Operating Instructions

The Enocos Tailgate Extender offers versatile functionality to maximize your truck bed's utility.

1. Tailgate Extender Mode

When your tailgate is lowered, the extender flips outward to provide an additional 18 inches of cargo space. This is ideal for transporting longer items that exceed the standard bed length.

2. Truck Bed Divider Mode

When the tailgate is closed, the extender can be flipped inward to act as a bed divider. This helps to secure smaller items and prevent them from shifting or sliding to the front of the bed during transit.

3. Vertical Storage Rack Function

The mesh deck design and integrated lockdown straps allow for vertical storage of tools, pliers, ropes, helmets, and other equipment, keeping them organized and easily accessible.

4. Outdoor Camping Table Function

By removing two bolts, the extender can be converted into a flat desktop, perfect for campsites, offices, or other outdoor activities.

Maintenance

To ensure the longevity and optimal performance of your tailgate extender, follow these maintenance guidelines:

- **Cleaning:** Clean the extender regularly with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could damage the black powder-coated finish or polypropylene material.
- **Inspection:** Periodically check all bolts, nuts, and moving parts for tightness. Re-tighten any loose fasteners. Inspect the fiberglass-reinforced polypropylene for cracks or damage.
- **Lubrication:** Apply a small amount of silicone-based lubricant to hinges and pivot points if movement becomes stiff.

Troubleshooting

If you encounter issues with your tailgate extender, consider the following:

- **Extender does not fit properly:** Double-check that the correct model is installed for your vehicle (2021-2023 Ford F-150). Ensure all brackets are correctly aligned and tightened.
- **Extender feels loose or rattles:** Verify all mounting bolts and nuts are securely fastened. Inspect for any missing shims or damaged components.
- **Difficulty flipping/folding:** Ensure hinges are clean and free of debris. Apply lubricant if necessary. Check for any obstructions in the truck bed.
