Bellemave GZZ000032FP

Bellemave Full Size House Bed Wood Frame Instruction Manual

Model: GZZ000032FP

1. Important Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference. Ensure all parts are securely fastened before allowing children to use the bed. Do not exceed the maximum weight capacity of 275 pounds.
Regularly check all bolts and connections to ensure they remain tight. Loose connections can lead to instability and potential injury. Keep small parts away from children during assembly.

2. Setup Instructions

2.1 Unpacking

- Carefully open the packaging and remove all components.
- Lay out all parts on a clean, soft surface (e.g., a carpet or blanket) to prevent scratches.
- Verify that all parts listed in the "Parts List" section are present.
- Keep packaging materials until assembly is complete to avoid discarding small parts.

2.2 Parts List

Refer to the included hardware pack and assembly diagram for specific part identification. The bed frame consists of main frame components, roof sections, and wooden slats.

Table 2.1: Main Components

Component	Quantity	Description
Side Rails	2	Long horizontal pieces for the bed sides.
Headboard/Footboard	2	End panels with vertical slats.
Roof Beams	4	Angled pieces forming the house roof structure.
Support Slats	Multiple	Wooden planks for mattress support.
Hardware Pack	1	Contains bolts, screws, and Allen wrench.

2.3 Assembly Steps

Assembly requires two adults. Use the provided tools. Do not overtighten screws during initial assembly; tighten fully once all components are aligned.

1. **Attach Side Rails to Headboard/Footboard:** Connect the side rails to the headboard and footboard using the designated bolts and nuts. Ensure the pre-drilled holes align.
2. **Install Roof Structure:** Secure the roof beams to the top of the headboard and footboard posts. The angled pieces should form the house shape.
3. **Insert Support Slats:** Place the wooden support slats across the side rails. Ensure they are evenly spaced and secured according to the instructions.
4. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws.

