether-eyewear.com)

### Troubleshooting

Power on and wear the glasses to enable touch control to work. Long press either sides of the touch controls for 10 seconds to reset the glasses.

### Regulatory Information

Aether glasses and charging case has been tested and complies with RF: ( BT5.0 & 2.4G ) , EMC: ( BT5.0 & 2.4G ) , EN55020, EMF: EN62479, LVD: EN62358 – 1: 2014 + AC : 2015.

This low power electronic device complies with EN62479 and does not cause harmful interferences to the user at any time, except for situations of violated safety constraints. Accordingly, the limit for radiation exposure is adhered to, as defined for user's health for the general population. The device has immunity against electromagnetic interference as species by EN55020.

The batteries in the glasses and the charging case are in compliance with IEC62133 / UL2054 / UL1642.

The product is designed to block more than 99% UVA and UVB light energy. This product is in compliance with ANSI Z80.3 – 2018 and AS / NZS 1067. 1 : 2016.

The lenses meet applicable government impact resistance requirements but are not shatterproof.

### Trademarks

Bluetooth and the Bluetooth logos are registered trademarks of Bluetooth SIG Bluetooth SIG, Inc., and any use of such trademarks is under license.

Designed and developed by Aether Eyewear PTE. LTD. 160 Robinson Road #14-04 Singapore

### Requirement

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not

installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada’s licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.
