SIMPLI-MAGIC 79550

Simpli-Magic Dual-Wheel Home Utility Yard Wheelbarrow Garden Cart

MODEL: 79550

Introduction

Thank you for choosing the Simpli-Magic Dual-Wheel Home Utility Yard Wheelbarrow. This manual provides essential information for the safe assembly, operation, and maintenance of your new wheelbarrow. Please read these instructions thoroughly before use and retain them for future reference.

Image: The Simpli-Magic Dual-Wheel Wheelbarrow, green with yellow frame and black tires, shown in a garden filled with various

colorful flowers.

Safety Instructions

Always observe the following safety precautions to prevent injury or damage to the wheelbarrow:

- **Weight Capacity:** Do not exceed the maximum weight capacity of 330 lbs (150 kg). Overloading can cause structural damage and personal injury.
- **Assembly:** Ensure all components are correctly assembled and all fasteners are tightened securely before initial use. Regularly check for loose parts.
- **Terrain:** Operate the wheelbarrow on stable, relatively even ground. Be cautious on slopes and uneven surfaces to prevent tipping.
- **Loading:** Distribute loads evenly in the bin. Place heavier items towards the axle for better balance.
- **Children and Pets:** Keep children and pets away from the wheelbarrow during operation and storage.
- **Storage:** Store the wheelbarrow in a dry, protected area when not in use to prevent corrosion and material degradation.

Package Contents

Before assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, contact customer support.

- Wheelbarrow Bin (Plastic)
- Frame Components (Powder-Coated Steel)
- Two (2) 13-inch Pneumatic Rubber Wheels
- Handlebar with Padded Grips
- Axle
- Hardware Kit (Bolts, Nuts, Washers, Cotter Pins)

Assembly Instructions

Assembly is required. Follow these steps carefully. It is recommended to have a second person assist with assembly.

1. **Attach the Frame to the Bin:** Secure the main frame components to the underside of the plastic bin using the provided bolts, washers, and nuts. Do not fully tighten until all frame pieces are loosely attached.
2. **Install the Axle:** Slide the axle through the designated holes in the frame.
3. **Mount the Wheels:** Place one wheel onto each end of the axle. Secure each wheel with the appropriate washers and cotter pins. Ensure the wheels spin freely.
4. **Attach the Handlebar:** Connect the handlebar assembly to the main frame. The padded handlebar also functions as a stand. Ensure it is oriented correctly for comfortable use and stable standing.
5. **Tighten All Fasteners:** Once all components are in place, systematically tighten all bolts and nuts. Do not overtighten, but ensure a secure fit.
6. **Check Tire Pressure:** The 13-inch pneumatic rubber tires may require inflation before first use. Inflate to the recommended pressure indicated on the tire sidewall.

Operating Instructions

The Simpli-Magic Dual-Wheel Wheelbarrow is designed for various home utility and gardening tasks.

- **Loading:** The deep bin can hold up to 5 cubic feet of materials such as soil, bricks, mulch, or gravel. Load materials evenly to maintain balance.
- **Capacity:** Do not exceed the maximum weight capacity of 330 lbs.
- **Maneuvering:** The dual-wheel design provides stability and makes it easier to steer across various terrains, including grass, soil, and uneven paths.
- **Standing Position:** The thick, padded handlebar is designed to double as a stand, allowing the wheelbarrow to rest upright when not in motion.

Maintenance

Regular maintenance will extend the life of your wheelbarrow.

- **Cleaning:** After each use, especially when transporting wet or corrosive materials, clean the plastic bin and frame with water. Dry thoroughly to prevent rust on metal components.
- **Tire Care:** Periodically check the tire pressure of the 13-inch pneumatic wheels. Inflate as needed to the recommended PSI. Inspect tires for wear or damage.
- **Fasteners:** Regularly inspect all bolts, nuts, and cotter pins for tightness. Tighten any loose fasteners to ensure structural integrity.
- **Storage:** Store the wheelbarrow in a dry, covered area to protect it from extreme weather conditions, which can degrade materials over time. The powder-coated steel frame is designed to resist wear, but proper storage further enhances longevity.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Wheelbarrow feels unstable:**
  - Check if the load is evenly distributed.
  - Verify tire pressure in both wheels.
  - Ensure all frame bolts are securely tightened.

- **Difficulty pushing or steering:**
  - Check tire pressure; underinflated tires can increase resistance.
  - Ensure the load does not exceed the 330 lbs capacity.
  - Inspect wheels for any obstructions or damage.
- **Missing parts during assembly:**
  - Carefully re-check all packaging materials.
  - Contact Simpli-Magic customer support with your model number and purchase information for assistance.

Specifications

Model Number	79550
Brand	SIMPLI-MAGIC
Product Dimensions (L x W x H)	36" x 25" x 20"
Weight Capacity	330 lbs (150 kg)
Bin Material	Plastic
Frame Material	Powder-Coated Alloy Steel
Number of Wheels	2
Wheel Type	13-inch Pneumatic Rubber
Handle Material	Alloy Steel with Padded Grips
Assembly Required	Yes
