5. Maintenance

Regular cleaning and proper care will help maintain the beauty and functionality of your Eviva vanity for years to come.

General Care:

- **Cleaning:** Use a soft, damp cloth for general cleaning. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish and countertop.
- **Spills:** Wipe up spills immediately, especially on the countertop and wood surfaces, to prevent staining or water damage.

Specific Component Care:

- **Carrara Quartz Countertop:** Quartz is highly durable and non-porous. Clean with mild soap and water. For stubborn stains, a non-abrasive household cleaner can be used. Avoid strong acids or alkalis.
- **Porcelain Sinks:** Clean with mild soap and water. For tougher stains, a non-abrasive bathroom cleaner safe for porcelain can be used. Rinse thoroughly after cleaning.
- **Wood Finish:** Dust regularly with a soft, dry cloth. For deeper cleaning, use a wood-safe cleaner and polish as directed by the product manufacturer. Avoid excessive moisture.
- **Brushed Chrome Handles:** Clean with a soft, damp cloth and mild soap. Dry immediately to prevent water spots. Avoid abrasive cleaners or polishes that can scratch the finish.

6. Troubleshooting

While the Eviva vanity is built for durability, minor issues may occasionally arise. Here are some common concerns and general advice:

- **Leaking Faucets/Drains:** Check all plumbing connections for tightness. Ensure washers and seals are correctly seated. If leaks persist, consult a professional plumber.
- **Drawer/Door Alignment:** If drawers or doors appear misaligned, check the hinge or drawer slide adjustments. Most soft-closing hardware allows for minor adjustments using a screwdriver. Refer to the hardware manufacturer's instructions if available.
- **Stains on Countertop:** For persistent stains on the quartz countertop, try a specialized quartz cleaner. Always test in an inconspicuous area first.
- **Scratches on Finish:** Minor scratches on the wood finish may be touched up with a wood repair kit matching the vanity's color. For significant damage, professional repair may be necessary.
