Introduction

This instruction manual provides detailed guidance for the Hot Wheels Shark Attack Track Set (Model BGK04). Please read this manual carefully before assembly and operation to ensure safe and optimal use of the product. This set offers an exciting play experience with its unique shark attack feature and color-changing elements.

Safety Information

WARNING:

- Not suitable for children under 36 months due to small parts which may present a choking hazard.
- Adult supervision is recommended during play.
- Do not use hot water that could cause burns for the color-changing feature. Use only cold or lukewarm water.
- Keep away from electrical outlets and devices when using water.

What's in the Box

Verify that all components are present before beginning assembly:

- One Hot Wheels Color Shifters vehicle
- One track set with tower
- One main ramp
- One shark figure with opening mouth
- One release lever mechanism
- Two color-changing zones (a reservoir water pool and a tank)
- Various track connectors and support pieces

Setup and Assembly

Assembly is required for this product. Follow these general steps:

1. Unpack all components and lay them out on a clean, flat surface.
2. Identify the base pieces and connect them securely.
3. Assemble the tower structure according to the visual guides.
4. Attach the main ramp and the shark figure to the designated connection points. Ensure the shark's mouth mechanism is free to move.
5. Connect the release lever and the color-changing zones (reservoir and tank) to the track.
6. Ensure all track pieces are firmly snapped together to prevent cars from derailing.

Image: A child's hand demonstrates interaction with the track set, highlighting the tower and the water tank, suggesting the assembly and play process.

This track set can be connected to other Hot Wheels tracks to expand your play universe. Look for compatible connectors on your other Hot Wheels sets.

Operating Instructions

Experience the thrill of the Hot Wheels Shark Attack Track Set:

1. **Prepare the Color-Changing Zones:** Fill the reservoir pool and the tank with water. For color-changing effects, use cold water in one zone and warm (not hot) water in the other.
2. **Launch Your Car:** Place a Color Shifters vehicle at the top of the main ramp.
3. **Race and Evade:** Release the car to send it speeding down the ramp. The goal is to race past the shark without getting caught in its jaws.
4. **Shark Attack Feature:** If the car triggers the shark's mechanism, the shark's mouth will close, trapping the car.
5. **Release Trapped Cars:** Hit the designated lever to open the shark's mouth and release any trapped cars, sending them back onto the track.
6. **Color Shifters Action:** Drive your Color Shifters car through the water zones to see its color magically change. Repeatedly driving through different temperature water zones will change the car's color back and forth.

Image: A hand places a yellow Color Shifters car into the water pool, demonstrating how to activate the color change.

Maintenance

To ensure the longevity of your Hot Wheels Shark Attack Track Set:

- **Cleaning:** After use, especially with water, empty all water from the zones. Wipe down all plastic parts with a damp cloth. Do not submerge the entire set in water.
- **Drying:** Allow all components to air dry completely before storing to prevent mold or mildew.
- **Storage:** Store the track set in a clean, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check for any loose or damaged parts. Discontinue use if any parts are broken.

Troubleshooting

Problem	Possible Cause	Solution
Car not changing color.	Water temperature is not sufficiently different, or car is not a Color Shifters vehicle.	Ensure one water zone is cold and the other is warm. Verify you are using a Hot Wheels Color Shifters car.
Car gets stuck on the track.	Track pieces are not fully connected, or there is an obstruction.	Check all track connections to ensure they are secure. Remove any debris or foreign objects from the track.
Shark's mouth not opening/closing properly.	Mechanism is jammed or lever is not fully pressed.	Ensure no cars or objects are obstructing the shark's mouth. Press the release lever firmly.

Specifications

- **Model Number:** BGK04
- **Product Dimensions (L x W x H):** 45.01 x 75.01 x 50.01 cm (17.72 x 29.53 x 19.69 inches)
- **Product Weight:** 453.59 grams (1 lb)
- **Recommended Age:** 36 months - 8 years
- **Educational Value:** Hand-eye coordination
- **Material:** Plastic, Metal
- **Number of Players:** 1
- **Assembly Required:** Yes
- **Scale:** 1:64 (for included vehicle)
- **Batteries:** No batteries required for main track operation. Note: Some features may require 3 AAA batteries (not included).
- **Color:** Multicolor

Warranty and Support

Limited Warranty: This product comes with a limited warranty. Please refer to the manufacturer's official website or contact customer service for detailed warranty terms and conditions.
Customer Support: For further assistance, missing parts, or technical inquiries, please visit the official Hot Wheels website or contact their customer service department. Contact information can typically be found on the product packaging or the official brand website.

Note: Keep your purchase receipt as proof of purchase for warranty claims.
