DICTAC 2212

DICTAC Queen Floating Bed Frame

User Instruction Manual

Brand: DICTAC | **Model:** 2212

1. Safety Information

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Do not exceed the maximum weight recommendation of**900 lbs**. Overloading can cause damage or injury.
- Exercise caution during assembly to avoid sharp edges.
- Ensure the wall-mounted headboard is securely installed to a**solid wall** (concrete, wood) to prevent falls or injury. Installation on cavity walls is not recommended.
- Keep small parts and packaging materials away from children.
- Periodically check all connections and fasteners to ensure they remain tight.

2. Package Contents

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact DICTAC customer support.

- Bed Frame Components (Side Rails, Center Bar, Support Legs)
- Wooden Slats with Velcro
- Wall Mounted Headboard (Faux Leather Panels, Suspension Rail, Security Attachments)
- LED Light Strip Kit (LED strip, controller, remote control, power adapter)
- Assembly Hardware (Screws, bolts, nuts, washers)
- Assembly Tools (Hex key, wrench)
- Instruction Manual

3. Setup and Assembly

Assembly typically takes approximately 30 minutes for one person. Follow the numbered parts and detailed instructions provided in the included assembly guide.

3.1 Bed Frame Assembly

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Assemble the main bed frame structure by connecting the side rails and end pieces using the provided hardware. Ensure all connections are secure.
3. Install the solid metal center bar and U-shaped support legs for reinforced support.
4. Attach the wooden slats to the frame. The Velcro slats design simplifies installation and helps prevent noise. Ensure the EVA foam mute bar is pressed onto the metal beam.

Figure 3.2: Detail of Velcro slats for simplified installation and stability.

3.2 Wall Mounted Headboard Installation

The headboard is designed to be wall-mounted, allowing for adjustable height to suit various mattress types and thicknesses.

1. Identify a suitable solid wall for mounting (concrete, wood). Avoid cavity walls.
2. Determine the desired height for your headboard, considering your mattress thickness.
3. Securely attach the suspension rail and security attachments to the wall according to the provided instructions.
4. Hang the faux leather headboard panels onto the suspension rail.

Figure 3.3: Freely adjustable headboard height for various mattress thicknesses.

3.3 LED Light Installation

The LED light strip is designed to be hidden underneath the bed frame, creating a floating effect. A power drill may be helpful for secure installation.

1. Carefully attach the LED light strip to the underside of the bed frame. Ensure the adhesive is firm.
2. Connect the LED strip to the controller and then to the power adapter.
3. Plug the power adapter into a suitable electrical outlet.

4. Operating Instructions

4.1 LED Light Operation

The integrated RGB LED lights can be controlled via a dedicated mobile application or the included remote control.

- **Power On/Off:** Use the power button on the remote or in the app to turn the lights on or off.

- **Color Selection:** Choose from over 60,000 colors using the color wheel in the app or preset buttons on the remote.
- **Brightness Adjustment:** Adjust the light intensity to your preference.
- **Mode Selection:** Cycle through various dynamic lighting modes (e.g., fade, jump, strobe).
- **Timing Function:** Set a timer for the lights to automatically turn off.
- **Music Sync Mode:** In this mode, the light color and flashing pattern will change in rhythm with music, providing an immersive experience.

5. Maintenance

Proper care will extend the life and appearance of your bed frame.

- **Cleaning:** For general cleaning, wipe the bed frame and headboard with a**dry cloth**. For more stubborn marks, a slightly **damp cloth** can be used, followed by drying immediately. Avoid harsh chemicals or abrasive cleaners.
- **Fastener Check:** Periodically (e.g., every 3-6 months) check all screws, bolts, and connections to ensure they are tight. Re-tighten if necessary to maintain stability and prevent noise.
- **Noise Prevention:** The bed frame features Velcro slats and EVA foam mute bars designed to reduce friction and noise. Ensure these components are properly seated during assembly and remain in place.

6. Troubleshooting

If you encounter any issues with your DICTAC bed frame, refer to the common problems and solutions below. If the problem persists, please contact customer support.

- **LED Lights Not Working:**
  - Check if the power adapter is securely plugged into both the wall outlet and the LED controller.
  - Ensure the LED strip is properly connected to the controller.
  - Verify the remote control battery is functional and correctly inserted.
  - If the adhesive on the LED strip is poor, consider reinforcing it with additional tape or clips.
- **Squeaking Noises from Bed Frame:**
  - Re-tighten all assembly screws and bolts. Loose connections are a common cause of squeaking.
  - Ensure the wooden slats are properly seated and the Velcro is fully engaged.
  - Verify the EVA foam mute bar is correctly positioned on the metal beams.
- **Headboard Instability:**
  - Confirm the headboard is mounted to a solid wall type (wood stud, concrete).
  - Ensure all wall anchors and screws for the suspension rail are securely fastened.

7. Specifications

Detailed specifications for the DICTAC Queen Floating Bed Frame:

Feature	Detail
Size	Queen
Product Dimensions	80"L x 60.32"W x 44"H
Weight Capacity	900 lbs
Color	White
Finish Type	Upholstered
Included Components	Led bed frame
Compatible With Mattress Size	Queen
Furniture Finish	White
Product Care Instructions	Wipe with Dry Cloth, Wipe with Damp Cloth
Assembly Required	Yes
Manufacturer	DICTAC
Form Factor	Floating

Item Weight	74 pounds
Item Model Number	2212
Date First Available	April 8, 2023
