# Replacement 5 Cup Clover Shape Plastic Blender Jar

**Brand:** joystar | **Model:** 084036-000-000

Overview Setup Operating Maintenance Troubleshooting Specifications Support

## 1. Product Overview

This manual provides instructions for the joystar Replacement 5 Cup Clover Shape Plastic Blender Jar, model 084036-000-000. This replacement jar is designed to be compatible with various Oster Classic Series and Osterizer blender models, ensuring a seamless fit and continued functionality for your blending needs.

The package includes one 5-cup clover shape plastic blender jar with a lid, ready for immediate use as a direct replacement for your original blender jar.

Figure 1.1: The joystar Replacement 5 Cup Clover Shape Plastic Blender Jar, complete with its black lid. This image shows the full assembly of the jar, including the handle and measurement markings on the side.

## 2. Setup and Installation

Before first use, or when replacing an existing jar, ensure the blender unit is unplugged from the power outlet. This replacement jar is designed for easy installation.

### 2.1 Compatibility Check

This blender jar is compatible with the following Oster blender models:

- 6647
- 6750

- 6804
- 6805
- 6806
- 6809
- 6811
- 6814
- 6854
- 6864
- 6870
- 6873
- 6881
- 6891
- BLST6812

It is also compatible with jar cover models 083820-000-805, 110403-000-090, and 083820-000-090.

### 2.2 Initial Cleaning

Before first use, wash the blender jar and lid thoroughly with warm, soapy water. Rinse completely and dry.

### 2.3 Installation Steps

1. Ensure your blender's base is clean and free of debris.
2. Place the new blender jar securely onto the blender base. The clover shape design ensures proper alignment.
3. Place the lid firmly onto the top of the jar. Ensure the filler cap is inserted into the lid opening.
4. The blender is now ready for use.

## 3. Operating Instructions

This replacement jar functions identically to the original Oster blender jar. Always ensure the jar is properly assembled and secured before operating your blender.

### 3.1 Filling the Jar

Add ingredients to the blender jar. Do not exceed the maximum fill line indicated on the jar. For best results, add liquids first, then soft ingredients, followed by harder ingredients and ice.

Figure 3.1: The clear plastic blender jar showing volume measurement markings in liters and cups, aiding in precise ingredient measurement.

## 3.2 Securing the Lid

Place the black lid firmly onto the top of the jar. Ensure it is seated correctly to prevent spills during operation. The lid includes a removable filler cap for adding ingredients while blending.

Figure 3.2: A top-down view of the blender jar with the black lid securely in place, highlighting the central opening for the filler cap.

