Besia RC902V

Besia RC902V Replacement Remote Control for TCL Android TVs

Model: RC902V | Brand: Besia

1. Introduction

This manual provides instructions for the Besia RC902V replacement infrared (IR) remote control, designed for use with various TCL Android TV models. This remote offers direct control over your television's functions and includes dedicated shortcut buttons for popular streaming services. Please note that this remote control operates via infrared technology and does not support voice control functions.
For a comprehensive list of compatible TCL Android TV models, please refer to Section 4: Compatibility List.

2. Package Contents

- 1 x Besia RC902V IR Remote Control
- *Batteries are NOT included.*

3. Setup

3.1 Battery Installation

1. Locate the battery compartment cover on the back of the remote control.
2. Slide the cover downwards or press the latch (if present) to open the compartment.
3. Insert two AAA batteries (not included), ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Replace the battery compartment cover by sliding it back into place until it clicks securely.

Note: This remote control is an infrared (IR) device and typically does not require pairing. It should function immediately after battery installation, provided there is a clear line of sight to your TCL Android TV's IR receiver.

6. Troubleshooting

Remote Not Responding:

- **Check Batteries:** Ensure batteries are inserted correctly with the correct polarity (+/-). Replace old or depleted batteries with new ones.
- **Line of Sight:** Make sure there is a clear path between the remote control and the IR receiver on your TCL Android TV. Obstructions can block the signal.
- **Distance:** Ensure you are within the effective operating range of the remote control (typically up to 20 feet).
- **Interference:** Strong light sources (like direct sunlight or certain fluorescent lights) can interfere with IR signals. Try operating the remote in a different lighting condition.

Specific Buttons Not Working:

- If only certain buttons are unresponsive, it might indicate a physical issue with the remote. Try the general troubleshooting steps first.
