AIR**VERSA**

AIRVERSA SCENTA BASIC Waterless Diffuser

Overview

- Thank you for choosing our waterless essential oil aroma diffuser.
- With the latest cold diffusion technology, it converts essential oil into nano vapor to approximately 1-3 microns without using heat or water.
- The diffusing process does not damage the molecular structure, therefore maintaining its therapeutic properties for easier absorption into the body.
- It is easier, more hygienic, and safer. We make it compact enough for you to fit it into your car cup holders so that you may take it with you wherever you go.
- As it is compatible with the majority of essential oils available, it gives you the freedom to choose from a wide range of fragrances that soothe you, relax you, or refresh you in a variety of situations.
- Using it with sanitizing essential oils can improve unpleasant odors and help purify the air around it.

Cautions

- DO NOT invert or tilt the device once the oil bottle is installed.
- DO NOT use it with agarwood, camphor tree, dried orange peel, or eaglewood oils.
- DO NOT mix your 100% essential oil with water when the device is in use. This will cause failure to atomize (mist not visible).
- DO NOT attempt to disassemble the device.
- If the mist output reduces noticeably, please clean the diffuser according to our instructions.
- For more quiet use, ensure the device is 6 feet away. Keep the device away from children and pets. The thicker the oil, the less diffusing capability.
- If you do not plan to use this device for an extended time, please fully charge it at least once in every 3 months.

- Working Temperature: 4°–104°F / 0 – 40°C Suggested room size: 300-500 sq. ft.

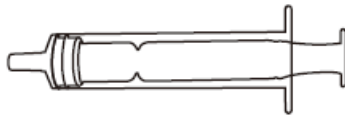

What's in the Box

Diffuser

Spare Oil Tube

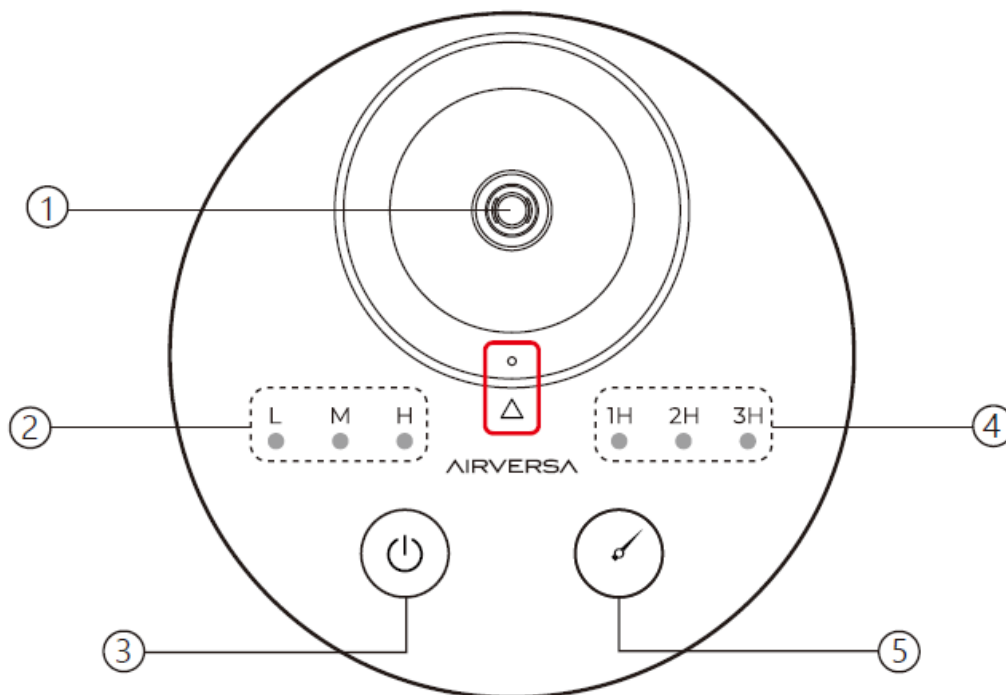

Cleaning Syringe

**Charging Cable
(USB-C, 1M)**

Touch Button and Info Display

- Press & Hold the power button to turn on the device. Tap the power button to adjust the mist level.

