Joyroom JR-ZS356

Joyroom JR-ZS356 Magnetic Car Air Vent Phone Mount Instruction Manual

Model: JR-ZS356 | Brand: Joyroom

1. Product Overview

The Joyroom JR-ZS356 Magnetic Car Phone Mount is designed to provide a secure and convenient way to hold your smartphone in your vehicle. Featuring strong built-in magnets and a flexible base, it ensures stability and ease of use while driving. This mount is compatible with a wide range of smartphones, GPS devices, and mini tablets.

Key Features:

- **Enhanced Driving Safety:** Securely holds your phone, allowing you to focus on the road.
- **Device Protection:** Soft silicone lining prevents scratches and damage to your device.
- **One-Handed Operation:** Easy to attach and detach your phone with one hand, offering 360° rotation for optimal viewing angles.
- **Stable Grip:** Flexible base adheres firmly to the dashboard, maintaining stability even on bumpy roads.
- **Unobstructed View:** Compact design ensures it does not block air vents or driver's visibility.
- **Wide Compatibility:** Supports phones, GPS, and mini tablets ranging from 4 to 7 inches.

2. Setup and Installation

Follow these steps to properly install your Joyroom JR-ZS356 Magnetic Car Phone Mount:

1. **Choose a Location:** Select a flat, clean surface on your car's dashboard or console where the mount will not obstruct your view or interfere with airbags. Ensure the surface is free of dust, grease, and moisture.
2. **Clean the Surface:** Use an alcohol wipe or a clean cloth with a mild cleaner to thoroughly clean the chosen installation area. Allow it to dry completely.

3. **Prepare the Mount:** Peel off the protective film from the adhesive base of the mount.
4. **Attach the Mount:** Carefully position the mount on the cleaned surface. Press down firmly for at least 30 seconds to ensure strong adhesion. For best results, allow the adhesive to cure for 24 hours before attaching your device.
5. **Install Metal Plate on Phone:**
    - **For Phones with Cases:** Place the metal plate between your phone and its case. Ensure the plate is centered for optimal magnetic connection.
    - **For Phones without Cases:** Adhere the metal plate directly to the back of your phone using its adhesive backing. Clean the phone's surface before applying.

Figure 2.1: The flexible base of the mount ensures high stickiness and stable attachment to the dashboard.

