PKPOWER AC Adapter Charger for TACKLIFE T8 800A Car 12V Battery Jump Starter Power User Manual

Introduction

This manual provides essential instructions for the safe and effective use of your PKPOWER AC Adapter Charger, designed for compatibility with the TACKLIFE T8 800A Car 12V Battery Jump Starter Power. Please read this manual thoroughly before use and retain it for future reference.

Safety Information

Always observe the following safety precautions to prevent injury or damage to the product and connected devices:

- Use the adapter only with compatible devices as specified.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to strong impacts.
- Do not attempt to disassemble or modify the adapter. This will void the warranty and may cause electrical hazards.
- Ensure the power outlet voltage matches the adapter's input specifications (100-240V).
- Unplug the adapter from the power outlet when not in use or during electrical storms.
- Keep out of reach of children.
- If the adapter shows signs of damage (e.g., frayed cable, cracked casing), discontinue use immediately and contact support.

This product is CE / FCC / RoHS certified, indicating compliance with relevant safety and environmental standards.

Package Contents

Verify that all items are present in the package:

- 1 x PKPOWER AC Adapter Charger
- (Note: Product listings may sometimes indicate a quantity of two adapters. This manual refers to the operation of a single unit.)

Setup

Follow these steps to set up your AC adapter:

1. **Identify the Charging Port:** Locate the DC input charging port on your TACKLIFE T8 800A Car 12V Battery Jump Starter.
2. **Connect the Adapter:** Insert the output connector of the PKPOWER AC Adapter into the charging port of the jump

starter. Ensure a secure connection.

3. **Plug into Power Outlet:** Plug the AC adapter's two-prong plug into a standard 100-240V AC wall outlet.
4. **Verify Connection:** The jump starter should indicate that it is receiving power or charging (refer to your jump starter's manual for specific charging indicators).

Operating Instructions

The PKPOWER AC Adapter is designed for straightforward operation:

- **Charging:** Once connected as described in the "Setup" section, the adapter will supply power to charge your compatible device. The charging process is typically managed by the device itself (e.g., the TACKLIFE T8 jump starter).
- **Monitoring:** Monitor the charging status on your TACKLIFE T8 jump starter. Disconnect the adapter once the device is fully charged to conserve energy and prolong battery life.
- **Disconnection:** To disconnect, first unplug the adapter from the wall outlet, then carefully remove the output connector from your device.

This adapter features OVP (Over Voltage output Protection), OCP (Over Current output Protection), and SCP (Short Circuit output Protection) to ensure safe charging.

Maintenance

Proper maintenance ensures the longevity and reliable performance of your adapter:

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures. Avoid wrapping the cable too tightly around the adapter to prevent damage.
- **Inspection:** Periodically inspect the cable and adapter casing for any signs of wear, cuts, or damage. If damage is found, discontinue use.

Troubleshooting

If you encounter issues with your PKPOWER AC Adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Adapter not charging device.	◦ Loose connection. ◦ Power outlet issue. ◦ Incompatible device. ◦ Damaged adapter.	◦ Ensure all connections are secure. ◦ Test the power outlet with another device. ◦ Verify device compatibility (TACKLIFE T8 800A Jump Starter). ◦ Inspect adapter for damage; discontinue use if damaged.
Adapter feels hot during use.	◦ Normal operation (slight warmth). ◦ Overload or poor ventilation.	◦ A slight warmth is normal. ◦ Ensure the adapter is in a well-ventilated area. If it becomes excessively hot, disconnect immediately and contact support.
Device not recognizing adapter.	◦ Incorrect adapter. ◦ Device charging port issue.	◦ Confirm the adapter is the correct model for your TACKLIFE T8. ◦ Consult your device's manual or contact its manufacturer.

Specifications

Model Number	XSD-400202331HUSD466
Input Voltage	100-240V AC, 50-60Hz
Compatibility	TACKLIFE T8 800A Car 12V Battery Jump Starter Power
Protection Features	OVP (Over Voltage output Protection), OCP (Over Current output Protection), SCP (Short Circuit output Protection)
Certifications	CE, FCC, RoHS
Product Dimensions	4 x 2 x 0.5 inches (approximate)
Item Weight	3 ounces
Color	Black
