DUMOS C-3895-BKBU

DUMOS C-3895-BKBU Gaming Chair User Manual

Model: C-3895-BKBU

1. Important Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Ensure all components are present and undamaged before beginning assembly.
- Assemble the chair on a soft, clean surface to prevent scratches.
- Keep small parts away from children during assembly.
- Periodically check all bolts and screws for tightness. Retighten as necessary.
- Do not stand on the chair.
- Do not use the chair if any parts are missing, damaged, or worn. Contact customer support for replacement parts.
- The maximum weight capacity for this chair is **250 lbs (113 kg)**. Exceeding this limit may cause damage or injury.

2. Package Contents

Verify that all the following components are included in your package:

1. Star Base
2. Casters (5 pieces)
3. Gas Lift Cylinder
4. Gas Lift Cover
5. Seat Cushion
6. Backrest
7. Armrests (2 pieces)
8. Mechanism Plate
9. Hardware Pack (screws, washers, Allen wrench)

3. Assembly Instructions

Follow these steps to assemble your DUMOS Gaming Chair. It is recommended to have two people for easier

assembly.

1. **Attach Casters to Base:** Insert the five casters into the holes at the end of each leg of the star base. Push firmly until they click into place.
2. **Install Gas Lift:** Place the gas lift cover over the gas lift cylinder. Then, insert the gas lift cylinder into the center hole of the assembled star base.
3. **Attach Mechanism Plate to Seat:** Align the mechanism plate with the pre-drilled holes on the underside of the seat cushion. Ensure the front of the mechanism plate faces the front of the seat. Secure with screws using the provided Allen wrench.
4. **Attach Armrests to Seat:** Attach each armrest to the sides of the seat cushion using the designated screws. Do not fully tighten yet.
5. **Attach Backrest:** Align the backrest with the mounting points on the seat cushion and armrests. Secure the backrest to the seat and armrests using the remaining screws. Once all screws are in place, fully tighten all screws for the armrests and backrest.
6. **Connect Seat Assembly to Base:** Carefully place the assembled seat and backrest onto the gas lift cylinder, ensuring the center hole of the mechanism plate aligns with the top of the gas lift. Press down firmly to secure.

4. Operating Instructions

Familiarize yourself with the chair's adjustable features for optimal comfort.

- **Height Adjustment:** Locate the lever on the right side, under the seat. To raise the seat, lift the lever while taking your weight off the chair. To lower the seat, lift the lever while seated. Release the lever to lock the height.
- **Flip-up Armrests:** The armrests can be flipped up to provide more space or allow the chair to be pushed closer to a desk. Simply lift the armrests upwards to rotate them out of the way. Lower them back down for support.
- **Rocking Function / Tilt:** The chair features a rocking mechanism. Pull the lever (often the same as the height

adjustment lever, or a separate one) outwards to enable the rocking function. Push it inwards to lock the chair in an upright position.

- **Tilt Tension Adjustment:** A round knob located under the front of the seat allows you to adjust the tension of the rocking mechanism. Turn clockwise to increase tension (requiring more force to rock) or counter-clockwise to decrease tension (allowing easier rocking).
- **360° Swivel:** The chair is designed to rotate 360 degrees for easy movement and access.

5. Maintenance

Proper care will extend the life and appearance of your chair.

- **Cleaning:** Wipe clean with a damp cloth. For tougher stains, use a mild soap solution and wipe dry immediately. Avoid harsh chemical cleaners, abrasives, or solvents, as these can damage the upholstery and finish.
- **Hardware Check:** Periodically inspect all screws and bolts to ensure they are tight. Loose hardware can affect stability and safety.
- **Caster Care:** Keep casters clean from hair, dust, and debris to ensure smooth rolling. If casters become stiff, a small amount of silicone lubricant can be applied to the axle.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the upholstery to fade or crack.

6. Troubleshooting

If you encounter any issues with your chair, refer to the following common problems and solutions:

- **Chair does not adjust height:**
  - Ensure the height adjustment lever is fully engaged.
  - Check if the gas lift cylinder is properly seated in both the base and the mechanism plate.
- **Chair is unstable or wobbles:**
  - Verify that all assembly screws are securely tightened.
  - Ensure the star base is fully assembled and the casters are firmly inserted.
- **Casters are not rolling smoothly:**
  - Inspect casters for any accumulated hair, dust, or debris and clean them thoroughly.
  - Ensure casters are fully inserted into the base.
- **Chair makes squeaking noises:**
  - Identify the source of the squeak (e.g., mechanism, joints).
  - Tighten any loose screws. A small amount of silicone-based lubricant can be applied to moving parts if necessary.

If these solutions do not resolve the issue, please contact DUMOS customer support for further assistance.

7. Specifications

Feature	Specification
Brand	DUMOS
Model	C-3895-BKBU
Product Dimensions (L x W x H)	64.49 x 70.51 x 116 cm (25.39 x 27.76 x 45.67 inches)
Item Weight	13.6 kg (29.98 lbs)
Maximum Weight Capacity	250 lbs (113 kg)
Material Type	Metal (Frame), Memory Foam (Seat), PU Leather (Upholstery)
Special Features	Adjustable Height, Flip-up Armrests, Lumbar Support, 360° Swivel, Rocking Function
Color	Black & Blue

8. Warranty and Support

For warranty information or technical support, please refer to the purchase documentation or contact DUMOS customer service directly. Please have your model number (C-3895-BKBU) and purchase date available when contacting support.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