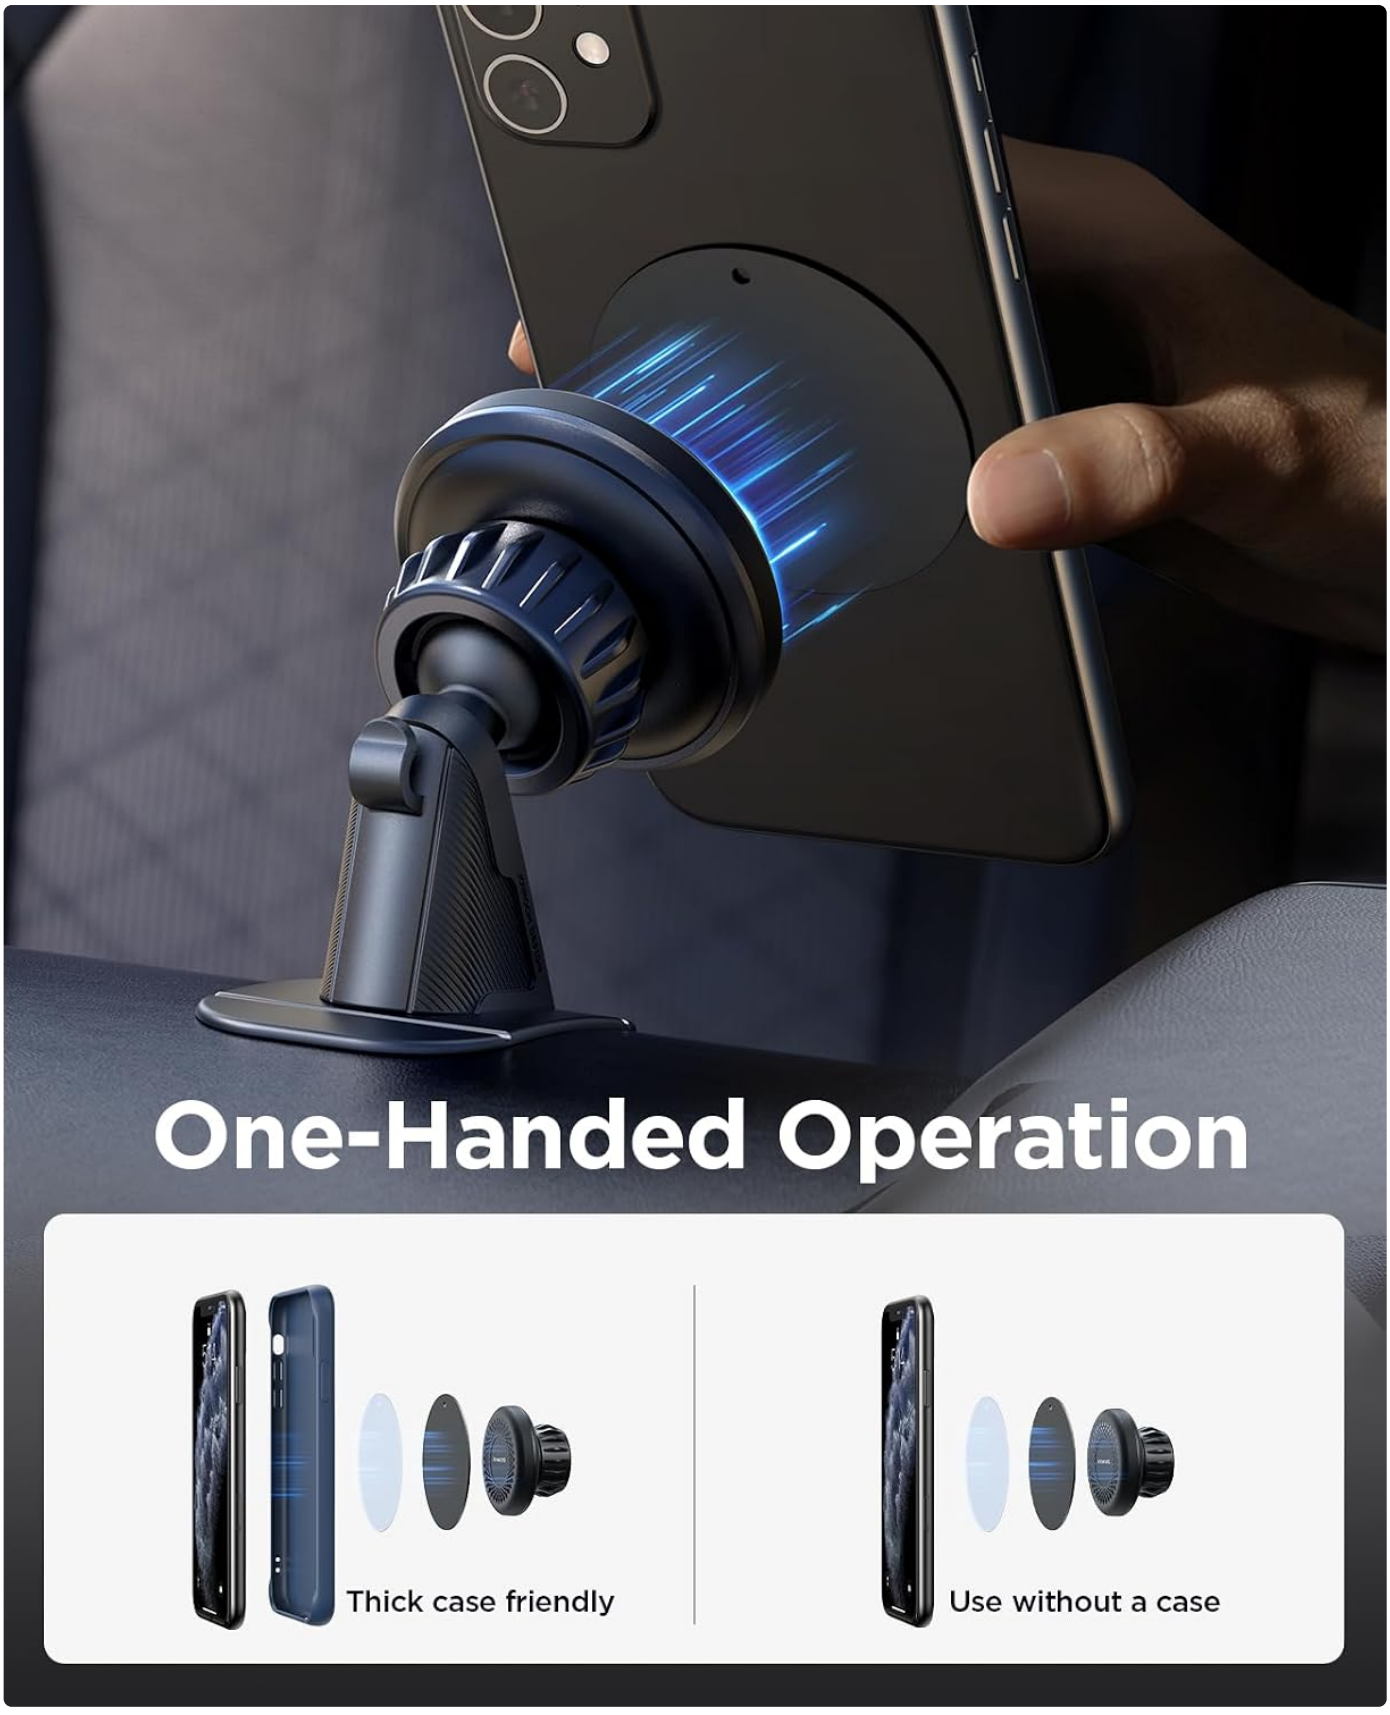

Figure 2.2: Illustration of how to use the metal plate with or without a phone case for magnetic attachment.

3. Operating Instructions

Using your Joyroom JR-ZS356 Magnetic Car Phone Mount is simple and intuitive:

1. **Attaching Your Device:** Once the metal plate is installed on your phone (or inside its case), simply bring the back of your phone close to the magnetic surface of the mount. The strong magnets will automatically secure your device in place.

2. **Adjusting Viewing Angle:** The mount features a rotatable head, allowing you to adjust your device to any desired viewing angle (360° rotation). Gently pivot the phone to achieve the optimal position for navigation or hands-free calls.
3. **Detaching Your Device:** To remove your phone, simply pull it away from the magnetic surface. The strong magnetic force ensures a secure hold but allows for easy detachment when needed.

Figure 3.1: The mount utilizes an innovative magnet layout (N52 magnets) to provide a strong magnetic force, capable of holding devices up to 4kg.

Figure 3.2: The soft silicone surface of the magnetic head protects your phone from scratches and prevents slipping.

Figure 3.3: The compact design ensures the mount does not obstruct your view, even during sharp turns, acceleration, or on bumpy roads.

4. Maintenance

To ensure the longevity and optimal performance of your Joyroom JR-ZS356 Magnetic Car Phone Mount, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the mount's surface with a soft, damp cloth to remove dust and grime. Avoid using harsh chemicals or abrasive cleaners, as these can damage the material.

