NATERIAL NOA

NATERIAL Noa Outdoor Table Instruction Manual

Model: NOA

Introduction

Thank you for choosing the NATERIAL Noa Outdoor Table. This manual provides essential information for the proper assembly, operation, and maintenance of your new table. Please read it thoroughly before use and retain it for future reference.
The NATERIAL Noa table is designed for versatile use, suitable for both indoor and outdoor environments such as gardens, terraces, dining rooms, and patios. It features a robust aluminum structure and a tempered glass top, ensuring durability and ease of cleaning.

Safety Information

Please observe the following safety guidelines to ensure safe use and prolong the life of your table:

- Always assemble and level the table before use. Ensure all connections are secure.
- Do not exceed the maximum weight limit of **50 kg (110 lbs)** on the table surface. Overloading can cause damage or instability.
- Use caution when placing the table on uneven surfaces or outdoors to prevent tipping. Utilize the adjustable feet to stabilize the table on irregular ground.
- Keep children and pets away from the table during assembly to prevent injury from small parts.
- Avoid placing hot items directly on the tempered glass surface without a protective mat.
- Do not stand or sit on the table.

Package Contents

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

- 1x Tempered Glass Tabletop
- 1x Rattan Style Frame (integrated with tabletop)
- 2x Aluminum Leg Frames
- 4x Adjustable Feet (pre-installed or to be attached)
- Assembly Hardware (screws, washers, Allen key if applicable)

Assembly Instructions

Assembly typically requires a screwdriver. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent scratches.
2. **Attach Leg Frames:** Position the rattan style frame (with integrated tabletop) upside down. Align the two aluminum leg frames with the designated attachment points on the underside of the tabletop frame.
3. **Secure Legs:** Using the provided screws and a screwdriver, securely fasten the leg frames to the tabletop frame. Ensure all screws are tightened firmly but do not overtighten.
4. **Attach Adjustable Feet (if not pre-installed):** If the adjustable feet are not pre-installed, screw them into the bottom of each leg frame until snug.
5. **Position and Level:** Carefully turn the assembled table upright. Place it in its desired location. Adjust the feet by rotating them clockwise or counter-clockwise until the table is stable and level on the surface.

Figure 3: Detail of the adjustable feet, which allow for leveling the table on uneven surfaces.

Operation

The NATERIAL Noa table is designed for versatile use as a dining or accent table. Its robust construction makes it suitable for both indoor and outdoor environments.

- **Placement:** Position the table on a flat, stable surface. For outdoor use, consider placing it in a sheltered area to minimize exposure to extreme weather, although it is designed to be weather-resistant.
- **Weight Distribution:** Distribute weight evenly across the tabletop. Do not concentrate heavy items in one small area.
- **Compatibility:** This table is designed to complement NATERIAL Noa garden chairs and dining room furniture, allowing for a cohesive outdoor living space design.

Maintenance

Regular cleaning and proper care will help maintain the appearance and longevity of your NATERIAL Noa table.

- **Cleaning the Glass Top:** Wipe the tempered glass surface with a soft cloth dampened with water and a mild glass cleaner. Avoid abrasive cleaners or scouring pads that could scratch the glass.
- **Cleaning the Frame:** The aluminum frame and rattan-style elements can be cleaned with a soft cloth and mild soapy water. Rinse thoroughly with clean water and dry completely to prevent water spots.
- **Weather Protection:** While the table is weather-resistant, prolonged exposure to harsh weather conditions (e.g., heavy rain, snow, direct intense sunlight) can affect its lifespan. Consider using a furniture cover during off-seasons or extreme weather.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

Troubleshooting

If you encounter any issues with your NATERIAL Noa table, refer to the following common solutions:

Problem	Possible Cause	Solution
Table is wobbly or unstable.	Uneven floor surface; loose assembly screws.	Adjust the leveling feet on the bottom of the legs until the table is stable. Check and tighten all assembly screws.

Problem	Possible Cause	Solution
Scratches on glass top.	Abrasive cleaning materials; sharp objects placed directly on glass.	Use only soft cloths and non-abrasive cleaners. Always use coasters or protective mats under items that could scratch the surface.
Discoloration or fading of rattan/frame.	Prolonged exposure to direct sunlight or harsh weather.	While designed for outdoor use, consider using a furniture cover during extended periods of harsh weather or intense sun to preserve appearance.

Specifications

Detailed specifications for the NATERIAL Noa Outdoor Table:

Feature	Detail
Brand	NATERIAL
Model Number	NOA
Product Dimensions (D x W x H)	80 cm x 80 cm x 66 cm (31.5"D x 31.5"W x 25.98"H)
