Dpofirs Portable Body Camera User Manual

Model: Dpofirsb3seo6hfq9

1. Introduction

This manual provides comprehensive instructions for the Dpofirs Portable Body Camera, Model Dpofirsb3seo6hfq9. This compact device is designed for various recording needs, offering 720p HD video, night vision, and multi-functional capabilities. Please read this manual thoroughly before operating the device to ensure proper usage and optimal performance.

2. Product Overview

The Dpofirs Portable Body Camera is a versatile recording device featuring a durable clip design for easy attachment. It integrates multiple functions into a single compact unit.

2.1 Key Features

- **720p HD Video Resolution:** Captures clear video footage.
- **Infrared (IR) Night Vision:** Equipped with 6 LED infrared lights for recording in low-light or dark environments.
- **180° Rotating Lens:** Allows for flexible adjustment of the recording angle.
- **Multi-functional Device:** Operates as a video camera, audio recorder, and USB storage device.

- **Automatic Power-Fail Saving:** Automatically saves recorded files and powers off when the battery is low or power is interrupted.
- **Loop Recording:** Overwrites the oldest files when the memory card is full, ensuring continuous recording.
- **Mobile Detection:** Supports motion-activated recording.
- **Built-in Rechargeable Battery:** Provides long-lasting recording capability (400 mAh).
- **Record While Charging:** Allows continuous operation when connected to a power source.

2.2 Package Contents

Please check the package for the following items:

- 1 x Dpofirs Portable Body Camera (Recorder)
- 1 x USB Data Cable
- 1 x English User Manual

Note: A memory card (TF/Micro SD card) is NOT included and must be purchased separately for recording functionality.

3. Setup

Follow these steps to prepare your Dpofirs Portable Body Camera for use.

3.1 Charging the Battery

1. Connect the camera to a USB power adapter (not included) or a computer's USB port using the provided USB data cable.
2. The indicator light will illuminate during charging. Refer to the camera's indicator light behavior for charging status (details typically found in the included manual).
3. A full charge typically takes approximately 2-3 hours.

3.2 Inserting a Memory Card

A Micro SD card (TF card) is required for recording and storing footage. The camera supports memory expansion, but the card is not included.

1. Locate the Micro SD card slot on the side of the camera.
2. Gently insert a Micro SD card (Class 10 or higher recommended) into the slot with the gold contacts facing the correct direction (refer to the camera's markings).
3. Push the card in until it clicks into place. To remove, push it in again until it springs out.

4. Operating Instructions

This section details how to operate your Dpofirs Portable Body Camera for various functions.

4.1 Powering On/Off

- **To Power On:** Press and hold the Power button (often labeled 'On/Off') for a few seconds until the indicator light illuminates.
- **To Power Off:** Press and hold the Power button again for a few seconds until the indicator light turns off.

4.2 Adjusting the Lens

The camera features a 180° rotating lens, allowing you to adjust the recording angle as needed.

Figure 3: Illustration of the camera's lens rotation, demonstrating how it can be manually adjusted to face forward, backward, or upward for different recording perspectives.

- Gently rotate the lens module to your desired position. It can rotate from facing forward to backward, and also upward.
- Ensure the lens is clean and unobstructed for clear footage.

4.3 Video Recording

1. Ensure the camera is powered on and a formatted Micro SD card is inserted.
2. Press the 'Save-Video' button (or equivalent) once to start video recording. The indicator light will change to confirm recording has begun.
3. Press the 'Save-Video' button again to stop recording and save the file.

4.4 Audio Recording (Voice Recorder)

1. Ensure the camera is powered on and a formatted Micro SD card is inserted.
2. Press the 'Save-Rec' button (or equivalent) once to start audio recording. The indicator light will change to confirm recording has begun.
3. Press the 'Save-Rec' button again to stop recording and save the audio file.

4.5 Night Vision Mode

The camera automatically activates its infrared night vision in low-light conditions.

Figure 4: The camera's infrared night vision feature allows for clear recording in dark environments, as depicted by the night shot example.

- The 6 LED infrared lights will automatically engage when the ambient light is insufficient.
- This allows the camera to capture clear footage even in complete darkness.

4.6 Connecting to a Computer

To access recorded files or use the camera as a USB drive:

1. Ensure the camera is powered off.
2. Connect the camera to your computer using the provided USB data cable.
3. The computer should recognize the camera as a removable disk.
4. You can then browse, copy, or delete files from the Micro SD card.

5. Maintenance

Proper maintenance ensures the longevity and optimal performance of your camera.

- **Cleaning:** Use a soft, dry cloth to clean the camera body. For the lens, use a specialized lens cleaning cloth to avoid scratches. Do not use liquid cleaners.
- **Storage:** Store the camera in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Care:** For long-term storage, charge the battery to about 50% every few months to prevent deep discharge.
- **Avoid Impacts:** Protect the camera from drops and strong impacts, which can damage internal components.

6. Troubleshooting

If you encounter issues with your Dpofirs Portable Body Camera, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Camera does not power on.	Low battery; device malfunction.	Charge the camera fully. If still unresponsive, contact customer support.
Cannot record video/audio.	No Micro SD card inserted; card full or corrupted; card not formatted.	Insert a Micro SD card. Ensure the card has sufficient space. Format the card (refer to the included manual for formatting instructions, usually done via computer).
Video records without sound, or sound records without video.	Incorrect recording mode selected; firmware issue.	Ensure you are pressing the correct button for video ('Save-Video') or audio ('Save-Rec'). If the issue persists, try resetting the device (if a reset button is available) or contact customer support.
Poor video quality or blurry images.	Dirty lens; insufficient lighting; camera movement.	Clean the lens. Ensure adequate lighting or use night vision in dark conditions. Hold the camera steady during recording.
Camera is unresponsive or glitchy.	Software error; low battery; corrupted memory card.	Power off and restart the camera. Ensure the battery is charged. Try using a different, formatted Micro SD card. If issues persist, contact customer support.

7. Specifications

Detailed technical specifications for the Dpofirs Portable Body Camera.

- **Brand:** Dpofirs

- **Model:** Dpofirsb3seo6hfq9
- **Item Weight:** 2.11 ounces
- **Package Dimensions:** 5.55 x 2.8 x 1.34 inches
- **Color:** Black
- **Special Features:** Night Vision, 180° Rotating Lens, Loop Recording, Mobile Detection
- **Photo Sensor Technology:** CMOS
- **Video Capture Resolution:** 720p
- **Flash Memory Type:** Micro SD (TF Card) - *Not included*
