Legami WCHAR0008

Legami Super Fast Wireless Charger with Stand User Manual

Model: WCHAR0008 | Brand: Legami

Introduction

Thank you for choosing the Legami Super Fast Wireless Charger with Stand. This manual provides essential information for the safe and efficient use of your device. Please read these instructions carefully before use and retain them for future reference.

Product Overview and Features

The Legami Super Fast Wireless Charger with Stand is designed to provide convenient and efficient wireless charging for compatible smartphones. Its versatile design allows for both vertical and horizontal phone placement.

- **Qi Technology Compatibility:** Supports smartphones equipped with Qi wireless charging technology.
- **Dual Charging Coil:** Allows charging in both vertical and horizontal orientations without interrupting use.
- **LED Indicator:** Provides visual feedback on correct phone placement and charging status.
- **Non-slip Base:** Ensures secure placement of the charger and your device.
- **Case Compatibility:** Works with non-metallic phone cases up to 3 mm thick. Cases with magnetic parts are not supported.
- **Included Cable:** Comes with a USB/Micro USB charging cable for connection to a power source.

Image: Product features diagram highlighting 10W power, included USB/USB-C cable, smartphone compatibility, and non-slip surface.

Setup Instructions

1. **Connect the Cable:** Insert the Micro USB end of the included charging cable into the port on the back of the wireless charger.
2. **Connect to Power:** Plug the USB-A end of the cable into a compatible USB power adapter (not included) or a powered USB port. Ensure the power adapter provides sufficient wattage (e.g., 10W or higher for optimal performance).
3. **Placement:** Place the wireless charger on a stable, flat surface, such as a desk or nightstand.

Operating Instructions

Once the charger is set up and connected to power, you can begin charging your compatible smartphone.

1. **Position Your Device:** Place your Qi-compatible smartphone directly onto the charging stand. The dual

charging coils allow you to position your phone vertically or horizontally.

2. **Observe LED Indicator:** The LED indicator on the charger will illuminate to confirm that the phone is correctly positioned and charging has begun. If the LED does not light up, adjust the phone's position.
3. **Charging Status:** Your phone's screen will typically display a charging icon or notification.
4. **Case Considerations:** For optimal charging, ensure your phone case is non-metallic and no thicker than 3 mm. Remove any cases with magnetic components or excessive thickness.

Compatibility

This wireless charger is compatible with smartphones that support Qi wireless charging technology. Specific compatible models include, but are not limited to:

- **Apple:** iPhone 8 and newer models.
- **Samsung:** Galaxy S6 and newer models.
- **Xiaomi:** MIx 2S and newer models.
- **Huawei:** Mate 20 Pro / Mate RS Porsche Design and newer models.
- **Nokia:** Lumia 1520 and newer models.
- **LG:** V30 / G2 / Lucid 2 and newer models.

If your device is not listed, please check its specifications to confirm Qi wireless charging compatibility.

Maintenance

To ensure the longevity and optimal performance of your wireless charger, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry, lint-free cloth to wipe the surface. Do not use abrasive cleaners, solvents, or harsh chemicals.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Avoid Liquids:** Keep the charger away from water and other liquids.
- **Handle with Care:** Avoid dropping or subjecting the charger to strong impacts.

Troubleshooting

If you encounter issues with your Legami Wireless Charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Phone not charging / LED not lighting up	• Phone not Qi-compatible • Incorrect phone placement • Phone case too thick or metallic • Cable not properly connected • Insufficient power supply	• Verify phone supports Qi wireless charging. • Reposition phone centrally on the charging stand. • Remove phone case or use a thinner, non-metallic one. • Ensure USB cable is securely connected to both charger and power adapter. • Use a power adapter that provides at least 10W output.
Slow charging	• Power adapter output too low • Phone case interfering • Background apps consuming power	• Use a power adapter with 10W or higher output. • Remove phone case. • Close unnecessary background applications on your phone.
Charger or phone gets warm	Normal during wireless charging	Slight warmth is normal. If it becomes excessively hot, discontinue use and contact support. Ensure proper ventilation around the charger.

SPECIFICATIONS

Feature	Specification
Brand	Legami
Model Number	WCHAR0008
Wattage	10 watts
Power Source Type	AC adapter (not included)
Connector Type	USB (Micro-USB input on charger)
Compatible Devices	Cellular Phones with Qi wireless charging
Special Features	Wireless charging, dual charging coil, compatibility with non-metallic cases up to 3mm
Item Dimensions (L x W x H)	13.8 x 12.6 x 2.6 cm
Item Weight	130 g

Feature	Specification
