Dpofirs B66

Dpofirs B66 Wireless Translation Earbuds User Manual

Your guide to seamless communication and high-fidelity audio.

1. Introduction

Welcome to the Dpofirs B66 Wireless Translation Earbuds user manual. These earbuds are designed to facilitate real-time communication across language barriers, offering advanced translation capabilities and high-fidelity audio. Please read this manual carefully to ensure proper use and optimal performance of your device.

2. Product Overview

The Dpofirs B66 system includes two wireless earbuds and a charging case. The earbuds are equipped with advanced technology for language translation and audio playback.

The Dpofirs B66 wireless translation earbuds are shown in their open charging case, displaying the earbuds and the digital battery indicator.

3. Key Features

- **Real-time Translation:** Interprets almost simultaneously with low latency (0.5 seconds) using 15 global servers.
- **Multilingual Support:** Supports 74 languages and 70 accents, covering over 90% of the global population, with 97% accuracy from four top-tier translation engines.
- **Four Translation Modes:** Includes Touch Mode, External Mode, Hands-free Mode, and Offline Mode to suit various scenarios.
- **HiFi Stereo Audio:** Delivers immersive stereo sound for music listening and phone calls.
- **Extended Battery Performance:** Each earbud has an 80 mAh rechargeable battery, providing 4 hours of continuous operation and 120 hours of standby time. The charging case contains a 400 mAh battery.

This image illustrates the Dpofirs B66 earbuds in their charging case, highlighting their HiFi stereo audio capability for an immersive listening experience, with a person in the background enjoying music.

4. Setup Guide

4.1 Initial Charging

Before first use, fully charge the earbuds and the charging case. Place the earbuds into the charging case. Connect the charging case to a power source using the provided USB cable. The digital display on the case will indicate charging status.

4.2 Power On

The earbuds will typically power on automatically when removed from the charging case.

4.3 Bluetooth Pairing

1. Ensure Bluetooth is enabled on your smartphone or device.
2. Open the charging case and remove the earbuds. They will automatically enter pairing mode.
3. On your device, search for Bluetooth devices and select 'Dpofirs B66' (or a similar name) to connect.
4. Once paired, you will hear a confirmation tone from the earbuds.

4.4 Application Installation and Connection

1. Download and install the dedicated translation application on your smartphone. Refer to the QR code in the physical manual or search for the app name (if provided in the physical manual) in your device's app store.
2. Open the translation app and follow the on-screen instructions to connect the earbuds to the application.

Important Note: The translation software service period is one year from activation. Continued use of translation features may require renewal of the software service after this period.

The Dpofirs B66 earbuds are shown with their ergonomic ear hook design, ensuring a secure and comfortable fit during activities like cycling, as demonstrated by the person wearing them.

5. Operating Instructions

The Dpofirs B66 earbuds offer four distinct translation modes, accessible via the dedicated application. Ensure your earbuds are connected to your smartphone and the translation app is open.

5.1 Translation Modes

- **Touch Mode:** In this mode, each person wears one earbud. To speak, touch and hold the earbud. The spoken content will be translated and played through the other person's earbud. Release the touch button when finished speaking.
- **External Mode:** One person wears the earbud, and the other person speaks into the smartphone's microphone. The translation is played through the earbud. This is suitable for short conversations or when only one earbud is available.
- **Hands-free Mode:** Both users speak directly into the smartphone's microphone, and the translation is played through the earbuds. This mode is useful for group discussions or when you prefer not to touch the earbuds.
- **Offline Mode:** This mode allows translation without an internet connection. Ensure that the required language packs are downloaded within the application beforehand. Note that offline translation capabilities may be limited compared to online modes.

5.2 Audio Playback

When not in translation mode, the earbuds function as standard Bluetooth headphones for listening to music or making phone calls. Refer to your device's standard Bluetooth controls for media playback and call management.

This image displays the Dpofirs B66 earbuds featuring their ear hook design, providing a stable fit for active users, such as the person shown running.

6. Maintenance

Proper care and maintenance will extend the lifespan of your Dpofirs B66 earbuds.

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry cloth. Avoid using liquids or abrasive cleaners.
- **Storage:** Store the earbuds in their charging case when not in use to protect them and keep them charged.
- **Battery Care:** To prolong battery life, avoid fully discharging the earbuds frequently. Charge them regularly.
- **Software Updates:** Keep the translation application updated to ensure optimal performance and access to the latest features and language support.

7. Troubleshooting

If you encounter issues with your Dpofirs B66 Wireless Translation Earbuds, please refer to the following common solutions:

7.1 Earbuds not pairing

- Ensure earbuds are charged.
- Turn off and on Bluetooth on your device.
- Restart your device.
- Reset the earbuds (refer to the app or physical manual for specific reset instructions, if available).

7.2 No sound or poor audio quality

- Check volume levels on both earbuds and your connected device.
- Ensure earbuds are properly seated in your ears.
- Clean any debris from the earbud speakers.

7.3 Translation not working or inaccurate

- Verify internet connection for online translation modes.
- Ensure the correct source and target languages are selected in the app.
- Speak clearly and at a moderate pace.
- Check if the translation software subscription is active.

7.4 Battery draining quickly

- Ensure earbuds are fully charged before use.
- Close unnecessary applications on your connected device.
- Reduce volume levels if excessively high.

For further assistance, contact Dpofirs customer support.
