At a Glance
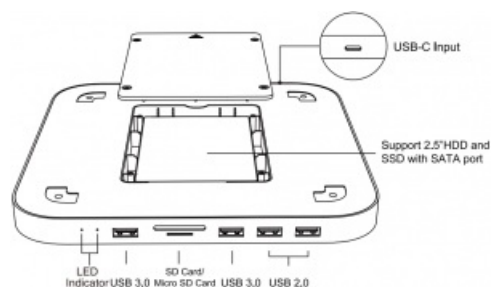

LED Indicator SD Card! Micro SD Card, USB 3.0, 2.0

- About LED Indicator:
  During using, the blue light (left) means the hub has been successfully connected your device; The white light (right) indicates it has been successfully connected your hard disk.
- To Insert Or Remove SD Card/Micro SD Card:
  1) If inserting, slide the card into the slot in the correct orienta-tion. Press gently the card until it clicks into place.
  2) If removing, press gently on the card. It will pop up and then can be removed.
- Instruction for 2.5″ Hard Drive Enclosure
  1. Take out the screws anticlockwise with the screwdriver.
  2. Remove back cover&put your hard drive into the enclosure.

3. Install the back cover and tighten the screws clockwise.

Note: The data transfer rate depends on the specification of your SSD/HDD.
