Function Description

What's in the box

1. MP3 Player (MP3 Player comes with the TF Card already inserted.)

2. Charging cable

3. TF Card Reader

4. Earphones

5. Instruction manual

- **Charging the AiMoonsa MP3 Player**

  A charging cable is supplied with a micro USB plug at one end and a USB plug at the other end. Insert the micro USB plug into the micro USB socket on the MP3 Player and insert the USB plug into the USB port of a PC or laptop or a 5Volt 1Amp USB adapter. An icon in the top right corner of the screen shows the level of charge in the battery.

- **File Transfer**

  There are 2 ways of transferring files to and from the MP3 player as follows:

  1. Use the charging cable to connect the MP3 Player to a PC or laptop/notebook.
  2. The quickest way is to use the TF Card Reader. Remove the TF Card from the MP3 Player either by prizing it out using your thumb – if you press on it it will pop out, or use small tweezers such as eyebrow tweezers to grasp the card and pull it out.
     Then insert the TF Card into the TF Card Reader at the BLACK end where you will see a row of metal strips. Insert the TF Card into the TF Card Reader so that the row of metal strips. Insert the TF Card into the TF Card Reader so that the row of metal strips on the TF Card makes contact with the row of metal strips in the TF Card Reader. Then the black end of the TF Card Reader can be inserted into a USB Port on a PC or laptop for file transfer.

- **Update playlist**

  1. If the MP3 playlist is not automatically updated after a new music file is added, you can insert the TF card into the card reader then connect with the computer to recover the TF card, and it will be updated automatically. (The previous music operation record will not be cleared by this action)
  2. If new music files are added and the MP3 playlist is not automatically updated, please select "Update Playlist" in "Music" or "Settings" (This process will clear the previous music operation records, such as "favorites", "bookmarks", etc.)
  3. The update speed will slow down when the TF card file is large, please be patient.

- **Main interface**

  The main interface includes Music, Artists, Albums, Favorites, Bluetooth, Folders, and Applications (Ebook, Pictures, FM, Recorder, Settings), press "◎" to enter.

- **Music**

  1. This MP3 player supports APE, FLAC, ACELP, WAV, MP3, and other lossless formats but not M4A files.
  2. When you transfer music to the AiMoonsa MP3 Player album and artist integrity is maintained.
  3. Touch icon to Music then ◎ for menu of All Songs, Last Played,

Artists, Albums, Favourites, Play mode, Update Playlist

PLAY ALL SONGS will play all the audio files stored on the MP3 Player in alphabetical sequence.
AB REPEAT – allows one to repeat a section WITHIN ONE AUDIO FILE. To use this function select the audio file and begin playing – LONG TOUCH the = icon at the point in the audio file where you want the repeat to begin and then touch > at the end of the section to be repeated – this section will be continuously repeated. Touch > again to cancel this repeat function.

Bluetooth

1. Switch on Bluetooth on the device with which you wish to connect the MP3 Player.

2. Bring the AiMoonsa MP3 Player close to the device and touch the > and < icons until you reach the Bluetooth icon touch " ⊚ " to open and touch ⊚ to turn Bluetooth ON.

3. Then using v scroll down to "Search Device"

4. While the AiMoonsa MP3 player is searching for the device the screen will show the Bluetooth icon with waves emitting from it.

5. The name or code for the device will appear in "Paired Devices" The screen will indicate when the connection is successful – "[device name] connected" will appear on the screen and the Bluetooth icon will flash in the top right-hand corner of the screen next to the battery icon.

6. Bluetooth will only operate for music.

Notice: This machine does not support background playback of recording files.
Settings
Select settings on the application side, and press "◎" to enter the operation interface (including "Language, Date&time, Brightness, Backlight Timer, Idle Shutdown, Information, Factory Settings, Update Playlist").

Troubleshooting

- **Q: The player cannot be turned on.**

  A: Please check whether the battery is exhausted. You can connect it to a computer or a charger and try to turn

  it on again.

- **Q: No sound can be heard in the headset.**

  A: Please check if the volume is set to zero. Please check if the earphone is correctly inserted into the

  earphone jack.

- **Q: Severe noise?**

  A: Please check whether the plug of the earphone is clean. Dirt can cause noise.

  Please check whether the music file is damaged, you can try to play other music files to confirm.

  If the file is damaged, it may cause severe noise or skipping of sound.

- **Q: FM signal reception is weak?**

  A: Please adjust the direction and position of the player, and extend the headphone cable. Please check if there

  is interference from electronic equipment nearby.

- **Q: Do you support displaying lyrics?**

  A: Yes, but you need to download the file in "LRC" format and check the song time corresponding to the lyrics.

  The song name and lyrics must be the same.

- **Q: Why are there garbled characters in lyrics or e-books?**

  A: The encoding format may be wrong. Please select the "UTF-8" encoding format when saving lyrics or e-

  books.