- **Adhesive Care:** If you need to reposition the mount, carefully peel it off and clean both the mount's base and the dashboard surface before re-applying. Note that repeated re-application may reduce the adhesive's effectiveness.
- **Temperature Exposure:** Avoid exposing the mount to extreme temperatures for prolonged periods, as this may affect the adhesive and material integrity.

5. Troubleshooting

If you encounter any issues with your Joyroom JR-ZS356 Magnetic Car Phone Mount, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mount is not sticking to the dashboard.	Surface was not clean or dry; adhesive has lost stickiness.	Ensure the dashboard surface is thoroughly cleaned and dry before application. If adhesive is worn, consider using a new adhesive pad (not included).
Phone is not holding securely.	Metal plate is not correctly positioned or too far from the magnet; phone is too heavy.	Ensure the metal plate is centered on your phone or inside the case. Verify your phone's weight is within the supported range (up to 4kg).
Mount is wobbly or unstable.	Mount not firmly pressed during installation; surface is uneven.	Re-press the mount firmly onto the dashboard, ensuring a flat and stable surface. Allow 24 hours for adhesive to cure.

6. Specifications

Feature	Detail
Brand	Joyroom
Model Number	JR-ZS356
Product Dimensions	9 x 5 x 4 cm
Item Weight	150 g
Material	ABS+PC, Silicone
Color	Black
Mounting Type	Vent / Dashboard (Adhesive)
Compatible Devices	Smartphones, GPS, Mini Tablets (4-7 inches)