1. Nozzle

2. Mist Indicator

3. Power Button

- Press & hold: turn on/off
- Tap: set mist level (L/M/H)
- Charging Status Indicator

- Charging

- Charging completed

4. Timer Indicator

- In Timer-off Mode the timer indicator remains off, and the device stays on until it runs out of battery.

5. Timer Button

Tap: set a timer

- 1/2/3H & Timer-off mode
- When time is up, the diffuser will automatically turn off. Press & hold the power button to turn it back on.

Mist Level Explained

Level L

- 5 seconds of diffusing, then a pause of 180s

L

M

H

Level M

- 15 seconds of diffusing, then a pause of 150s

Level H

- 30 seconds of diffusing, then a pause of 120s

The green LED remains on when the device is diffusing the oil and flashes when diffusing is paused.

Timer-off Mode

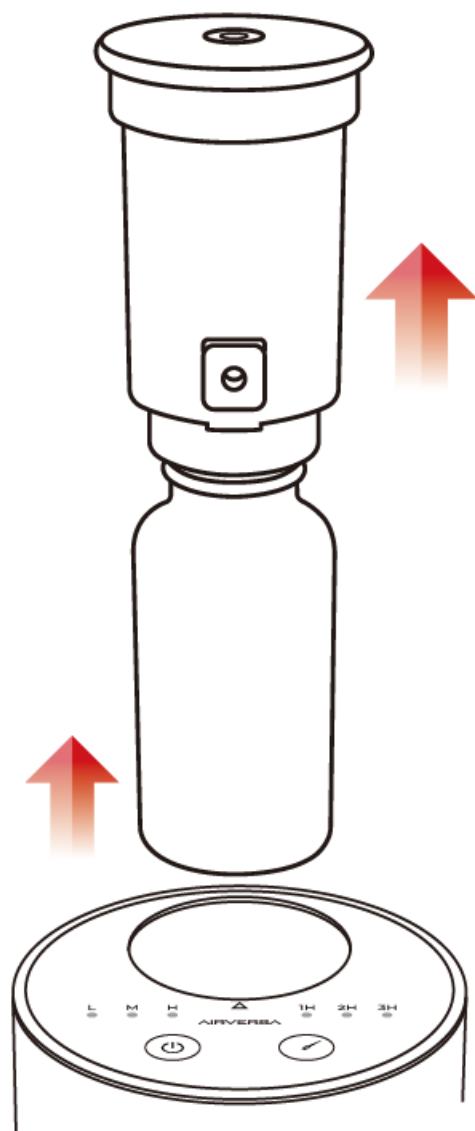

- Tap the 'Timer' button until the timer light turns off.
- There, to determine whether or not 'Timer-off Mode' is on, simply check if the timer light is off and the mist light is on.

Bottle Installation

- The capacity of the essential oil bottle is max. 20 ml.
- This device is compatible with 5-20 ml USA standard oil bottles.

Removal:

1. Lift the nozzle from the diffuser;
2. Turn the bottle clockwise to remove the bottle, and then fill in the essential oil.

Installation

- Screw the bottle counterclockwise to fix the bottle to the nozzle.

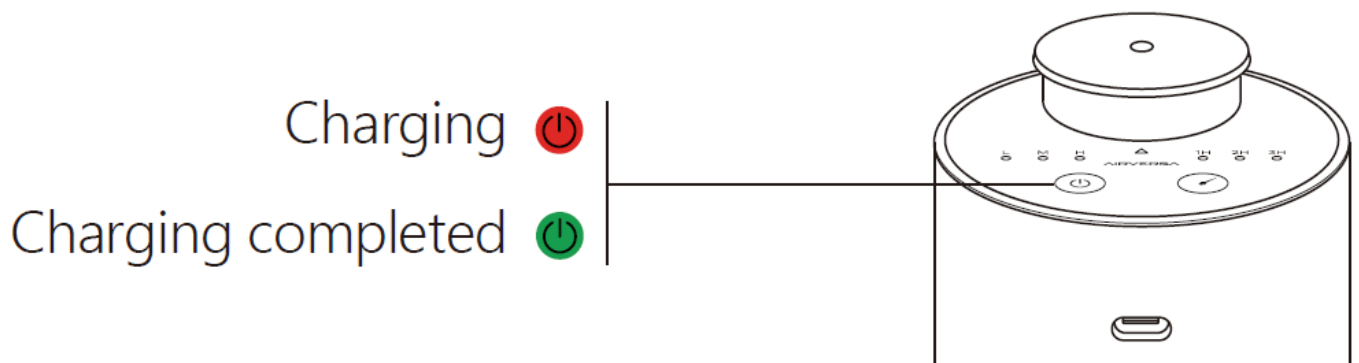

Charging

- Normal charging time: approx. 4.5 hours. If the charging current is below 1A, it will take longer to fully charge the device.