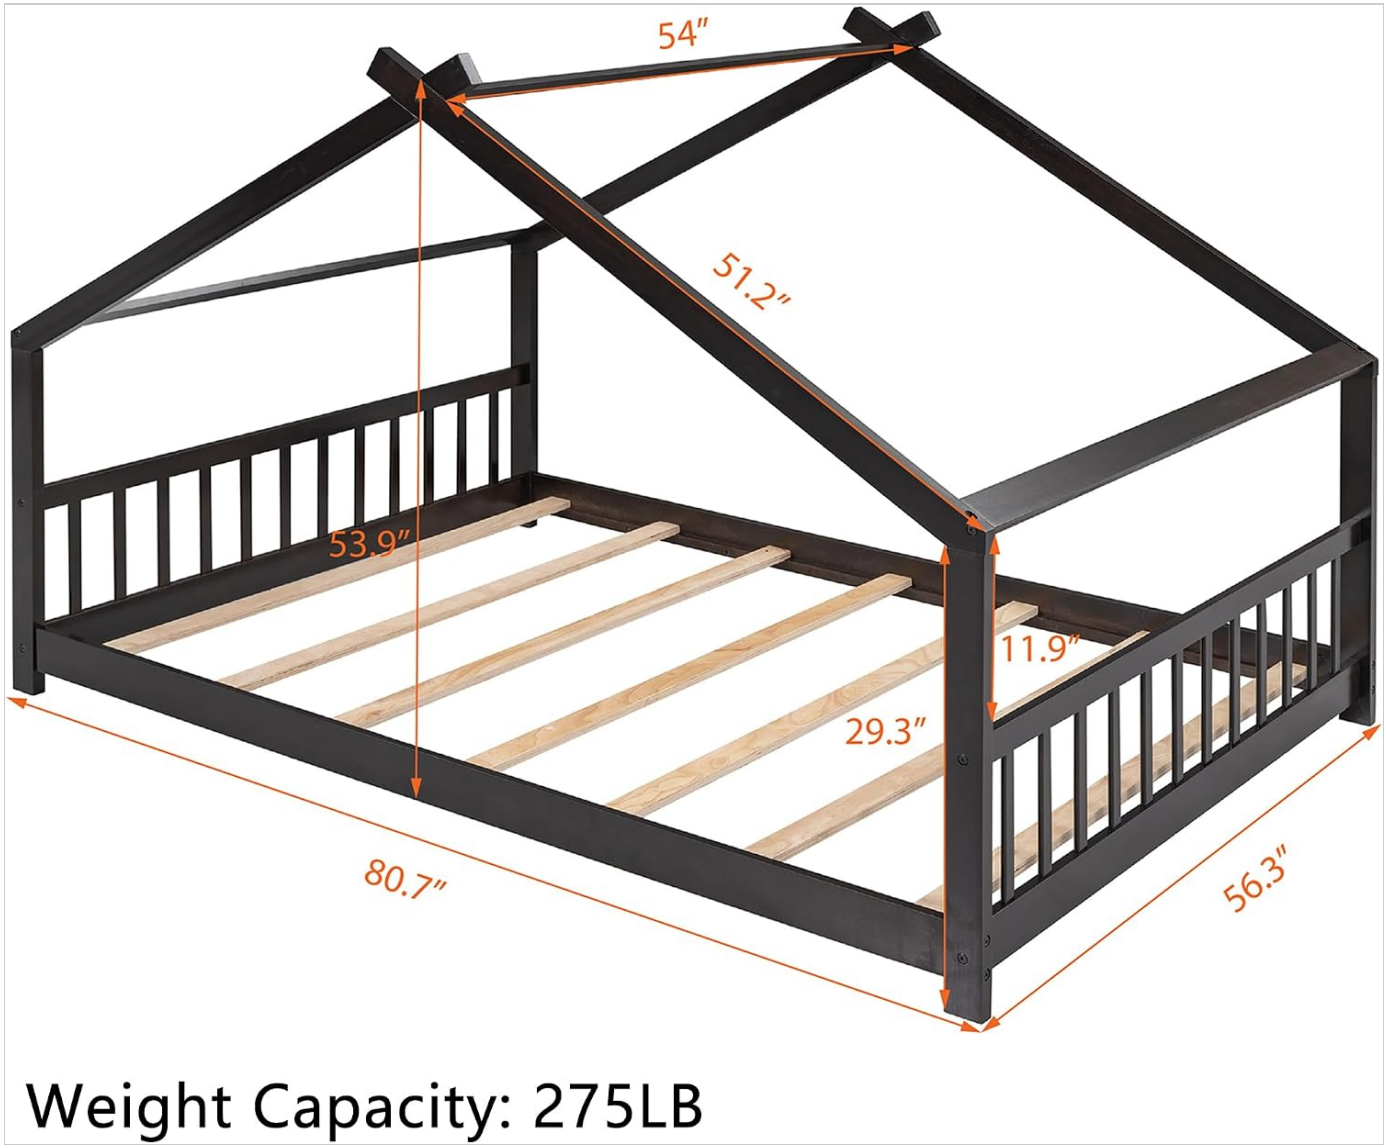

Figure 2.1: Product dimensions for the Bellemave Full Size House Bed. The bed measures 80.7 inches in length, 56.3 inches in width, and 53.9 inches in height. The weight capacity is 275 pounds.

Figure 2.2: Detail view of the wooden support slats and the bed frame connection point, illustrating how the slats fit into the frame for mattress support.

Figure 2.3: Close-up of a corner joint of the bed frame, showing the sturdy construction and how the vertical and horizontal elements connect.

3. Usage Guidelines

This Bellemave Full Size House Bed is designed for children. Its low-profile Montessori-style design allows for easy access. The roof structure provides a playhouse design element.

- **Mattress Compatibility:** This bed frame is designed for a full-size mattress. No box spring is required due to the integrated slat support system.
- **Recommended Mattress Thickness:** An 8-inch thick mattress is recommended for optimal comfort and safety.
- **Weight Capacity:** The maximum recommended weight capacity for this bed is 275 pounds.
- **Playhouse Feature:** The roof structure is intended for decorative purposes and light play. Do not allow children to climb on the roof structure.

4. Care and Maintenance

Proper care will extend the life and appearance of your Bellemave House Bed.

- **Cleaning:** Wipe the wood frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish. For spills, wipe immediately.
- **Dusting:** Regularly dust the frame with a dry, soft cloth to prevent buildup.
- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts, screws, and connections to ensure they are tight. Retighten if necessary to maintain stability.
- **Avoid Excessive Moisture:** Do not expose the bed to excessive moisture or humidity, as this can cause warping or damage to the wood.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure, which can cause fading or discoloration of the wood finish.

5. Troubleshooting

This section addresses common issues you might encounter with your bed frame.

Table 5.1: Common Issues and Solutions

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all bolts and screws. Ensure all connections are secure.
Squeaking noises.	Loose connections or friction between wood parts.	Tighten all hardware. If squeaking persists, apply a small amount of furniture wax or silicone spray to contact points between slats and frame.
Slats are not staying in place.	Incorrect installation or damaged slats.	Ensure slats are correctly seated in their designated positions. If a slat is damaged, contact customer support for a replacement.
Difficulty assembling a part.	Misalignment or incorrect part.	Review the assembly instructions and diagrams carefully. Ensure you are using the correct parts for each step. Do not force parts together.

6. Product Specifications

Table 6.1: Bellemave Full Size House Bed Specifications

Feature	Detail
Brand	Bellemave
Model Number	GZZ000032FP
Size	Full
Color	Espresso
Material	Engineered Wood, Pine Wood
