NBCP Arcade Fight Stick User Manual

Model: B0CGRG81T6

Introduction

Thank you for choosing the NBCP Arcade Fight Stick. This manual provides essential information for setting up, operating, and maintaining your device. This arcade stick is designed for a comfortable gaming experience, featuring a robust build and multi-platform compatibility.

The NBCP Arcade Fight Stick is compatible with a wide range of platforms, including PC (Windows 7/8/10/11), PlayStation 3 (PS3), Nintendo Switch, Android TV Box, Android devices (OTG function required), Raspberry Pi, and NEOGEO Mini.

This controller features a Vewlix button layout, designed for precise and responsive input in fighting games and other arcade titles. The left side of the controller utilizes buttons for directional input, replacing a traditional analog joystick for

enhanced manipulation.

Setup

Connecting the Arcade Fight Stick

1. **PC (Windows 7/8/10/11):** Connect the USB cable from the arcade stick to an available USB port on your computer. The system should automatically detect and install the necessary drivers.
2. **PlayStation 3 (PS3):** Connect the USB cable to a USB port on your PS3 console. The console will recognize the device as a controller.
3. **Nintendo Switch:** Connect the USB cable to the Switch dock. Ensure your Switch console's 'Pro Controller Wired Communication' setting is enabled in the System Settings.
4. **Android TV Box** / **Android Devices:** Connect the USB cable to an available USB port on your Android TV Box. For Android mobile devices, an OTG (On-The-Go) adapter may be required to connect the USB cable.
5. **Raspberry Pi** / **NEOGEO Mini:** Connect the USB cable to an available USB port on your Raspberry Pi or NEOGEO Mini. The device should be recognized as a standard USB gamepad.

Using the Fixing Clamps

The arcade fight stick includes fixing clamps to secure it to a tabletop for stable gameplay. These clamps are designed to fit tabletops with a thickness between 0.01 inches and 1.77 inches.

- Position the arcade stick on your desired surface.
- Adjust the clamps on the sides of the unit to firmly grip the edge of the table.
- Ensure the clamps are tightened sufficiently to prevent movement during use.
- To remove, loosen the clamps and lift the arcade stick.

Operating Instructions

Button Layout and Functions

The NBCP Arcade Fight Stick features a Vewlix-style button layout, optimized for fighting games. The primary action buttons are arranged for quick access and precise input. Directional input is handled by buttons on the left side of the controller.

Turbo Function

The turbo function allows for continuous, rapid input of a selected button, reducing hand fatigue during extended gaming sessions. To activate or deactivate the turbo function:

1. Press and hold the **TURBO** button.
2. While holding **TURBO**, press the desired action button (e.g., A, B, X, Y) you wish to apply the turbo function to.
3. Release both buttons. The selected button will now provide continuous input when held down.
4. To disable turbo for a specific button, repeat the process: hold**TURBO** and press the button again.

Custom Button Settings

The arcade stick supports custom button settings, allowing you to remap controls for various game types (e.g., Arcade, DC, PSP games). Refer to the on-screen interface or your game's specific settings for detailed customization options.

Maintenance

To ensure the longevity and optimal performance of your NBCP Arcade Fight Stick, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surface of the arcade stick. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the internal components. Avoid abrasive cleaners or solvents.
- **Storage:** Store the arcade stick in a cool, dry place away from direct sunlight and extreme temperatures.
- **Button Durability:** The DIY key buttons are designed for high durability, with a service life exceeding 10 million presses. While designed for longevity, avoid excessive force or impact.

Troubleshooting

If you encounter issues with your NBCP Arcade Fight Stick, refer to the following common troubleshooting steps:

- **Device Not Recognized:**
  - Ensure the USB cable is securely connected to both the arcade stick and the gaming platform.
  - Try connecting to a different USB port.
  - Restart your gaming platform (PC, console, etc.).
  - For Nintendo Switch, verify that 'Pro Controller Wired Communication' is enabled in System Settings.
  - For Android devices, confirm that OTG functionality is supported and enabled, and the adapter (if used) is working correctly.
- **Buttons Unresponsive or Delayed:**
  - Check in-game controller settings to ensure the correct input device is selected and button mappings are accurate.
  - Test the arcade stick on another compatible platform to determine if the issue is with the device or the specific platform/game.
  - Ensure no debris is lodged under the buttons, preventing full depression or release.
- **Turbo Function Not Working:**
  - Review the operating instructions for activating the turbo function. Ensure you are holding the TURBO button while pressing the desired action button.
  - Some games may have their own internal turbo settings that could conflict or override the controller's function.
- **Fight Stick Slides During Use:**
  - Ensure the fixing clamps are properly attached and tightened to your tabletop.

- Verify that the tabletop surface is clean and dry to allow for maximum grip.

If these steps do not resolve your issue, please contact customer support.