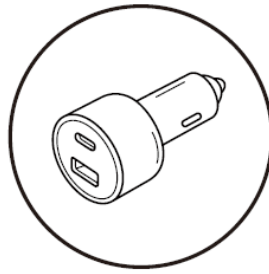

- Fully charge this diffuser before using it the first time.
- As charging cycles increase, battery capacity will decrease.

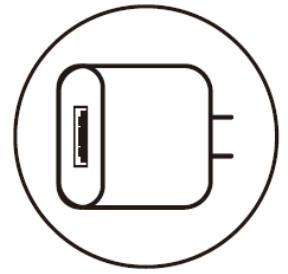

- You may charge from a 5V adapter ONLY, PC/MAC USB port, or USB interface within your vehicle. Please ensure the use of safety-certified charging accessories.

Specifications

- **Max. Oil Capacity:** 20 ml
- **Battery Capacity:** 2000 mAh
- **Size:** 69.5 x 128 mm | 2.7 x 5.0 in
- **Net Weight:** 266 g | 9.38 oz
- **Input:** DC-5 V / 1 A
- **Rated Power:** 5 W

FAQ

Q1: How to select the right essential oil?

Use 100% pure essential oils. Resin and thick oil are not recommended. Agarwood camphor tree dried orange peel eaglewood oils are prohibited.

Q3: I feel like it stops running sometimes, but the mist level indicator remains blinking, what has happened?

Please refer to section 5 for the mist level explained The device can optimize atomizing pausing automatically according to the mist level which intermittently operates.

Q4: How long does it take to fully charge the device?

Normally around 4.5 hours.

Q5: Can I mix my 100% essential oil with water?

No. This will cause failing to atomize mist not visible.

Q6: Can I mix my 100% essential oil with carrier oil?

Yes you can.

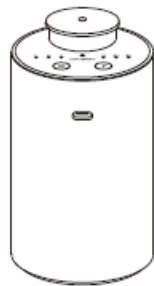

Q7: Why is the green light above the mist level flashing?

The mist output is pausing as it is intermittent.

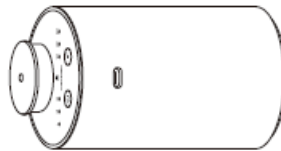

Warning

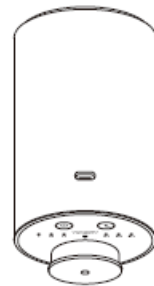

- Improper placement of the diffuser when an essential oil bottle is installed might cause oil leakage (eg. when the unit is tilted at an angle larger than 45°).

Tilted

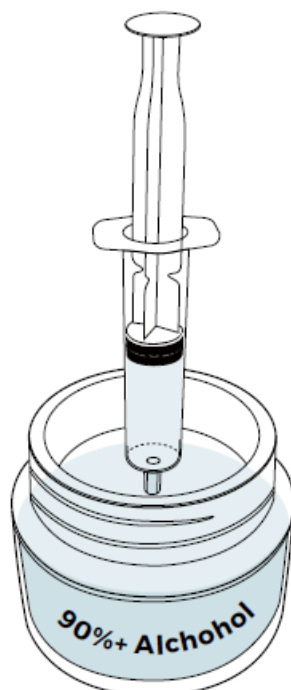

Inverted

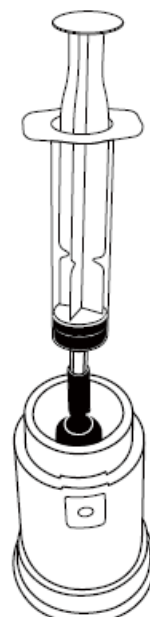

Cleaning Scenta Diffusers

STEP 1

STEP 2

1. Draw 90% ethyl/ethanol alcohol into the cleaning syringe until it's half full (approx. 3-5 ML);
2. Inject it into the atomizer;
3. Wipe the diffuser and table dry.
