## Airfrex AIU2 Bluetooth Receiver

## **What' s inside the box**

- Bluetooth Receiver x 1
- USB charging cable x 1
- Quick Start Guide x 1

## **How to Operate This Device**

### **Power on this Bluetooth receiver**

1. Single press the button
2. The Bluetooth LED indicator blinks Bluetooth and red
3. It is ready to be paired

### **Pairing You Mobile Device**

1. Turn on the Bluetooth functionality on your mobile devices, mobile phone / iPad.
2. Search and select " AF Loss less " in your mobile device
3. Press AF Lossless icon in your mobile device to pair our Bluetooth receiver.
4. When device has connected to the Bluetooth receiver, the LED turns to solid blue.

### **Optional Bass Boost Feature**

To Activate or deactivate the bass boost, please double click the button during music playing.

Butoon Feature	Procedure
Turn ON	Single press the button
Turn OFF	Long press the button
Play / Pause	Single press the button to pause/replay
Answer / End Phone	Single press the button
Bass Boost Feture ON / OFF	In playing process, double click the button

## Charging

1. Plug the small end of the USB cable into the USB charging port of the adapter.
2. Plug the other end into a USB wall charger or computer that is powered on.
3. Normally it takes around 3 seconds for the LED indicator to turn on.
4. During charging, the LED indicator will be in solid red.
5. It takes around 2 hour for a full charge.
6. Once it is fully charged, the LED indicator will be off.

## Very Important Notes

This is a Bluetooth Receiver not Transmitter

Airfrex Bluetooth Receiver does not work with any Bluetooth headphone or Bluetooth Speaker because this a Bluetooth receiver not a Bluetooth Transmitter. If you need a Bluetooth adapter to work with your Bluetooth headphones or Bluetooth speakers, you need a Bluetooth Transmitter, please go and search " Airfrex Bluetooth Transmitter " or visit our website at [www.airfrex.com](http://www.airfrex.com)

## This Receiver Supports Using while Charging

### Trouble Shooting:

- Can not Turn on—Need to charge
- Can not Charge—Change a new charging cable/ charger
- Can not Pair——On your device, turn on and off the Bluetooth functionality, then remove "AF Lossless " from the Bluetooth list on your mobile device, then repeat the

above “Pairing your mobile device”

- Not Work with Headphone—Check if this model is compatible with you headphone.
- Sound Cutting in and out—Make sure your device is within a distance of 33 feet
- No Sound/ Only One Side Has Sound/ Terrible Sound—Probably defected, please contact us for help via email at [support@airfrex.com](mailto:support@airfrex.com)

## Specifications

- Casing Material : Aluminum and Plastic
- Finish : Matt
- THD : <0.05%
- Amplifier : Texas Instrument TPA6132A2
- Channels: 2.0
- Audio Jack: 3.5mm/2.5mm
- Microphone: Built-In / Hands Free
- Frequency Response: 20Hz- 20kHz
- Battery Capacity: 110 mAH/ 3.7V
- Battery Charging Time: 2 Hours
- Play Time: Up to 6 Hours
- Bluetooth Signal Distance: Up to 33 Feet

Search and select” AF Lossless” on your Bluetooth device

Turn wired headphone into wireless

Turn car audio into wireless

## NOTES ON ENVIRONMENTAL PROTECTION

— This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment.

For more information on disposal and recycling of this product, contact your local municipality, disposal service or the shop where you bought this product.

**CE** Airfrex hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC and all other applicable EU directive 'requirements. The complete declaration of conformity can be found at: [www.airfrex.com/support](http://www.airfrex.com/support)

**FCC ID: 2A6SV-AF03**

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to

provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC and Industry Canada RF radiation exposure limits set forth for general population. It must not be co-located or be operating in conjunction with any other antenna or transmitter. This Class B digital apparatus complies with Canadian ICES-003.

This device complies with part 15 of the FCC rules and Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.