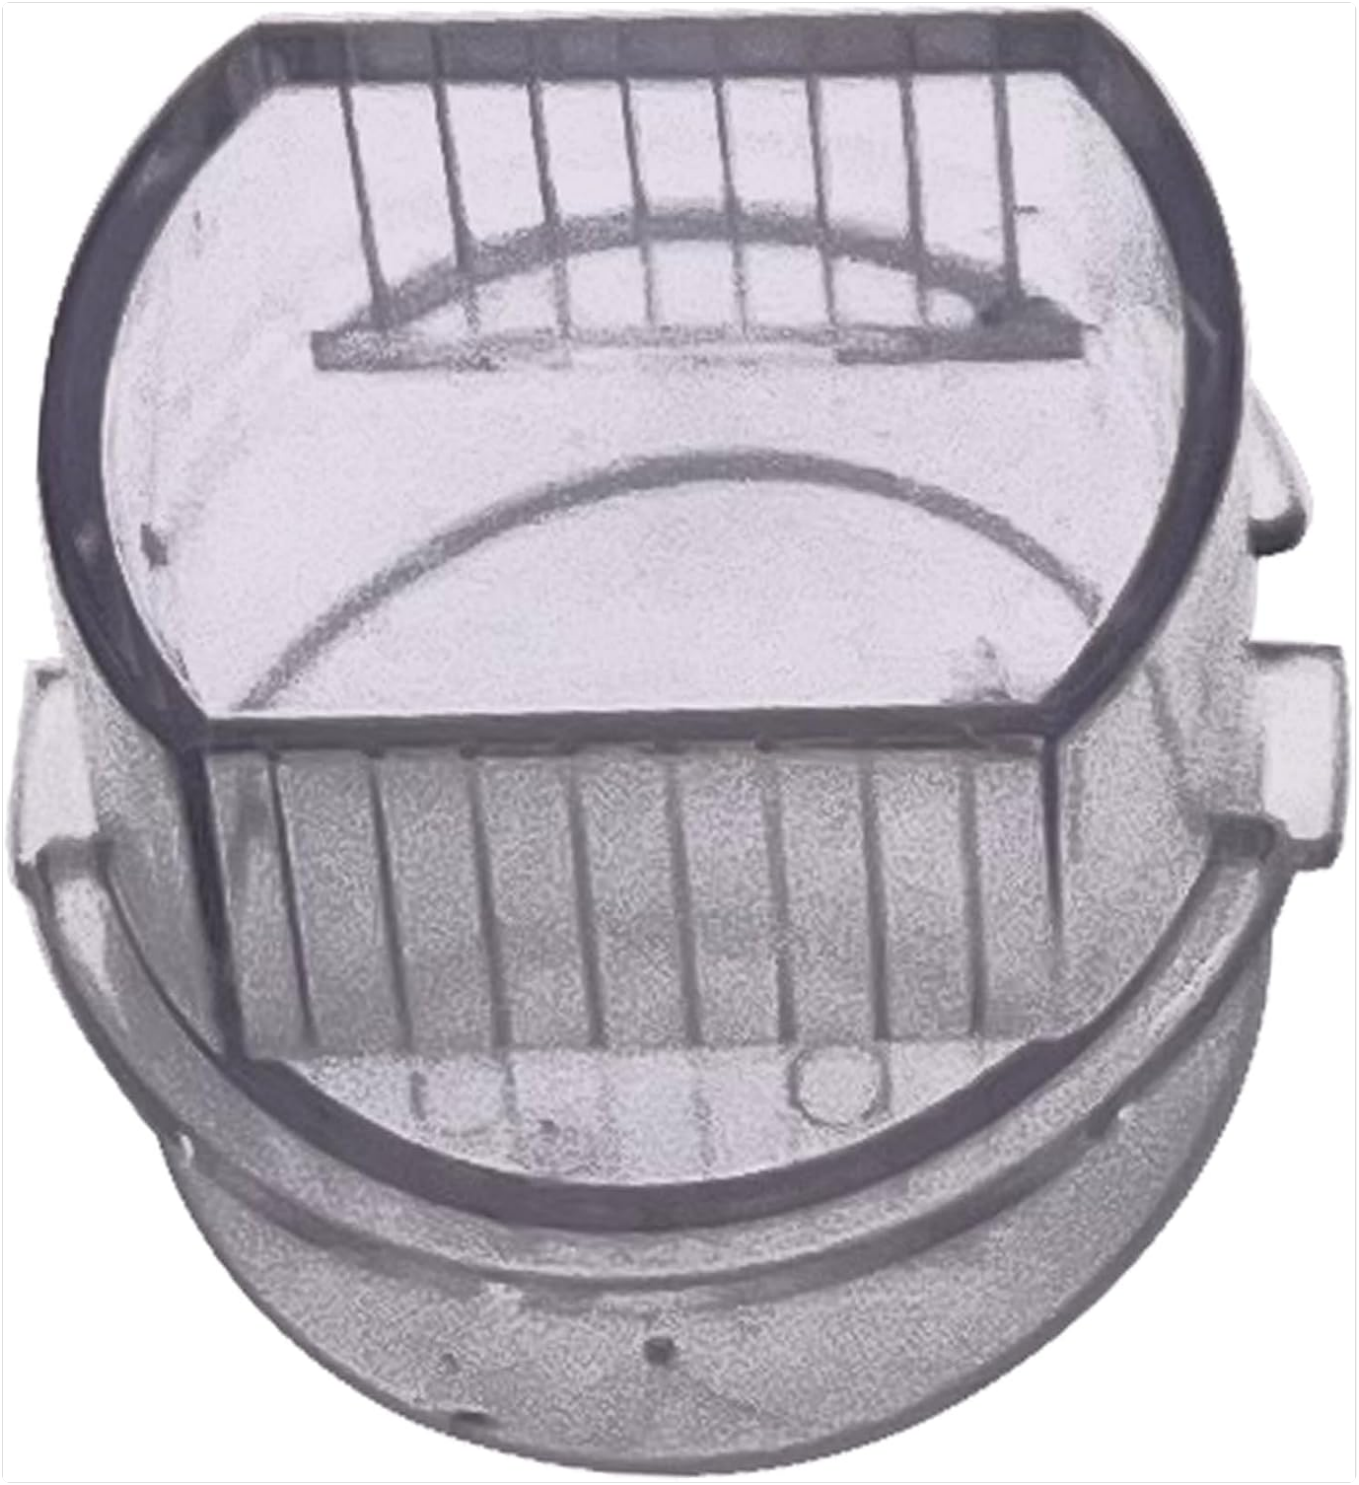

Figure 3.3: Close-up view of the clear plastic filler cap, which fits into the lid's central opening, allowing for ingredient addition during blending.

### 3.3 Blending

Once the jar is filled and the lid is secured, place the jar onto your compatible Oster blender base. Refer to your Oster blender's original instruction manual for specific blending speeds and durations. Always ensure the lid is on before starting the blender.

## 4. Care and Maintenance

Proper care will extend the life of your replacement blender jar.

### 4.1 Cleaning

- **After Each Use:** Immediately rinse the jar and lid with warm water to prevent food from drying on.

- **Hand Washing:** Wash the jar and lid with warm, soapy water using a soft sponge or cloth. Avoid abrasive cleaners or scouring pads, as they can scratch the plastic.
- **Dishwasher Safe:** The plastic jar and lid are generally top-rack dishwasher safe. However, hand washing is recommended for longevity.
- **Drying:** Allow all parts to air dry completely before storing to prevent odor or mildew buildup.

### 4.2 Storage

Store the clean and dry blender jar and lid in a cool, dry place. Avoid storing heavy objects on top of the jar to prevent deformation or damage.

## 5. Troubleshooting

If you encounter issues with your replacement blender jar, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---|---|---|
| Jar does not fit securely on blender base. | Incorrect alignment or incompatible blender model. | Ensure the jar's base is aligned with the blender's coupling. Verify your blender model is listed in the compatibility section (Section 2.1). |
| Lid does not seal properly. | Lid not seated correctly or debris on rim. | Remove the lid and check for any food particles or debris on the rim of the jar or the lid's sealing surface. Re-seat the lid firmly, ensuring it clicks into place if applicable. |
| Leakage from the bottom of the jar. | Blender blade assembly (not included) is loose or damaged. | This jar is a replacement for the plastic jar only. Ensure your existing blade assembly and sealing gasket are correctly installed and not damaged. If leakage persists, the issue may be with the blade assembly or blender base, not the jar itself. |

## 6. Product Specifications

- **Model Number:** 084036-000-000
- **Capacity:** 5 Cups
- **Material:** Plastic
- **Color:** Clear Jar with Black Lid
- **Package Dimensions:** 10 x 7 x 5.2 inches
- **Item Weight:** 12.6 ounces
- **Compatibility:** Compatible with Oster Classic Series Blender and Osterizer blender models 6647, 6750, 6804, 6805, 6806, 6809, 6811, 6814, 6854, 6864, 6870, 6873, 6881, 6891, BLST6812.
