SLuB 1211X

SLuB Heated Blanket Model 1211X Instruction Manual

Wearable Flannel Heated Blanket with USB Fast Heating and 3 Temperature Levels

Introduction

This manual provides essential instructions for the safe and effective use of your SLuB Heated Blanket, Model 1211X. Please read this manual thoroughly before first use and retain it for future reference. This wearable flannel heated blanket features USB fast heating, three temperature levels, and an automatic shut-off function for your comfort and safety.

Important Safety Instructions

WARNING: To reduce the risk of burns, electric shock, fire, or injury to persons, this product must be used in accordance with the following instructions:

- Do not use with an infant, a child, an incapacitated person, a paraplegic, a quadriplegic, a diabetic, anyone insensitive to heat, or anyone who cannot clearly understand the instructions and/or operate the controls.
- Do not use if the blanket is wet.
- Do not use this blanket in conjunction with another heating pad or blanket.
- Never use the blanket if the USB cable or controller is damaged.

- Do not fold, crease, or bunch the blanket tightly during use. This can cause overheating.
- Always disconnect the power source (USB power bank or adapter) before cleaning or storing the blanket.
- Do not insert pins or other metallic objects into the blanket.
- Do not use for pets.
- Store the blanket loosely rolled or folded. Avoid sharp folds.
- This blanket is for personal use only.

Product Features

- **Material:** Plush flannel fabric, soft and skin-friendly.
- **Dimensions:** Approximately 150 x 85 cm (59" x 33").
- **Heating Elements:** 5 built-in heating panels for efficient warmth.
- **Power Source:** 5V/2A USB port charging (compatible with power banks, wall adapters, car chargers).
- **Temperature Settings:** 3 levels (High: 60°C ± 5°C, Medium: 50°C ± 5°C, Low: 40°C ± 5°C).
- **Control:** Single push-button design for easy temperature adjustment.
- **Safety:** Automatic shut-off feature.
- **Maintenance:** Machine washable (gentle cycle) after disconnecting power and removing power bank.
- **Portability:** Integrated pocket for a power bank, suitable for outdoor, office, and home use.

Setup

1. **Unpack:** Carefully remove the heated blanket from its packaging.
2. **Inspect:** Check the blanket and USB cable for any visible damage. Do not use if damaged.
3. **Connect Power:** Locate the USB cable integrated into the blanket. Connect it to a compatible 5V/2A USB power source. This can be:
    - A portable power bank (recommended for mobility).
    - A USB wall adapter.
    - A car charger with a USB port.

    Note: Ensure your power source provides 5V/2A output for optimal heating performance. Low output sources (e.g., some laptop USB ports) may not provide sufficient power.
4. **Position Power Bank (if applicable):** If using a power bank, place it in the designated pocket on the blanket.

Image: Visual guide demonstrating compatible USB power sources including portable chargers, wall adapters, and car chargers, and indicating that low-output sources are not suitable.

Operating Instructions

1. **Power On:** Once connected to a power source, locate the control button on the blanket. Press and hold the power button for approximately 3 seconds to turn on the heating function. The indicator light will illuminate.
2. **Adjust Temperature:** Short press the power button to cycle through the three heating levels:
    - **Red Light:** High temperature (60°C ± 5°C / 140°F ± 9°F)
    - **White Light:** Medium temperature (50°C ± 5°C / 120°F ± 9°F)
    - **Blue Light:** Low temperature (40°C ± 5°C / 100°F ± 9°F)

    Select the desired temperature setting for your comfort.
3. **Automatic Shut-Off:** The blanket is designed with an automatic shut-off feature for safety. The exact duration is

not specified, but it will power off after a period of continuous use.

4. **Power Off:** To turn off the blanket manually, press and hold the power button again for approximately 3 seconds until the indicator light turns off.

Image: A detailed view of the three-speed temperature adjustment button, showing the red, white, and blue indicator lights corresponding to high, medium, and low heat settings respectively.

Maintenance

Proper care ensures the longevity and safe operation of your heated blanket.

1. **Disconnect Power: ALWAYS** disconnect the USB cable from the power source and remove any power bank from its pocket before cleaning.
2. **Protect USB Connector:** Ensure the USB protective cover is securely closed over the USB connector before washing to prevent water damage.
3. **Washing Instructions:**
    - **Machine Wash:** Use a gentle cycle with cold water. It is recommended to place the blanket in a mesh

laundry bag to protect it during washing.

- **Hand Wash:** Gently hand wash with mild detergent in cold water.
- **Do Not Bleach.**
- **Do Not Iron.**
- **Do Not Dry Clean.**

4. **Drying:** After washing, gently squeeze out excess water. Hang to air dry naturally. Ensure the blanket is completely dry before reconnecting to power or storing. Do not tumble dry.
5. **Storage:** Store the blanket in a cool, dry place. Avoid folding it tightly or placing heavy objects on it, which could damage the internal heating elements.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Blanket does not heat.	No power or insufficient power. USB cable not properly connected. Automatic shut-off activated. Damaged heating elements/cable.	Ensure power source is 5V/2A and functional. Check USB connection at both ends. Turn the blanket off and then on again. Discontinue use and contact customer support if damage is suspected.
Indicator light is off.	Blanket is off. No power.	Press and hold the power button to turn on. Check power source connection.
Blanket feels too hot/cold.	Incorrect temperature setting.	Short press the power button to adjust to a comfortable temperature level.
