HeroSet 5066H

HeroSet 5066H Ergonomic Office Chair Instruction Manual

Model: 5066H | Brand: HeroSet

Important Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- **MAXIMUM WEIGHT CAPACITY:** 400 lbs. Do not exceed this limit.
- **ADJUSTABLE FUNCTIONS:** Be cautious when using adjustable features to prevent injury.
- **ASSEMBLY REQUIRED:** Follow instructions carefully. Ensure all screws are tightened every three months for product safety, stability, and durability.
- Use only on stable, level surfaces.
- Keep children and pets away from the chair during assembly.
- Avoid standing on the chair.

Setup and Assembly

The HeroSet 5066H office chair is designed for straightforward assembly. All necessary tools and detailed instructions are provided. Assembly typically takes approximately 20 minutes.

Package Contents:

- Chair Backrest
- Chair Seat
- Armrests (2)
- Base with Casters
- Gas Lift Cylinder
- Mechanism Plate
- Hardware Pack (screws, washers, Allen wrench)
- Instruction Manual

Assembly Steps:

1. **Attach Casters to Base:** Insert each caster into the holes on the chair base until securely fitted.
2. **Insert Gas Lift:** Place the gas lift cylinder into the center hole of the chair base.
3. **Attach Mechanism Plate to Seat:** Align the mechanism plate with the screw holes on the underside of the seat cushion. Secure with the provided screws and Allen wrench. Ensure the front of the mechanism faces the front of the seat.
4. **Attach Armrests to Seat:** Secure the armrests to the sides of the seat cushion using the designated screws.
5. **Attach Backrest to Armrests:** Align the backrest with the armrests and secure using the remaining screws. It is recommended to have a second person assist with this step to stabilize the chair.
6. **Connect Seat to Gas Lift:** Carefully place the assembled seat and backrest onto the gas lift cylinder, ensuring it is firmly seated.

Operating Instructions

Height Adjustment:

To adjust the chair's height, locate the lever on the right side, beneath the seat. While seated, pull the lever upwards to lower the chair. To raise the chair, lift your weight off the seat and pull the lever upwards. Release the lever at the desired height.

Video 1: Demonstration of the height adjustment and rocking function of the HeroSet 5066H ergonomic office chair. This video shows a user adjusting the chair's height and engaging the rocking mechanism.

Rocking Function and Tilt Lock:

The chair features a 90-120° tilt adjustment for rocking. To enable the rocking function, pull the same lever (used for height adjustment) outwards. To lock the chair in an upright position, push the lever inwards. The tilt tension can be adjusted by rotating the round knob located under the seat, allowing you to control the ease of rocking.

Figure 3: Image detailing the reclining function and controls of the HeroSet 5066H office chair. It shows the tilt tension knob and the recline lock lever, illustrating how to adjust the chair's recline and rocking capabilities.

Flip-up Armrests:

The armrests can be flipped up by rotating them upwards to a 90° angle. This feature allows the chair to be pushed closer to a desk, saving space when not in use, or to provide more freedom of movement.

Figure 4: The HeroSet 5066H office chair demonstrating its flip-up armrests. This feature allows the armrests to be rotated upwards, enabling the chair to be stored more compactly under a desk.

Maintenance and Care

- **Cleaning:** Wipe clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the PU leather.
- **Screw Tightening:** To ensure long-term safety, stability, and durability, periodically check and tighten all assembly screws every three months.
- **Caster Care:** The quiet PU casters are designed to protect floors. Keep them free of debris to ensure smooth rolling.
- **Leather Care:** The breathable and easy-to-clean PU leather upholstery is designed for durability. Avoid prolonged exposure to direct sunlight or extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Chair wobbles or feels unstable.	Loose screws or uneven assembly.	Check and tighten all assembly screws. Ensure the chair is on a flat, even surface.
Gas lift not adjusting height.	Lever not fully engaged or gas lift malfunction.	Ensure the height adjustment lever is pulled completely. If the issue persists, contact customer support.
Chair does not rock or tilt.	Tilt lock engaged or tension too tight.	Pull the tilt lock lever outwards to enable rocking. Adjust the tilt tension knob counter-clockwise to loosen.
Casters not rolling smoothly.	Debris caught in casters.	Inspect casters for hair or debris and clean as necessary.

Specifications

Brand:	HeroSet

Answered questions about this manual

The seat cushion of my HeroSet 5066H office chair is too high for my wife even at the lowest setting; what can I do?

The HeroSet 5066H is designed as a "Big and Tall" chair, which often results in a higher minimum seat height than standard office chairs. According to the specifications, the chair's total height ranges from...
