Moen 82304BL

Moen Engage Magnetix Shower System

Model: 82304BL

Introduction

The Moen Engage Magnetix Multi-Function Handshower and Rainfall Shower Head Trim Combo is designed to provide a versatile and invigorating shower experience. This system features a combination of a fixed rainfall shower head and a detachable handheld shower head with magnetic docking, offering flexibility and multiple spray settings. This manual will guide you through the installation, operation, and maintenance of your new shower system.

Setup

Included Components:

- Hose with Magnetic Docking System
- Tub Spout
- Rainshower Head
- Escutcheon
- Handshower Head
- Valve
- Handle

Installation:

Installation of the Moen Engage Magnetix system is designed to be straightforward. It is recommended to use a licensed professional plumber for optimal results and to ensure proper integration into your existing shower setup. The system includes a shower handle, tub spout, and valve for a seamless installation.

Operating Instructions

Multi-Functionality:

The Moen Engage Magnetix system offers a 2-in-1 design, allowing you to use the rainfall shower head and the handheld shower head together or separately. A diverter lever on the main unit allows for easy switching between the two shower heads or combining their flow.

Figure 3: Use Together or Separately

Magnetic Docking System:

The handheld shower head features a powerful magnetic docking system, allowing for easy detachment and secure reattachment. Simply bring the handheld unit close to the main shower head, and the magnet will guide it back into place.

Figure 4: Magnetix Docking Technology

Spray Settings:

The handheld shower head is equipped with multiple distinct spray settings, providing flexibility to customize your shower experience. Adjust the settings by rotating the dial on the face of the handheld unit. The 60-inch kink-free metal hose offers extended reach and flexibility for various uses, including rinsing, cleaning, or bathing pets.

Maintenance

Cleaning the Finish:

The Matte Black finish is designed to be durable and eye-catching. To maintain its appearance, regularly wipe down the shower system with a soft cloth and mild soap. Avoid abrasive cleaners or scouring pads, as these can damage the finish. For hard water spots, a solution of equal parts white vinegar and water can be used, followed by rinsing and drying.

Troubleshooting

Low Water Pressure:

If you experience low water pressure, check for a flow regulator located in the top articulation ball (the joint where the shower head connects to the pipe). Removing this regulator may increase water flow. Consult a professional plumber if issues persist.

Magnetic Docking Issues:

Ensure the magnetic surfaces on both the handheld shower head and the main unit are clean and free of debris. A strong magnetic connection is essential for proper docking.

Specifications

Feature	Detail
Brand	Moen
Style	Full Shower Trim
Shape	Round
Material	Metal
Finish Type	Matte
Setting Type	Rain
Installation Type	Wall Mounted
Flow Rate	1.75 Gallons Per Minute
